

European Journal of Orthodontics

Volume 22 (2000) Subject entries

Active shape models

An evaluation of ... for the automatic identification of cephalometric landmarks 499

Adaptation

Functional and social discomfort during orthodontic treatment—effects on patients' ... by personality variables 307

Adhesive

The effect of early static loading on the *in vitro* shear/peel bond strength of a 'no-mix' orthodontic ... 555

Adhesives

Degree of cure of orthodontic ... with various polymerization initiation modes 395

Aesthetic impact

Perceived ... of malocclusion and oral self-perception in 14–15-year-old Asian and Caucasian children in Greater Manchester 175

Agensis

Persistence of deciduous molars in subjects with ... of the second premolars 239
The long-term survival of lower second primary molars in subjects with ... of the premolars 245

Airway

Do oral appliances enlarge the ... in patients with OSA? 159

Allergy

Root resorption after orthodontic treatment in high- and low-risk patients: analysis of ... as a predisposing factor 657

Anaesthesia

Safe orthodontic bonding for children with disabilities during general ... 225

Anterior tooth alignment

A new method of measuring how much ... means to adolescents 299

Anteroposterior dysplasia indicators

Overbite depth and ... 75

Apical root resorption

A radiographic comparison of ... after orthodontic treatment with a standard edgewise and a straight-wire edgewise technique 665
Long-term follow-up of maxillary incisors with severe ... 85

Appliances

Do oral ... enlarge the airway in patients with OSA? 159

Arch

Effects of a 3D bimetric maxillary distalizing ... 293

Arch form

A mathematic-geometric model to calculate variation in mandibular ... 113

Archwires

Influence of ceramic and stainless steel brackets on the notching of ... during clinical treatment 409

Stress relaxation and recovery behaviour of composite orthodontic ... in bending 1

Surface characterization of retrieved NiTi orthodontic ... 317

Assessment protocols

The inappropriateness of conventional orthodontic bond strength ... 13

Automatic identification

An evaluation of active shape models for the ... of cephalometric landmarks 499

Behaviour management

... needs for the orthodontic treatment of children with disabilities 143

Bending

Stress relaxation and recovery behaviour of composite orthodontic archwires in ... 1

Bimaxillary surgery

Open bite: stability after ... 711

Bimetric maxillary distalizing arch

Effects of a 3D ... 293

Bond strength

Tensile ... of a light-cured glass ionomer cement when used for bracket bonding under different conditions 719

The effect of early static loading on the *in vitro* shear/peel ... of a 'no-mix' orthodontic adhesive 555

The inappropriateness of conventional orthodontic ... assessment protocols 13

Bonding

Safe orthodontic ... for children with disabilities during general anaesthesia 225

Bone turnover

The rate and the type of orthodontic tooth movement is influenced by ... in a rat model 343

Bracket bonding

Tensile bond strength of a light-cured glass ionomer cement when used for ... under different conditions 719

Brackets

Influence of ceramic and stainless steel ... on the notching of archwires during clinical treatment 409

The force levels required to mechanically debond ceramic ... 327

Cell-conditioned medium

Dental follicle ... enhances the formation of osteoclast-like multinucleated cells 675

Cephalometric assessment

... of tongue function in open bite and non-open bite subjects 463

Cephalometric comparison

A ... of subjects with snoring and OSA 353

Cephalometric landmarks

An evaluation of active shape models for the automatic identification of ... 499

Ceramic brackets

Influence of ... on the notching of archwires during clinical treatment 409

The force levels required to mechanically debond ... 327

Characterization

... of proliferative cells in the rat mandibular condyle during growth 631

Chincap appliances

A comparison of ... and maxillary protraction appliances in the treatment of skeletal Class III malocclusions 43

Class II division 2 craniofacial type

The ... is associated with numerous congenital tooth anomalies 529

Class II malocclusions

A prospective and longitudinal comparison with untreated ... and normal occlusion subjects 271

Class III malocclusions

A comparison of chincap and maxillary protraction appliances in the treatment of skeletal ... 43

