International Journal of Cancer
Human Cancer

July 1982

U.-H. Stenman, M.-L. Huhtala, R. Koistinen and M. Seppälä: Immunochemical demonstration of an ovarian cancer-associated urinary peptide.

S. Finerty, A. B. Rickinson, M. A. Epstein and T. A. E. Platt-Mills: Interaction of Epstein-Barr virus with leukaemic B cells *in vitro*. II. Cell line establishment from prolymphocytic leukaemia and from Waldenström's macroglobulinaemia.

P. J. Smith, M. H. Greene, D. A. Devlin, E. A. McKeen and M. C. Paterson: Abnormal sensitivity to UV-radiation in cultured skin fibroblasts from patients with hereditary cutaneous malignant melanoma and dysplastic nevus syndrome.

P. J. McLaughlin, H. M. Cheng, M. B. Slade and P. M. Johnson: Expression on cultured human tumour cells of placental trophoblast membrane antigens and placental alkaline phosphatase defined by monoclonal antibodies.

A. J. Tuyns, G. Péquignot, M. Gignoux and A. Valla: Cancers of the digestive tract, alcohol and tobacco.

P. Burtin, G. Chavanel, J. M. Foidart and E. Martin: Antigens of the basement membrane and the peritumoral stroma in human colonic adenocarcinomas. An immunofluorescence study.

D. Simon, D. P. Aden and B. B. Knowles: Chromosomes of human hepatoma cell lines.

H.-W. L. Hann, C. Y. Kim, W. T. London, P. Whitford and B. S. Blumberg: Hepatitis B virus and primary hepatocellular carcinoma: family studies in Korea.

J. Costa, B. L. Webber, P. H. Levine, L. Muenz, G. T. O'Connor, F. Tabbane, S. Belhassen, L. S. Kamaraju and N. Mourali: Histopathological features of rapidly progressing breast carcinoma in Tunisia. A study of 94 cases.

Experimental Cancer

S. Tying, G. R. Klimpel, W. R. Fleischmann, Jr. and S. Baron: Direct cytolysis by partially-purified preparations of immune interferon.

E. Gorelik, R. H. Wiltout, K. Okumura, S. Habu and R. B. Herberman: Role of NK cells in the control of metastatic spread and growth of tumor cells in mice.

O. Kobori, M.-T. Vuillot and F. Martin: Growth responses of rat stomach cancer cells to gastro-entero-pancreatic hormones.

M. V. Pimm, M. J. Embleton, A. C. Perkins, M. R. Price, R. A. Robins, G. R. Robinson and R. W. Baldwin: *In vivo* localization of anti-osteogenic sarcoma 791T monoclonal antibody in osteogenic sarcoma xenografts.

C. Altaner and M. Reinerová: Role of 3'-end of viral genome in tumor heteroinduction by the avian sarcoma virus.

Z. A. Medvedev, J. H. Buchanan, M. N. Medvedeva and H. M. Crowne: The characterization of non-histone proteins whose amounts increase in chromatin from mouse hepatocarcinomas.

M. Popovic, V. S. Kalyanaraman, M. S. Reitz and M. G. Sarngadharan: Identification of the RPMI 8226 retrovirus and its dissemination as a significant contaminant of some widely used human and marmoset cell lines.

D. M. Peehl and E. J. Stanbridge: On the role of differentiation in the suppression of tumorigenicity in human cell hybrids.

R. Szigeti, T. Dalianis, G. Klein, Y. Ito and G. Magnusson: Detection of polyoma virus induced tumor antigen(s) by macrophage migration inhibition.

S. Imai, J. Morimoto, Y. Tsubura and J. Hilgers: Mammary tumor induction in inbred mouse strains with urethane is not accompanied by changes in expression of B- and C-type retroviral structural proteins.
