

## **Editorial**

The first generation of Editors-in-Chief of EJM/B-Fluids has now retired. H.H. Fernholz, P. Huerre, and G. Iooss have built up the journal over the past ten years together with their Associate Editors. They would like to thank the authors of the 800 manuscripts received, the referees, and the readers and, last but not least, the staff of Gauthier-Villars and later of Elsevier France. It has been a lot of work but also fun to see the journal growing both in quality and size. We wish success and all the best of luck to our successors F. Dias and G.J.F. van Heijst and to EJM/B-Fluids.

H.H. Fernholz

P. Huerre