Classification

... of occlusion reconsidered 169

Cleft lip and palate

Initial cleft size does not correlate with outcome in unilateral ... 93

Cleft size

Initial ... does not correlate with outcome in unilateral cleft lip and palate 93

Coil appliance

A comparative analysis of distal maxillary molar movement produced by a new lingual intra-arch Ni-Ti ... 683

Compliance

Functional and social discomfort during orthodontic treatment—effects on ... by personality variables 307

Composite orthodontic archwires

Stress relaxation and recovery behaviour of ... in bending 1

Computer tomographic changes

... in the TMJ of two young adults with occlusal asymmetry, treated with the Herbst appliance 649

Configuration

The changes in TMJ ... in early orthognathic treatment 217

Congenital tooth anomalies

The Class II division 2 craniofacial type is associated with numerous ... 529

Congenitally missing upper lateral incisor

The ... 697

Conventional orthodontic bond strength

The inappropriateness of ... assessment protocols 13

Cranial base complex

The prenatal ... in Turner syndrome 185

Craniofacial deviations

A sella turcica bridge in subjects with severe ... 69

Craniofacial growth

... of immature rats following administration of vincristine and doxorubicin 545

Cranio-mandibular status and function

... in patients with habitual snoring and OSA after nocturnal treatment with a mandibular advancement splint 53

Deciduous molars

Persistence of ... in subjects with agenesis of the second premolars 239

Degree of cure

... of orthodontic adhesives with various polymerization initiation modes 395

Dental appearance

Relationship between occlusion and satisfaction with ... in orthodontically treated and untreated groups 509

Dental casts

Analysis of ... of 6–8- and 12-year-old Kenyan children 135

Dental follicle

... cell-conditioned medium enhances the formation of osteoclast-like multinucleated cells 675

Dental structures

Effect of rapid maxillary expansion on ... 519

Dentofacial deformity

A comparison of health state utilities for ... as derived from patients and members of the general public 335

Dentogingival junction

Proliferative response of cells of the ... to mechanical stimulation 639

Disabilities

Behaviour management needs for the orthodontic treatment of children with ... 143

Safe orthodontic bonding for children with ... during general anaesthesia 225

Disabled children

Orthodontic treatment for ... 151

Disc position

The changes in TMJ ... in early orthognathic treatment 217

Distal maxillary molar movement

A comparative analysis of ... produced by a new lingual intra-arch Ni-Ti coil appliance and a magnetic appliance 683

Distalizing arch

Effects of a 3D bimetric maxillary ... 293

Distribution

... of proliferative cells in the rat mandibular condyle during growth 631

Doxorubicin

Craniofacial growth of immature rats following the administration of ... 545

Early static loading

The effect of ... on the *in vitro* shear/peel bond strength of a 'no-mix' orthodontic adhesive 555

Edgewise technique

A radiographic comparison of apical root resorption after orthodontic treatment with a standard and straight-wire ... 665

Elastomerics

Fluoride-releasing ... 401

Electropalatographic assessment

... of tongue function in open bite and non-open bite subjects 463

Elliptical Fourier functions

Describing shape changes in the human mandible using ... 205

Expectation

Orthodontic treatment for disabled children: ... 151

Fluoride-releasing elastomerics

... 401

Force levels

The ... required to mechanically debond ceramic brackets 327

Fourier functions

Describing shape changes in the human mandible using elliptical ... 205

Functional discomfort

... during orthodontic treatment 307

Functional magnetic resonance imaging

... of TMJ disorders 489

General anaesthesia

Safe orthodontic bonding for
children with disabilities during ...
225

Glass ionomer cement

Tensile bond strength of a light-cured
... when used for bracket bonding
under different conditions 719

Glenoid fossa

Location of the ... after a period of
unilateral masticatory function in
young rabbits 105

Growth

Distribution and characterization of
proliferative cells in the rat
mandibular condyle during ... 631

Hand

The ... in Turner syndrome 185

Head posture

Surgical mandibular advancement
and changes in
uvuloglossopharyngeal
morphology and ... 367
Surgical mandibular setback and
changes in uvuloglossopharyngeal
morphology and ... 383

Health state utilities

A comparison of ... for dentofacial
deformity as derived from patients
and members of the general public
335

