

Papers to be Published

H. SOBIS and M. VANDEPUTTE

Teratoma induction in mice and rats in relation to the age of the visceral yolk sac.

S. OKADA, K. ITAYA and Y. KURATA

Identification of a tumor-specific antigen in the insoluble fraction of human nephroblastoma. (Preliminary Communication).

J. M. ANDRIEU, C. BAYLE-WEISGERBER, M. BOIRON, J. F. BRIERE, PF. CLOT, M. DANA, CL. JACQUILLAT, M. KATZ and F. TEILLET

The chemotherapy-radiotherapy sequence in the management of Hodgkin's disease. Results of a clinical trial.

J. P. LAMELIN, C. VINCENT, T. SOUSSI and J. P. REVILLARD

¹²⁵I Clq-binding activity and its relationship with anti-Epstein-Barr virus antibodies in sera from nasopharyngeal carcinoma patients.

P. HILGARD and B. MAAT

Mechanism of lung tumour colony reduction caused by coumarin anticoagulation.

H. S. TAPER and P. BANNASCH

Histochemical differences between so-called megalocytosis and neoplastic or preneoplastic liver lesions induced by *N*-nitrosomorpholine.

J. BERKELHAMMER, M. J. MASTRANGELO, R. E. BELLET, D. BERD and R. T. PREHN

Chemoimmunotherapy increases the lymphocyte reactivity of melanoma patients.

I. D. CAPEL, M. H. PINNOCK and D. C. WILLIAMS

An *in vitro* assessment of the effect of cytotoxic drugs upon the intestinal absorption of nutrients in rats.
