

MASTER SUBJECT INDEX

2'-5' A synthetase of dog liver	125 (1981) 146
Absciscic acid, precursor in <i>Cercospora rosicola</i>	128 (1981) 30
Absorption spectroscopy	
of reaction center of photosynthetic bacterium	130 (1981) 93
study of zinc cytochrome <i>c</i>	125 (1981) 86
Acetylation of histone H ₄	128 (1981) 195
Acetylcarnitine of skeletal muscle	126 (1981) 21
Acetylcholine receptor	
effect of cholesterol	122 (1980) 193
in synaptic membranes, effect of calmodulin	127 (1981) 144
of <i>Torpedo marmorata</i> electric organ	121 (1980) 327
Acetylcholinesterase	
antibodies	129 (1981) 293
effect of 3-methoxy catecholamines	121 (1980) 37
of nervous system	121 (1980) 169
Acetyl-CoA carboxylase, study of phosphorylation	124 (1981) 145
<i>N</i> -Acetylglucose aminyl- <i>N</i> -acetylmuramyl-dipeptide, role in cell division cycle	129 (1981) 142
<i>N</i> -Acetylneuraminase, effect of pyruvate on heat inactivation	121 (1980) 280
<i>N</i> -Acetylphenyl alanyl-tRNA	125 (1981) 15
Acetyl spermidine, formation from spermidine	121 (1980) 165
Acidosis, formation of ammonia	128 (1981) 361
Acid phosphatase, effect on nucleoside 3'-5'-diphosphates	123 (1981) 285
Acrylamide fluorescence quenching study of troponins	122 (1980) 72
Actin	
depolymerizing factor from brain	121 (1980) 179
depolymerizing protein of pig plasma	123 (1981) 49
effect of terbium	127 (1981) 245
effect on ATP-ase activity	125 (1981) 49
filament disassembly in blood plasma	121 (1980) 175
of hair follicles	127 (1981) 105
of HeLa cells, effect of colchicine	124 (1981) 282
polymerization, relation with Thy-1-antigen capping	124 (1981) 35
study of polymerisation	123 (1981) 193
Aculeacin A, effect on β -(1,3)glucansynthase	129 (1981) 249
Acyl-CoA	
effect on arachidonic acid cleavage	128 (1981) 237
sites, labelling by <i>S</i> -methane sulfonyl-CoA	124 (1981) 151
Adenine	
-9- β -D-arabino furanoside, 5'-monophosphate (ara-AMP) coupling to lactosaminated albumin	129 (1981) 261
nucleotide translocation, effect of anthraquinone dyes	127 (1981) 40
Adenosine	
effect on phosphodiesterase	128 (1981) 75
study of sensitivity in fat cells	126 (1981) 306
triphosphatase (ATPase)	
effect of	
ATPase activity	125 (1981) 49
calcium	126 (1981) 285
calcium and ouabain	126 (1981) 215
cyclic AMP and calmodulin	127 (1981) 139
detergents	121 (1980) 235
growth hormone	123 (1981) 219
effect on electron transport in chloroplasts	122 (1980) 121

in membranes of fundic mucosa	125 (1981) 208
nucleotide specificity	126 (1981) 5
of corn	125 (1981) 242
photoreactive labelling	128 (1981) 17
proteolysis of inhibitor	130 (1981) 119
purification by calmodulin affinity chromatography	129 (1981) 297
study of	
ATP binding site	123 (1981) 127
dicyclohexyl carbodiimide-binding protein	127 (1981) 48
phosphorylation	123 (1981) 131
uncoupler-binding protein	126 (1981) 211
synthesis of subunits	125 (1981) 115
S-Adenosyl-homocysteine (SAH), effect on methylation of tRNA	128 (1981) 87
S-Adenosylmethionine synthetase isoenzymes	121 (1980) 29
Adenovirus type 2 mRNA, study of <i>EcoRI</i> B fragment	122 (1980) 317
Adenylate cyclase	
effect of	
cholera toxin on hormone receptor coupling	128 (1981) 59
endocytosis of cholera toxin	128 (1981) 289
epinephrine	130 (1981) 235
imido-esters	122 (1980) 241
in erythrocyte membranes	122 (1980) 179
in <i>Xenopus laevis</i>	123 (1981) 37
of rat liver	123 (1981) 33
relation with β -adrenergic receptors	127 (1981) 267
solubilization by Lubrol 12Ag	125 (1981) 134
2',5'-Adenylate synthetases, effect of nucleic acids	130 (1981) 291
Adipocyte membranes, interaction with fluorescein thiocarbamyl-insulin	121 (1980) 246
Adipocytes, effect of phenoxybenzamine	127 (1981) 217
Adipose tissue, study of fatty acid biosynthesis	122 (1980) 37
ADP	
analogs	
