Human Cancer

P. O. Livingston, T. Watanabe, H. Shiku, A. N. Houghton, A. Albino, T. Takahashi, L. A. Resnick, R. Michitsch, C. M. Pinsky, H. F. Oettgen and L. J. Old: Serological response of melanoma patients receiving melanoma cell vaccines. I. Autologous cultured melanoma cells.

J. V. Johannessen, M. Sobrinho-Simoes, I. Finseth and L. Pilström: Papillary carcinomas of the thyroid have pore deficient nuclei.

K. Kontula, T. Paavonen, P. Vuopio and L. C. Andersson: Glucocorticoid receptors in hairy cell leukemia.

B. MacMahon, D. Trichopoulos, J. Brown, A. P. Andersen, P. Cole, F. deWaard, T. Kauraniemi, A. Polychronopoulou, B. Ravnihar, N. Stormby and K. Westlund: Age at menarche, urine estrogens and breast cancer risk.

L. V. Crawford, D. C. Pim and R. D. Bulbrook: Detection of antibodies against the cellular protein p53 in sera from patients with breast cancer.

M. A. Pathak, L. M. Matrisian, B. E. Magun and S. E. Salmon: Effect of epidermal growth factor on clonogenic growth of primary human tumor cells.

T. Sairenji, W. Jones, R. C. Spiro, P. S. Reisert and R. E. Humpreys: Epstein-Barr virus strain-specific differences in transformed cell lines demonstrated in growth characteristics, induction of viral antigens and EDCC susceptibility.

H. Stein J. Gerdes, U. Schwab, H. Lemke, D. Y. Mason, A. Ziegler, W. Schienle and V. Diehl: Identification of Hodgkin and Sternberg-Reed cells as a unique cell type derived from a newly detected small cell population.

N. M. Gutensohn and D. S. Shapiro: Social class risk factors among children with Hodgkin's disease.

J. Stoerker, Y. Yajima and R. Glaser: The interaction of non-transforming Epstein-Barr virus (EBV) with cell associated EBV DNA in superinfected lymphoblastoid cell lines.

Experimental Cancer

J. Korpela, M. Kulomaa, P. Tuohimaa and A. Vaheri: Induction of avidin in chickens infected with the acute leukemia virus OK 10.

F. Carbonell, H. J. Seidel, S. Saks and L. Kreja: Chromosome changes in butylnitrosourea (BNU) induced mouse leukemia.

K. Kano-Tanaka and T. Tanaka: Specific chromosome changes associated with viral transformation of rat glial cells.

J. M. Vasiliev and T. G. Moizhess: Tumorigenicity of sarcoma cells is enhanced by transplantation into the local environment of implanted foreign body.

P. Wittmann, P. Höfler and G. Bauer: Epstein-Barr virus induction by a serum factor: IV. Ubiquitous occurrence of the factor within vertebrates and its interaction with defined lymphoblastoid cell lines.

E. C. Lattime, G. Pecoraro and O. Stutman: Natural cytotoxic cells against solid tumors in mice: IV. Natural cytotoxic (NC) cells are not activated natural killer (NK) cells.

M. R. Young, G. Sundharadas, W. D. Cantarow and P. R. Kumar: Purification and functional characterization of a low molecular weight immune modulating factor produced by Lewis lung carcinoma.

F. Wiener, J. Spira, M. Babonits and G. Klein: Non-random duplication of chromosome 15 in T-cell leukemias induced in mice heterozygous for reciprocal and Robertsonian translocations.

C. Chany and I. Cerutti: Antitumor effect of arginine butyrate in conjunction with *Corynebacterium parvum* and interferon.

E. V. Genovesi, D. Livnat and J. J. Collins: Immunotherapy of murine leukemia: VII. Prevention of Friend leukemia virus-induced immunosuppression by passive serum therapy.
