Human Cancer

P. W. Andrews, P. N. Goodfellow, L. H. Shevinsky, D. L. Bronson and B. B. Knowles: Cell surface antigens of a clonal human embryonal carcinoma cell line: morphological and antigenic differentiation in culture.

O. M. Jensen and C. Kamby: Intra-uterine exposure to saccharine and the risk of bladder cancer in man.

R. Becher and C. G. Schmidt: Sister chromatid differentiation and cell cycle specific patterns in chronic myelocytic leukemia and normal bone marrow.

H. J. Garrigues, W. Tilgen, I. Hellström, W. Franke and K. E. Hellström: Detection of a human melanoma-associated antigen, p97, in histological sections of primary human melanomas.

K. M. Tveit, Ø. Fodstad, J. Lotsberg, S. Vaage and A. Pihl: Colony growth and chemosensitivity *in vitro* of human melanoma biopsies. Relationship to clinical parameters.

A. Togawa, N. Inoue, K. Miyamoto, H. Hyodo and M. Namba: Establishment and characterization of a human myeloma cell line (KMM-1).

M. Nuti, Y. A. Teramoto, R. Mariani-Costantini, P. Horan Hand, D. Colcher and J. Schlom: A monoclonal antibody (B72.3) defines patterns of distribution of a novel tumor associated antigen in human mammary carcinoma cell populations.

P. S. Sarin, M. Virmani and R. C. Gallo: Enrichment of cell populations containing terminal deoxynucleotidyl transferase activity by free flow electrophoresis.

M. Pfreundschuh, M. Röhrich, W. Piotrowski, P. Berlit and H. Penzholz: Natural antibodies to cell surface antigens of human astrocytoma.

F. Vánky and E. Klein: Specificity of auto-tumor cytotoxicity exerted by fresh, activated, and propagated human T lymphocytes.

Experimental Cancer

A. Therwath and K. Scherrer: *In vitro* transformation by avian erythroblastosis virus recruits cells of erythroid lineage with varying degree of differentiation.

E. Gorelik, R. H. Wiltout, M. J. Brunda, H. T. Holden and R. B. Herberman: Augmentation of metastasis formation by thioglycollate-elicited macrophages.

I. Kawase, D. L. Urdal, C. G. Brooks and C. S. Henney: Selective depletion of NK cell activity *in vivo* and its effect on the growth of NK sensitive and NK resistant tumor cell variants.

S. Watanabe, S. Kotake, A. Nozawa, T. Muto and S. Uchida: Tumorigenicity of human BK papovavirus plaque isolates, wild type and plaque morphology mutant, in hamsters.

G. H. Smith and G. Vlahakis: Separation of high mammary tumor incidence from high hepatoma incidence in backcross mice during segregation of the viable yellow gene.

G. H. Smith, T. J. Henry, G. Vlahakis and L. O. Arthur: Suppression of spontaneous mammary tumorigenesis despite Mtv-1 gene expression in hybrid and backcross C3H-A^yFB × C3H/Sm mice.

C. H. Holmes, B. Gunn, E. B. Austin, M. J. Embleton and R. W. Baldwin: Expression of a monoclonal antibody-defined liver-associated antigen in normal rat hepatocytes and hepatocellular carcinoma cells.

A. Gazit, Z. Schwarzbard, A. Yaniv, M. Ianculescu, K. Perk and A. Zimber: Organotropism of the lymphoproliferative disease virus (LPDV) of turkeys.