phosphate acceptors in oxidative phosphorylation	125 (1981) 111
study of photophosphorylation	130 (1981) 73
myosin Mug complex	129 (1981) 169
-ribosylation of sarcolemma membrane proteins, effect of cholera toxin	128 (1981) 133
Adrenal medullary cells, study of exocytosis	126 (1981) 103
Adrenalectomy	
effect on	
carnitine acyltransferase	129 (1981) 225
dihydroxy acetone phosphate acyltransferase	128 (1981) 230
Adrenergic	
α -,	
receptors	
effect of chlorpromazine and trifluoperazine	123 (1981) 245
role in chlorpromazine inhibition of gluconeogenesis	126 (1981) 313
regulation of glycogenolysis, role of sodium	121 (1980) 260
β -,	
receptor	
-regulated adenylate cyclase	122 (1980) 179
relation with adenylate cyclase	127 (1981) 267
receptors, study of sensitivity in fat cells	126 (1981) 306
α -Adrenoceptors of platelet membranes, effect of epinephrine	130 (1981) 235
Adrenocortical cells, effect of dibutyryl 3',5'-cyclic AMP and corticotropin (ACTH)	130 (1981) 113
Adriamycin, effect on myocardial mRNA	123 (1981) 169
Affinity chromatography, of	
D-glucose transport protein	129 (1981) 100
<i>Dolichos biflorus</i> seed lectin	130 (1981) 194
phosphoglycerate kinase	128 (1981) 353
phosphate carrier of mitochondria	128 (1981) 142
ATPase, purification	129 (1981) 297

- Age, effect on aldolase B turnover in mice 128 (1981) 221
- Alamethicin, effect on cation transport in lipid membranes 121 (1980) 365
- Albumin, effect on adrenocortical cells 130 (1981) 113
- Alcohol dehydrogenase, binding of 5-chloropyrimidin-2-one 128 (1981) 286
- Alcoholic hyalin, comparison of polypeptides 125 (1981) 53
- Aldolase B, effect of age on turnover 128 (1981) 221
- Alfalfa mosaic virus
coat protein, binding site on RNA 4 121 (1980) 123
study of internal mobility 130 (1981) 265
- Alkaline phosphatase
effect of low- M_r factor 130 (1981) 249
mutants of *Escherichia coli* 124 (1981) 210
- N-Alkylated porphyrins, formation by dihydropyridines 129 (1981) 328
- Allantoin formation from IMP 125 (1981) 89
- Alloxan-diabetic rats, study of pyruvate dehydrogenase kinase 127 (1981) 188
- Alytesin, comparison with gastric releasing peptide 122 (1980) 45
- Amebocytes, study of (1-3) β -D-glucan-mediated coagulation pathway 129 (1981) 318
- Amine storage granules, study of phospholipid composition 129 (1981) 309
- Amino acid
role of thiobarbituric acid in radical damage 128 (1981) 343
transport
effect of
epidermal growth factor 127 (1981) 109
insulin 128 (1981) 321
uptake, role of prolactin in mammary gland 126 (1981) 250
- Aminoacylation of phenylalanine tRNA, effect of bisulphite 130 (1981) 221
- Aminoacyl
oligonucleotides, effect on GTP hydrolysis 122 (1980) 113
-tRNA
effect on GTPase of elongation factor Tu 125 (1981) 257
interaction with ribosomes 125 (1981) 10
synthetase,
NMR relaxation-study 124 (1981) 293
protection of valyl-tRNA against alkylation 123 (1981) 277
- γ -Aminobutyric acid receptor
of bovine brain 127 (1981) 149
study of M_r 126 (1981) 309
- L-(α ,5,5)- α -Amino-3-chloro-4,5-dihydro-5-isoxazoleacetic acid (AT-125)
effect on brush border membranes 122 (1980) 171
122 (1980) 175
- Amino citric acid, identification in peptides 123 (1981) 141
- δ -Aminolevulinic acid synthetase, effect of polychlorobiphenyls 129 (1981) 93
- 2-Amino-3-methylimidazo[4,5-f]quinoline, study as mutagen 122 (1980) 261
- Aminopeptidase
m, identity with fibroblast surface glycoprotein 123 (1981) 287
precursors of enterocyte membranes 127 (1981) 129
- Ammonia, formation during acidosis 128 (1981) 361
- AMP, 3',5'-cyclic, relation with protein kinase II 129 (1981) 282
- Amylases, of salivary and pancreatic tissue 126 (1981) 292
- Androgen, role in carnitine uptake 126 (1981) 53
- Angiotensin II receptors, relation with mesangial cell contractility 121 (1980) 333