Herbst appliance

Computer tomographic changes in
the TMJ of two young adults with
occlusal asymmetry, treated with
the ... 649

High-risk patients

Root resorption after orthodontic
treatment in ... 657

Identification

An evaluation of active shape models
for the automatic ... of
cephalometric landmarks 499

Imaging

Statistical methods for comparison of
measurements derived from
orthodontic ... 257

Implant study

Changes in the width of the
mandibular body from 6 to 23
years of age: an ... 229

Incisor

The congenitally missing upper
lateral ... 697

Incisors

The retraction of upper ... with the
PG retraction system 33

Initial cleft size

... does not correlate with outcome in
unilateral cleft lip and palate 93

Initiation modes

Degree of cure of orthodontic
adhesives with various
polymerization ... 395

Intra-arch Ni-Ti coil appliance

A comparative analysis of distal
maxillary molar movement
produced by a new lingual ... 683

Light-cured glass ionomer cement

Tensile bond strength of a ... when
used for bracket bonding under
different conditions 719

Lingual intra-arch Ni-Ti coil appliance

A comparative analysis of distal
maxillary molar movement
produced by a new ... 683

Lip bumper

The effect of a maxillary ... on tooth
positions 25

Longitudinal comparison

A ... with untreated Class II
malocclusions and normal
occlusion subjects 271

Lower second primary molars

The long-term survival of ... in
subjects with agenesis of the
premolars 245

Low-risk patients

Root resorption after orthodontic
treatment in ... 657

Magnetic appliance

A comparative analysis of distal
maxillary molar movement
produced by a new ... 683

Magnetic field

Effect of a static ... on orthodontic
tooth movement in the rat 475

Magnetic resonance imaging

Functional ... of TMJ disorders 489
The changes in TMJ disc position
and configuration in early
orthognathic treatment: a ...
evaluation 217

Malocclusion

Perceived aesthetic impact of ...
in 14–15-year-old Asian and
Caucasian children in Greater
Manchester 175

Mandible

Describing shape changes in the
human ... using elliptical Fourier
functions 205

Mandibular advancement

Surgical ... and changes in
uvuloglossopharyngeal
morphology and head
posture 93

Mandibular advancement splint

Craniomandibular status and
function in patients with
habitual snoring and OSA
after nocturnal treatment with
a ... 53

Mandibular arch form

A mathematic-geometric model to
calculate variation in ... 113

Mandibular body

Changes in the width of the ... from
6 to 23 years of age 229

Mandibular condyle

Distribution and characterization of
proliferative cells in the rat ...
during growth 631

Mandibular setback

Surgical ... and changes in
uvuloglossopharyngeal
morphology and head
posture 383

Masticatory function

Location of the glenoid fossa after a
period of unilateral ... in young
rabbits 105

Mathematic-geometric model

A ... to calculate variation in
mandibular arch form 113

Maxillary distalizing arch

Effects of a 3D bimetric ... 293

Maxillary expansion

Effect of rapid ... on skeletal, dental,
and nasal structures 519

Maxillary incisors

Long-term follow-up of ... with
severe apical root resorption
85

Maxillary lip bumper

The effect of a ... on tooth positions
25

Maxillary molar movement

A comparative analysis of distal ...
produced by a new lingual
intra-arch Ni-Ti coil appliance
and a magnetic appliance 683

Maxillary protraction appliances

A comparison of chin-cap and
... in the treatment of skeletal
Class III malocclusions 43

Mechanical debonding

The force levels required for the ... of ceramic brackets 327

Mechanical stimulation

Proliferative response of cells of the dentogingival junction to ... 639

Mixed dentition space analysis

... in a Thai population 127

Molar movement

A comparative analysis of distal maxillary ... produced by a new lingual intra-arch Ni-Ti coil appliance and a magnetic appliance 683

Molars

The long-term survival of lower second primary ... in subjects with agenesis of the premolars 245

Motivation

Orthodontic treatment for disabled children: ... 151

Multinucleated cells

Dental follicle cell-conditioned medium enhances the formation of osteoclast-like ... 675

