

**ERRATUM**

Y.Pollack, Y.Groner, H.Aviv (Greenspan), M.Revel, Role of initiation factor B (F3) in the preferential translation of T4 late messenger RNA in T4 infected *E. coli*, FEBS Letters 9 (1970) 218–221.

Table 1, p. 219, the last three lines should read as ratios:

Late T4 mRNA/MS2 RNA  
Late T4 mRNA/early T4 mRNA  
T4 lysozyme/late T4 mRNA

Table 3, p. 221,  
first column, third line should be:

Fraction B4 (instead of fraction B)

The last two columns should be:

|         |     |          |
|---------|-----|----------|
| T4      |     | T4       |
| (total) |     | lysozyme |
| MS2     | and | MS2      |
