

- March 26–
April 5
1989
Rehovot
- Institut de Biologie Physico-Chimique, The Weizmann Institute of Science, and Israel Biophysics Society
Twelfth Edmond de Rothschild School in Molecular Biophysics: Modern Aspects of Halophilism
Topics: Discussion of the understanding of biological adaptation to extreme environments, and particularly the study of organisms from saline environments. *Sessions:* Molecular evolution; gene expression; protein structure; energetics
Information: H. Eisenberg, Weizmann Institute of Science, Rehovot 76100, Israel, (972-8-48352) Application deadline 1st December 1988
- April 1–13
1989
Carry-le-Rouet
- British Biophysical Society and French Biophysical Society
Joint Meeting: Molecular Recognition
Information: Dr. S. E. V. Phillips, Department of Biophysics, University of Leeds, Leeds LS2 9JT, or Dr. J. Fonticella, Laboratoire de Cristallisation, Faculté Nord, Blvd P. Dramard, F-13326 Marseille, Cedex 15, France
- April 23–24
1989
Rehovot
- Israel Biochemical Society – Israel Biophysical Society
Joint Meeting
Topics: Molecular mechanisms of biological motors; regulation of and by ionic channels; protein phosphorylation in cellular recognition; biophysical aspects of molecular and cellular systems
Information: Dr. I. Pecht and Dr. H. Eisenberg, Weizmann Institute of Science, Rehovot 76100, Israel
- May 4–7
1989
Hünfeld (Rhön)
- German Biophysical Society
Structure–function relationships of biomacromolecules
Information: Prof. R. Jaenicke, Universität Regensburg, FB Biologie, Universitätsstrasse 31, D-8400 Regensburg, Federal Republic of Germany
- May 8–20
1989
Liège
- Belgian Biophysical Society
Biophysics Graduate Course
Topics: Preparation and purification of proteins; modelling biopolymer structure; structure and dynamics of proteins and nucleic acids; nucleic acids (4 periods of 15 h)
Information: Prof. J. Aghion, Biochimie Végétale, Département de Botanique, B22, Université de Liège, B-4000 Sart Tilman par Liège, Belgium
- June 27–30
1989
Poznan
- Polish Biophysical Society
International Symposium on Photobiology and Biotechnology
Topics: Solar energy conversion; environmental photobiology; photoreceptors in photobiology; spectral methods in photobiology; photobiology: new trends
Information: Prof. D. Frackowiak, Institute of Physics, Poznan Technical University, Piotrowo str. 3, PL-60-965 Poznan, Poland
- September 24–28
1989
Sevilla
- Spanish Biophysical Society
I Congreso Iberoamericano de Biophysica
Information: I Congreso Iberoamericano de Biophysica, Departamento Fisiologia y Biofisica, Facultad de Medicina, Avenida Sanchez Pizjuan 4, E-41009 Sevilla, Spain
- October 3–6
1989
Heidelberg
- EMBL and Third EBSA Workshop
Patterns in protein sequences and structure
Information: Dr. Patrick Argos, EMBL, Meyerhofstrasse, D-6900 Heidelberg, Federal Republic of Germany, and Dr. Willie Taylor, National Institute for Medical Research, Mill Hill, London NW7, England
