This article has been retracted: please see Elsevier Policy on Article Withdrawal (<http://www.elsevier.com/locate/withdrawalpolicy>).

This paper has been retracted at the request of the Editors of the *European Journal of Cancer* and the authors of the paper.

The paper was published as part of a special issue of the *European Journal of Cancer* which summarized the proceedings of the 1st International Conference on Tumour Genetics and Prevention, which took place from 17th–19th February 2000 in St. Gallen, Switzerland. The paper describes the presentation of the authors at the conference. It has become necessary to retract the paper from the *European Journal of Cancer* because it is also a duplicate of a paper published in the journal *European Urology* in 1999 (W. Horninger, A. Reissigl, H. Rogatsch, H. Volgger, M. Studen, H. Klocker, G. Bartsch, Prostate cancer screening in the Tyrol, Austria: experience and results. *Eur Urol* 1999; 35; 523–538. doi:10.1159/000019893).
