

ANNOUNCEMENT

POC'96

7th INTERNATIONAL CONFERENCE ON POLYMER SUPPORTED REACTIONS IN ORGANIC CHEMISTRY

(24–28 June 1996, Wrocław, Poland)

Polymers and Organic Chemistry, POC, is a part of an international series of conferences held so far in France, Great Britain, Israel, Spain, Japan and Italy. The 7th International Conference on Polymer Supported Reactions in Organic Chemistry, POC'96, will be held in Wrocław, Poland. This Conference will take place from Monday 24th June to Friday 28th June 1996. It is intended to bring together organic chemists and polymer chemists. This Conference will provide a forum for scientists involved in synthesis, reactions and designing of functionalized polymers and of their utilization. Special attention will be devoted to carriers of bioactive compounds and polymers used in biotechnology and environmental protection.

Topics

- (A) Polymeric reagents; catalysts; conducting polymers
- (B) Polymer supported syntheses
- (C) Polymeric carriers of bioactive compounds/drugs
- (D) Polymer adsorbents; polymer gels
- (E) Supramolecular polymer structures; special polymer systems
- (F) Polymer systems for information transduction, modelling and storage
- (G) Polymers used in biotechnology or environmental technology

Call for Papers

The Conference will comprise eight invited lectures of 45 min and 12 lectures of 30 min. About 30 oral short communications of 15 min and a poster session are also planned. Those who wish to present such contributed papers are kindly requested to make this clear in the preliminary registration form. Instructions for the preparation of the 2-page abstracts of the scientific contributions will be given in the 2nd Circular which will be mailed by November 1995. The deadline for sending abstracts and for registration forms is 1st March 1996. For further information, please contact the organizers at the address below.
