

**PREDICTIVE DRUG TESTING ON HUMAN TUMOR CELLS**

An international conference on predictive drug testing on human tumor cells will be held at the University Hospital of Zurich (Switzerland) on 20-22 July 1983. The conference will deal with different techniques (clonogenic assays, nucleotide precursor incorporation, xenograft) recently developed for the purpose of individualizing treatment for cancer patients. Lectures will be given by invited speakers. The program will also include proferred papers and a poster session. The deadline for receipt of abstracts is 15 April 1983.
