

ACKNOWLEDGMENTS TO REFEREES

The list of reviewers was compiled from the documents of the editors given to H.H. Fernholz and comprises the time from 1.1.1995 to 30.9.1998.

We thank all reviewers for the work which they have done for the authors and for our journal and apologize to those whom we may have forgotten in our list. Beside the authors the reviewers are most important for keeping up the quality of a journal. We had very few refusals from our referees to review manuscripts and we are grateful for such a positive response.
