Human Cancer

Y. Hinuma, H. Komoda, T. Chosa, T. Kondo, M. Kohakura, T. Takenaka, M. Kikuchi, M. Ichimaru, K. Yunoki, I. Sato, R. Matsuo, Y. Takiuchi and M. Hanaoka: Antibodies to adult T-cell leukemia virus-associated antigen (ATLA) in sera from patients with ATL and controls in Japan: a nation-wide sero-epidemiologic study.

J. Wiels, G. M. Lenoir, M. Fellous, M. Lipinski, J. C. Salomon, C. Tetaud and T. Tursz: A monoclonal antibody with anti-Burkitt lymphoma specificity: I. Analysis of human haematopoietic and lymphoid cell lines.

A. Reichmann, B. Levin and P. Martin: Human large bowel cancer: correlation of clinical and histopathological features with banded chromosomes.

R. Yatani, I. Chigusa, K. Akazaki, G. N. Stemmermann, R. A. Welsh and P. Correa: Geographic pathology of latent prostatic carcinoma.

C. Cuello, P. Correa and W. Haenszel: Socio-economic class differences in cancer incidence in Cali, Colombia.

Y. Gazitt, G. Klein and D. Sulitzeanu: Reactivity with patient antibodies of partially purified gp40 antigen from immune complexes in Burkitt's lymphoma and nasopharyngeal carcinoma.

G. Pellegris, M. T. Illeni, D. Rovini, M. Vaglini, N. Cascinelli and A. Ghidoni: HLA complex and familial malignant melanoma.

Experimental Cancer

S. Vuk-Pavlovic, V. Bozikov and K. Pavelic: Somatostatin-reduced proliferation of murine aplastic carcinoma conditioned to diabetes.

J. Ankerst and H. O. Sjögren: Effect of selenium on the induction of breast fibroadenomas by adenovirus type 9 and 1,2-dimethylhydrazine-induced bowel carcinogenesis in rats.

M. J. Titus, G. L. Bartlett and J. W. Kreider: *Corynebacterium parvum* prevents immunization to admixed irradiated tumor cells by a local process.

C. Yoosook: Shut down of virus synthesis during progression of erythroleukemia induced by Friend virus in mice.

A. B. DeLeo, K. S. S. Chang, N. A. Wivel, E. Appella, L. J. Old and L. W. Law: Possible role of a retrovirus in the expression of tumor specific antigens of the Meth A sarcoma. 1. Relating the serologically defined tumor specific surface antigen (TSSA) to the tumor associated transplantation antigen (TATA).

A. Raz and A. Ben-Ze'ev: Growth control and cell spreading: differential response in preneoplastic and in metastatic cell variants.

G. Forni, M. Giovarelli, L. Lanfrancione and L. Varesio: Suppressor macrophages in tumor bearing mice. Inconsistency between *in vivo* and *in vitro* findings?

C. Moroz, I. Madgar, S. Twig, A. Linder and M. Many: Disease-related lymphocyte cytotoxicity in rats bearing transitional cell carcinoma of bladder. Effect of immunomodulators.

S. J. Collins and P. J. Fialkow: Clonal nature of spontaneous AKR leukemia: studies utilizing the X-linked enzyme phosphoglycerate kinase.

G. R. Braslawsky, S. J. Kennel, V. Steele and P. Nettesheim: Detection of tumor antigens by syngeneic antiserum on *in vitro* transformed tracheal epithelial cell line 2-10-1.

A. R. Rao: Inhibitory action of BHA on carcinogenesis in F₁ and F₂ descendants of mice exposed to DMBA during pregnancy.