- 8-Anilino-naphthalene-1-sulphate, as probe for immunoglobulin flexibility 121 (1980) 253
- I, ANS fluorescence as a probe 121 (1980) 253
- Antibacterial action of formaldehyde 127 (1981) 225
- Antibodies to collagen 127 (1981) 257
- Antibody fragment of murine M315, NMR study 124 (1981) 248
- Antifactor X, role in purification of vitamin K-dependent 123 (1981) 215
- Antigenetic determinants of DNA-binding of RNA polymerase 122 (1980) 17
- Antimycin A, binding to photosystem II 126 (1981) 277
- Antioxidants, effect on bleomycin-iron free radical damage to DNA 123 (1981) 71

Antitrypsin α_1 -mRNA	130 (1981) 297
Antithrombin, proteolytic cleavage by thrombin	126 (1981) 257
Antraquinone dyes, effect on ADP-transport and oxidative phosphorylation	127 (1981) 40
Aortic smooth muscle cells, study of cholesterol esterification	123 (1981) 303
Apo ferritin	129 (1981) 322
Apolipoprotein	
AI in plasma after thoracic duct drainage	130 (1981) 305
CII, effect on lipoprotein lipase	128 (1981) 9
Arachidonic acid cleavage from phosphatidylcholine	128 (1981) 237
Archaeobacterium, study of protein methylation	124 (1981) 62
Arginine vasopressin, biosynthesis and processing of precursors	121 (1980) 358
Arginyl-tRNA, of Morris hepatoma 5123D	130 (1981) 287
Aryl azido phosphatidyl choline, photolabelling of NADH dehydrogenase	127 (1981) 45
Ascorbate-free radical reductase	125 (1981) 242
Asialo glycosphingolipid (GM1), effect of lymphokine-induced differentiation	130 (1981) 80
Aspartate aminotransferase	
effect of protease	122 (1980) 33
preparation of <i>apo-holo</i> hybrid	130 (1981) 39
AT-125	122 (1980) 171
effect on brush border membranes	122 (1980) 175
ATP	
-binding site of ATPase of sarcoplasmic reticulum	123 (1981) 127
-citrate lyase	123 (1981) 261
-citrate, study of phosphorylation	124 (1981) 140
-dependent	
energy-transduction, role in ATP-synthase	128 (1981) 261
state 1 state 2 changes of thylakoids	129 (1981) 161
effect on	
bioluminescence in <i>Lumino desmus sequoiae</i>	128 (1981) 242
branched chain 2-oxo acid dehydrogenase	126 (1981) 66
estradiol-receptor	122 (1980) 189
phosphorylation of microtubule-associated protein	123 (1981) 181
interaction with RNA polymerase	130 (1981) 283
-mediated plasma membranes, effect on chromaffin granules	123 (1981) 238
synthase	
of chloroplast	125 (1981) 188
of chloroplasts	122 (1980) 307
study of proton-transport and ATP-dependent energy-transduction	128 (1981) 261
Aurodox, effect on GTP hydrolysis	122 (1980) 113
Automated flow-dialysis, measurement of pH differences	123 (1981) 319
Avian myeloblastosis virus, effect of ethidium bromide on reverse transcriptase	122 (1980) 100
8-Azido adenine, photoaffinity label for purine transport system	129 (1981) 305
Azido fluorescein diacetate, use as intracellular photolabelling probe	122 (1980) 215
<i>p</i> -Azidophenylglyoxal	124 (1981) 89
4-Azidophlorizin, use photoaffinity labeling of glucose transporter	130 (1981) 244
Bacitracin	
effect on α_2 -m binding to plasma membranes	126 (1981) 265
synthetase	124 (1981) 197
Bacterial endotoxins	122 (1980) 9
Bacteriochlorophyll of photosynthetic bacteria	122 (1980) 1
Bacteriophage	
λ , binding region on outer membrane protein	121 (1980) 127
T7 DNA, coding gene for RNA-polymerase	127 (1981) 53
Bacterio rhodopsin	
effect of	
electric-field on proton-binding sites	128 (1982) 265
pH on photochemical quantum yield	128 (1981) 245
photocycle, effect of Triton X-100 and deuteration on intermediate	128 (1981) 249

study of	
binding of retinyl moiety	128 (1981) 255
chromophore	124 (1981) 100
retinal binding residue	130 (1981) 187
Basement membrane	
collagens	125 (1981) 123
recognition by collagen antibodies	127 (1981) 257
Basic proteins, interaction with phosphatidylglycerol vesicles	125 (1981) 159
