(June 1981)

Human Cancer

L. Danel, P. Martin, E. Estrich, N. Tubiana, D. Fiere and S. Saez: Androgen, estrogen and progesterin binding sites in human leukemic cells.

G. J. Floersheim and J. Torhorst: Control of a human tumour (Ewing sarcoma) in mice by a single lethal dose of dimethylmyleran and bone marrow.

D. Lundblad and E. Lundgren: Block of a glioma cell line in S by interferon.

K. Alitalo, J. Keski-Oja and A. Vaehri: Extracellular matrix proteins characterize human tumor cell lines.

E. Ruoslahti, H. Jalanko, D. E. Comings, A. M. Neville and D. Raghavan: Fibronectin from human germ cell tumors resembles amniotic fluid fibronectin.

D. M. Herlyn and H. Koprowski: Monoclonal anticolon carcinoma antibodies in complement-dependent cytotoxicity.

S. M. Loop, K. Nishiyama, I. Hellström, R. G. Woodbury, J. P. Brown and K. E. Hellström: Two human tumor-associated antigens, p155 and p210, detected by monoclonal antibodies.

Experimental Cancer

M. J. Rogers and L. W. Law: Some immunogenic and biochemical properties of tumor associated transplantation antigens (TATA) obtained in soluble form or solubilized from two methylcholanthrene induced sarcomas, Meth A and CI-4.

B. Payelle, M.-F. Poupon and G. Lespinats: Adoptive transfer of immunity induced by semi-allogeneic hybrid cells, against a murine fibrosarcoma.

M. Prat, G. Tarone and P. M. Comoglio: Mouse fibroblasts transformed by Rous sarcoma virus express a virus-specific non-virion transplantation antigen.

D. K. Sinha and J. E. Pazik: Tumorigenesis of mammary gland by 7,12 dimethylbenz(a)anthracene during pregnancy: Relationship with DNA synthesis.

Q. J. Tonelli, C. A. Long, A. B. Vaidya and S. Sorof: Lack of induction of murine mammary tumor virus expression in cultured mammary glands treated with chemical carcinogens.

A. Franchi, P. Silvestre and J. Pouységur: A genetic approach to the role of energy metabolism in the growth of tumor cells: Tumorigenicity of fibroblast mutants deficient either in glycolysis or in respiration.

S. Koyama, S. Fujimoto, T. Tada and T. Sakita: Effect of Bacillus Calmette-Guérin cell wall skeleton on the induction of the cytotoxic and suppressor T cells against syngeneic tumor in the mouse.

G. A. Luckenbach and D. Layton: Liposomally activated macrophages; subsequent interaction with L1210 leukemic cells.

Y. Kaneko: Antagonistic action of retinoic acid and teleocidin on the proliferation and epidermal growth factor binding of rat hepatoma cells.

E. Gorelik, S. Segal and M. Feldman: On the mechanism of tumor 'concomitant immunity'.

J. Svoboda: Helper virus-dependent RSV rescue from two lines of hamster cells transformed *in vivo* by XC RSV.

International Journal of Cancer

(July 1981)

Human Cancer

J. Werkmeister, W. McCarthy and P. Hersey: Suppressor cell activity in melanoma patients. I. Relation to tumor growth and immunoglobulin levels *in vivo*.

J. Werkmeister, G. Phillips, W. McCarthy and P. Hersey: Suppressor cell activity in melanoma patients. II. Concanavalin A-induced suppressor cells in relation to tumor growth and suppressor T cell subsets.

J. Taylor-Papadimitriou, J. A. Peterson, J. Arklie, J. Burchell, R. L. Ceriani and W. F. Bodmer: Monoclonal antibodies to epithelial-specific components of the human milk fat globule membrane: Production and reaction with cells in culture.

- J. Arklie, J. Taylor-Papadimitriou, W. Bodmer, M. Egan and R. Millis: Differentiation antigens expressed by epithelial cells in the lactating breast are also detectable in breast cancers.
- H. G. Kwa, F. Cleton, R. D. Bulbrook, D. Y. Wang and J. L. Hayward: Plasma prolactin levels and breast cancer: Relation to parity, weight and height, and age at first birth.
- J. P. Leung, W. A. Nelson-Rees, G. E. Moore, R. Cailleau and T. S. Edgington: Characteristics of membrane and cytosol forms of the mammary tumor glycoprotein molecule MTGP in human breast carcinoma cell cultures and tumors.
- R. D. Bulbrook, D. Y. Wang, J. L. Hayward, H. G. Kwa and F. Cleton: Plasma prolactin levels and age in a female population: Relation to breast cancer.
- W. L. Heyward, A. P. Lanier, T. R. Bender, H. H. Hardison, P. H. Dohan, B. J. McMahon and D. P. Francis: Primary hepatocellular carcinoma in Alaskan natives, 1969–1979.

Experimental Cancer

- E. Legrand, R. Daculsi, J. F. Bach and J. F. Duplan: Influence of serum thymic factor (FTS) on radiation induced leukaemogenesis in thymectomized AKR mice.
- B. Åsjö, E. M. Fenyö and G. Klein: Moloney virus (M-MuLV) leukemogenesis: virus spread, antibody production and antigenic expression in neonatally virus inoculated young mice.
- N. C. Popescu, S. C. Amsbaugh and J. A. DiPaolo: Relationship of carcinogen induced sister chromatid exchange and neoplastic cell transformation.
- B. L. Pope, R. L. Justice, C. Sarma and W. J. Martin: Non-specific cytotoxic cells generated *in vitro* in response to a weakly immunogenic murine adenocarcinoma. *In vivo* correlations.
- P. Scuderi and C. Rosse: The dependence of tumor neutralization on bone marrow derived cells.
- M. Habs, D. Schmähl and P. Z. Lin: Carcinogenic activity in rats of combined treatment with cyclophosphamide, methotrexate and 5-fluorouracil.
- D. Y. Lai, S. E. Bustos and E. F. Howard: Phosphorylation of chromosomal proteins from mammary cell lines.
- A. R. Rao: Effects of carcinogen and/or mutagen on normal and gonadotropin-primed ovaries of mice.