Nasal structures

Effect of rapid maxillary expansion on ... 519

Ni-Ti coil appliance

A comparative analysis of distal maxillary molar movement produced by a new lingual intra-arch ... 683

NiTi orthodontic archwires

Surface characterization of retrieved ... 317

Nocturnal treatment

Cranio-mandibular status and function in patients with habitual snoring and OSA after ... with a mandibular advancement splint 53

No-mix orthodontic adhesive

The effect of early static loading on the *in vitro* shear/peel bond strength of a ... 555

Non-open bite

Electropalatographic and cephalometric assessment of tongue function in ... subjects 463

Normal occlusion

Signs of temporomandibular disorders in girls receiving orthodontic treatment

A prospective and longitudinal comparison with untreated Class II malocclusions and ... subjects 271

Notching

Influence of ceramic and stainless steel brackets on the ... of archwires during clinical treatment 409

Obstructive sleep apnoea

A cephalometric comparison of subjects with snoring and ... 353
Cranio-mandibular status and function in patients with ... after nocturnal treatment with a mandibular advancement splint 53
Do oral appliances enlarge the airway in patients with ...? 159

Occlusal asymmetry

Computer tomographic changes in the TMJ of two young adults with ..., treated with the Herbst appliance 649

Occlusal patterns

The relationship between ... and skeletal patterns using the receiver operating characteristic analysis 75

Occlusal reconstruction

Long-term follow-up of clinical symptoms in TMD patients who underwent ... by orthodontic treatment 61

Occlusion

Classification of ... reconsidered 169
Relationship between ... and satisfaction with dental appearance in orthodontically treated and untreated groups 509

Open bite

... 711
Electropalatographic and cephalometric assessment of tongue function in ... subjects 463

Oral appliances

Do ... enlarge the airway in patients with OSA? 159

Oral self-perception

Perceived aesthetic impact of ... in 14–15-year-old Asian and Caucasian children in greater Manchester 175

Orthodontics

TMD in patients treated with ... in combination with orthognathic surgery 537

Orthognathic patients

Are ... different? 195

Orthognathic surgery

TMD in patients treated with orthodontics in combination with ... 537

Orthognathic treatment

The changes in TMJ disc position and configuration in early ... 217

Osteoclast-like multinucleated cells

Dental follicle cell-conditioned medium enhances the formation of ... 675

Overbite depth

... and anteroposterior dysplasia indicators 75

Personality variables

Functional and social discomfort during orthodontic treatment—effects of compliance and patients' adaptation by ... 307

PG retraction system

The retraction of upper incisors with the ... 33

Polymerization initiation modes

Degree of cure of orthodontic adhesives with various ... 395

Postero-anterior cephalometric study

Effect of rapid maxillary expansion on skeletal, dental, and nasal structures: an 519

Prediction of patients' adaptation

Functional and social discomfort during orthodontic treatment—effects of ... by personality variables 307

Premolars

Persistence of deciduous molars in subjects with agenesis of the second ... 239
The long-term survival of lower second primary molars in subjects with agenesis of the ... 245

Prenatal cranial base complex

The ... in Turner syndrome 185

Primary molars

The long-term survival of lower second ... in subjects with agenesis of the premolars 245

Proliferative cells

Distribution and characterization of ... in the rat mandibular condyle during growth 631

Proliferative response

... of cells of the dentogingival junction to mechanical stimulation 639

Prospective comparison

A ... of untreated Class II malocclusions and normal occlusion subjects 271

Radiographic changes

... in the TMJ of two young adults with occlusal asymmetry, treated with the Herbst appliance 649

Radiographic comparison

A ... of apical root resorption after orthodontic treatment with a standard edgewise and a straight-wire edgewise technique 665

Rapid maxillary expansion

Effect of ... on skeletal, dental, and nasal structures 519

Receiver operating characteristic analysis

The relationship between occlusal and skeletal patterns using the ... 75

Recovery behaviour

... of composite orthodontic archwires in bending 1

Restorative treatment

The congenitally missing upper lateral incisor. A retrospective study of ... 697

Retraction

The ... of upper incisors with the PG retraction system 33

Retrieved NiTi orthodontic archwires

Surface characterization of ... 317

Root resorption

... after orthodontic treatment in high- and low-risk patients 657
A radiographic comparison of apical ... after orthodontic treatment with a standard edgewise and a straight-wire edgewise technique 665
Long-term follow-up of maxillary incisors with severe apical ... 85