B blood group variants, study of 3- α -D-galactosyltransferase	122 (1980) 25
Benzodiazepine receptors, study of M_r	126 (1981) 309
Benzo[α]pyrene	
-3,6-quinone, effect of cytochrome <i>c</i> reductase and UDP-glucuronosyltransferase	121 (1980) 269
quinones, incorporation into lignin	125 (1981) 72
Benzylisoquinoline biosynthesis	129 (1981) 5
Bile, study of ethidium bromide metabolites	129 (1981) 70
Bioluminescence in <i>Luminodesmus sequoiae</i> , effect of ATP	128 (1981) 242
Bisulphite, effect on phenylalanine tRNA	130 (1981) 221
Bleomycin-iron free radical, damage to DNA	123 (1981) 71
Blood	
coagulation factor, production by macrophages	127 (1981) 154
group	
chemotyping, use of glycosphingolipids	128 (1981) 71
D antibodies, binding of complement C1q	128 (1981) 318
Le ^b -active glycosphingolipid in plasma	124 (1981) 173
Blue Sepharose, role in purification of ATP citrate lyase	123 (1981) 261
Bombesin, comparison with gastric releasing peptide	122 (1980) 45
Bottromycin A ₂ , effect on peptide bond formation	123 (1981) 173
Brain	
production of insulin-like growth factors	124 (1981) 178
study of etorphine macromolecular complex	122 (1980) 199
tissues, distribution of calmodulin-dependent protein kinase	129 (1981) 117
Branched-chain	
oxoacid dehydrogenase, effect of phosphorylation	121 (1980) 306
2-oxoacid dehydrogenase, effect of ATP	126 (1981) 66
Brome mosaic viral RNA3, study of A-rich nucleotide sequence	130 (1981) 32
Bromocriptine, mode of action	126 (1981) 29
Brown adipose tissue, effect of cafeteria diet	123 (1981) 45
Brush border membrane	
effect of AT-125	122 (1980) 175
of rat jejunum	125 (1981) 213
<i>t</i> -Butyl hydroperoxide, effect on dehydrogenase complex	122 (1980) 29
Butyric acid, effect on	
deacetylation of histone H4	127 (1981) 228
glucocorticoid enzyme induction	126 (1981) 289
Cafeteria diet, effect on brown adipose tissue	123 (1981) 45
Calmodulin, effect on epinephrine-induced calcium transport	129 (1981) 277
Calcium	
antagonist, effect on macrophage spreading	129 (1981) 29
binding to phospholipase A ₂	123 (1981) 115
binding protein	
effect on phosphodiesterase	126 (1981) 245
relation with calmodulin	127 (1981) 13
-dependent phosphodiesterase	124 (1981) 207
effect on	
adrenocortico-cells	130 (1981) 113
ATPase and Quabain	126 (1981) 215
ATP-ase of nervous tissue	126 (1981) 285
cation channel in sarcoplasmic reticulum vesicles	128 (1981) 269
coagulation factor X _i	124 (1981) 48

interaction of membranes and chromaffin granules	126 (1981) 103
MSU receptors	129 (1981) 113
phosphatidylserine vesicles	123 (1981) 249
release in mitochondria, effect of <i>N</i> -ethylmaleimide	127 (1981) 263
role in adsorption of phosphorylase kinase on sarcoplasmic reticulum membranes	121 (1980) 143
sodium antiporter	
effect of doxorubicin	130 (1981) 184
in sarcolemma	126 (1981) 74
-sodium transport in plasma membrane vesicles	121 (1980) 15
transport	
effect of	
calciuductin	129 (1981) 277
phosphatidic acid	125 (1981) 137
effect on herbicides and fungicides	127 (1981) 37
from mitochondria, effect of thyroxine treatment	126 (1981) 9
in mitochondria, effect of phosphate	128 (1981) 275
into sarcolemmal vesicles	122 (1980) 67
systems in mitochondria	123 (1981) 30
Calmodulin	
affinity chromatography, purification of ATPase	129 (1981) 297
-dependent	
phosphorylation, effect on ATPase of cardiac sarcolemma	127 (1981) 139
protein kinase, distribution in brain tissues	129 (1981) 117
effect of	
ATPase of corn	125 (1981) 242
fragment on enzyme activities	130 (1981) 141
trifluoperazine	123 (1981) 25
effect on acetylcholine receptors	127 (1981) 144
relation with calcium-binding protein	127 (1981) 13
role in muscle contraction	125 (1981) 141
study of	
structure	129 (1981) 220