Satisfaction

Orthodontic treatment for disabled children: ... 151

Satisfaction with dental appearance

Relationship between occlusion and ... in orthodontically treated and untreated groups 509

Second premolars

Persistence of deciduous molars in subjects with agenesis of the ... 239

Second primary molars

The long-term survival of lower... in subjects with agenesis of the premolars 245

Sella turcica bridge

A ... in subjects with severe craniofacial deviations 69

Shape changes

Describing ... in the human mandible using elliptical Fourier functions 205

Shape models

An evaluation of active ... for the automatic identification of cephalometric landmarks 499

Shear/peel bond strength

The effect of early static loading on the *in vitro* ... of a 'no-mix' orthodontic adhesive 555

Skeletal Class III malocclusions

A comparison of chincap and maxillary protraction appliances in the treatment of ... 43

Skeletal patterns

The relationship between occlusal and ... using the receiver operating characteristic analysis 75

Skeletal structures

Effect of rapid maxillary expansion on ... 519

Snoring

A cephalometric comparison of subjects with ... and OSA 353
Cranio-mandibular status and function in patients with habitual ... after nocturnal treatment with a mandibular advancement splint 53

Social discomfort

... during orthodontic treatment 307

Space analysis

Mixed dentition ... in a Thai population 127

Space closure

The congenitally missing upper lateral incisor. A retrospective study of orthodontic ... 697

Stability

Open bite: ... after bimaxillary surgery 711

Stainless steel brackets

Influence of ... on the notching of archwires during clinical treatment 409

Standard edgewise technique

A radiographic comparison of apical root resorption after orthodontic treatment with a ... 665

Static loading

The effect of early ... on the *in vitro* shear/peel bond strength of a 'no-mix' orthodontic adhesive 555

Static magnetic field

Effect of a ... on orthodontic tooth movement in the rat 475

Statistical methods

... for comparison of measurements derived from orthodontic imaging 257

Stomatognathic treatment

Temporomandibular disorders and the need for ... in orthodontically treated and untreated girls 283

Straight-wire edgewise technique

A radiographic comparison of apical root resorption after orthodontic treatment with a ... 665

Stress relaxation

... of composite orthodontic archwires in bending 1

Surface characterization

... of retrieved NiTi orthodontic archwires 317

Surgical mandibular advancement

... and changes in uvuloglossopharyngeal morphology and head posture 367

Surgical mandibular setback

... and changes in uvuloglossopharyngeal morphology and head posture 383

Temporomandibular disorders

... and the need for stomatognathic treatment in orthodontically treated and untreated girls 283
Signs of ... in girls receiving orthodontic treatment 271

Temporomandibular dysfunction

An evaluation of active shape models for the automatic identification of cephalometric landmarks 499
- Imai, T., Okamoto, T., Kaneko, T., Umeda, K., Yamamoto, T. and Nakamura, S.
Long-term follow-up of clinical symptoms in TMD patients who underwent occlusal reconstruction by orthodontic treatment 61
- Ingervall, B. see Häsler, R.
- Isaksson, S. see Egermark, I.
- Işeri, H. and Solow, B.
Change in the width of the mandibular body from 6 to 23 years of age: an implant study 229
- Isotupa, K. see Visnapuu, V.
- Ith-Hansen, K. and Kjær, I.
Persistence of deciduous molars in subjects with agenesis of the second premolars 239
- Jaroontham, J. and Godfrey, K.
Mixed dentition space analysis in a Thai population 127
- Johal, A. see Battagel, J. M.

- Johnson, N., Williams, A., Singer, S., Southall, P. and Sandy, J.
Initial cleft size does not correlate with outcome in unilateral cleft lip and palate 93
- Joseph, B. K. see Tengku, B. S.
- Kaneko, T. see Imai, T.
- Kantomaa, T. see Poikela, A.; Visnapuu, V.
- Karle, A. see Paulsen, H. U.
- Karsila, S., Salmi, T., Helenius, H. and Rönning, O.
Craniofacial growth of immature rats following administration of vincristine and doxorubicin 545
- Kawakami, M., Kuroda, S., Yoshida, C. A., Yamashita, K. and Takada, K.
Dental follicle cell-conditioned medium enhances the formation of osteoclast-like multinucleated cells 675
- Kay, E. J. see Fox, D.
- Kerr, W. J. S. see Chen, S. Y. Y.
- Kiokpasoglou, M. see Basdra, E. K.
- Kirovski, I. and Madzarova, S.
Tensile bond strength of a light-cured glass ionomer cement when used for bracket bonding under different conditions: an *in vitro* study 719
- Kjær, I. see Andersen, E.; Beektor, J. P.; Ith-Hansen, K.
- Kjær, M. S. see Andersen, E.
- Klages, U. see Sergl, H. G.
- Kotecha, B. see Battagel, J. M.
- Krogstad, O. see Achilleos, S.
- Krummenauer, F. and Doll, G.
Statistical methods for the comparison of measurements derived from orthodontic imaging 257
- Kuroda, S. see Kawakami, M.
- Kuroi, J. see Henrikson, T.; Owman-Moll, P.
- Kusy, K. see Articolo, L. C.
- Kusy, R. P. see Articolo, L. C.; Zufall, S. W.
- Lestrel, P. E. see Chen, S. Y. Y.
- Levander, E. and Malmgren, O.
Long-term follow-up of maxillary incisors with severe apical root resorption 85
- Lindemann, R. see Bondemark, L.
- Lyberg, T. see Achilleos, S.
- Madzarova, S. see Kirovski, I.
- Malmgren, O. see Levander, E.
- Mandall, N. A., McCord, J. F., Blinkhorn, A. S., Worthington, H. V. and O'Brien, K. D.
Perceived aesthetic impact of malocclusion and oral self-perceptions in 14–15-year-old Asian and Caucasian children in Greater Manchester 175
- Manfredi, M. see Mutinelli, S.
- Mavragani, M., Vergari, A., Selliseth, N. J., Bøe, O. E. and Wisth, P. J.
A radiographic comparison of apical root resorption after orthodontic treatment with a standard edgewise and a straight-wire edgewise technique 665
- McColl, J. H. see Chen, S. Y. Y.
- McCord, J. F. see Mandall, N. A.
- McDonald, J. P. see Cross, D. L.
- Melsen, B. see Verna, C.
- Minors, C. see Arici, S.
- Mohlin, B. see Robertsson, S.
- Mutinelli, S., Manfredi, M. and Cozzani, M.
A mathematic-geometric model to calculate variation in mandibular arch form 113
- Nakamura, S. see Imai, T.
- Nilner, M. see Henrikson, T.
- O'Brien, K. see Fox, D.; Gale, D. J.; Mandall, N. A.
- Odhiambo, J. W. see Hassanali, J.
- Okamoto, T. see Imai, T.
- Okay, C. see Üçem, T. T.
- Owman-Moll, P. and Kuroi, J.
Root resorption after orthodontic treatment in high- and low-risk patients: analysis of allergy as a possible predisposing factor 657
- Paulsen, H. U. and Karle, A.
Computer tomographic and radiographic changes in the temporomandibular joints of two young adults with occlusal asymmetry, treated with the Herbst appliance 649
- Peltomäki, T. see Visnapuu, V.
- Pirttiniemi, P. see Poikela, A.
- Poikela, A., Pirttiniemi, P. and Kantomaa, T.
Location of the glenoid fossa after a period of unilateral masticatory function in young rabbits 105
- Robertsson, S. and Mohlin, B.
The congenitally missing upper lateral incisor. A retrospective study of orthodontic space closure versus restorative treatment 697
- Rönning, O. see Karsila, S.
- Salmi, T. see Karsila, S.
- Sampson, W. J. see Cayley, A. S.
- Sandy, J. see Johnson, N.
- Saunders, C. R. see Articolo, L. C.