tissue specificity	126 (1981) 203
Calsequestrin, study of phosphorylation	122 (1980) 227
Cap binding protein	129 (1981) 62
Carbohydrates, role of thiobarbituric acid in radical damage	128 (1981) 343
Carbon dioxide	
effect of depletion on proton transport	121 (1980) 222
effect on protein phosphorylation	123 (1981) 67
Carbonic anhydrase, study of isozymes	128 (1981) 114
Carbon tetrachloride, study of radical products	122 (1980) 303
Carboxylate ions, interaction with guanine	130 (1981) 7
Carboxymethylation of protein, effect on secretion	123 (1981) 211
Cardiac sarcolemma, study of ATPase	127 (1981) 139
Carnitine	
acyltransferase, study of metabolic regulation	129 (1981) 225
octanoyltransferase, study in diverse tissues	129 (1981) 229
palmitoyltransferase, study in diverse tissues	129 (1981) 229
uptake by epididymal cells	126 (1981) 53
β -Carotene, orientation in lipid bilayers	128 (1981) 97
Ca ²⁺ , role in thyroid hormone-dependent oxygen consumption of skeletal muscle	121 (1980) 349
Carotenoid reactions, effect of tetraphenyl boron	126 (1981) 272
Cartilage	
effect of glucocorticoid hormones on DNA synthesis	129 (1981) 256
study of collagen	121 (1980) 51
Casein	
effect of phosphatase	125 (1981) 77
kinase	
cytoplasmic inhibitor	124 (1981) 261
of mitochondria	121 (1980) 225
phosphatase	125 (1981) 77

Cation	
channel of sarcoplasmic reticulum vesicles, effect of calcium	128 (1981) 269
transport, effect of alamethicin in lipid membranes	121 (1980) 365
Cell	
cell interaction, role of glycoproteins	121 (1980) 47
-cell recognition and adhesion	122 (1980) 157
-collagen interaction, role of glycoproteins	121 (1980) 47
cycle	
study of	
epidermal growth factor	126 (1981) 45
phosphorylation of nucleolar proteins	124 (1981) 53
division cycle, study of <i>N</i> -Acetyl glucose aminyl- <i>N</i> -acetyl-muramyl-dipeptide	129 (1981) 142
-free system of protein synthesis	
effect of 1,3 diaminopropane	121 (1980) 309
synthesis of	
Lutropin	123 (1981) 151
superoxide dismutase	121 (1980) 215
Cerebellum, study of GABA-receptors	123 (1981) 307
Chemiluminescence, study in macrophages	123 (1981) 225
Chemotactic peptide, effect on superoxide release	128 (1981) 5
Chick embryo liver cells, effect of polychlorobiphenyls	129 (1981) 93
Chlorambucil phenylalanyl-tRNA, binding to proteins	123 (1981) 273
2',3'- <i>O</i> -4(<i>N</i> -2-Chloroethyl- <i>N</i> -methylamino)-benzylidene	122 (1980) 21
<i>p</i> -Chloromercuribenzoate effect on nucleoside diphosphate kinase	127 (1981) 281
3-(3,4 Chlorophenyl)-1,1-dimethyl urea	129 (1981) 47
Chlorophyll	
-protein complexes	
of chloroplasts	122 (1980) 149
study of	
galactolipids	124 (1981) 105
lipid composition	130 (1981) 27
P700, study at sub-zero temperatures	122 (1980) 13
RC1 of reaction centre of photosystem I	126 (1981) 323
Chlorophyllase	126 (1981) 231
Chloroplast	
ATP synthase	125 (1981) 188
coupling factor	123 (1981) 103
I, study by immunoelectrophoresis	122 (1980) 125
effect of	
ATPase on electron transport	122 (1980) 121
temperature on photophosphorylation	127 (1981) 193
temperature on ribulose-1,5-biphosphate carboxylase	129 (1981) 197
genome of <i>Euglena gracilis</i>	125 (1981) 175
membrane polypeptides, study of phosphorylation	125 (1981) 193
photophosphorylation of ADP analogs	130 (1981) 73
4.5 S ribosomal RNA	123 (1981) 17
role of manganese in water oxidation	121 (1980) 78
study of	
ATP synthase	122 (1980) 307
chlorophyll protein complexes	122 (1980) 149
chlorophyll P700 and plastocyanin	122 (1980) 13
deoxycholate on oxygen evolution	125 (1981) 65
ion-exchange in thylakoid stacking	129 (1981) 193
photoreaction	123 (1981) 95
photosystem I and 2	124 (1981) 1
protein phosphorylation	123 (1981) 67
synthesis of malate dehydrogenase	126 (1981) 223
5-Chloropyrimidin-2-one, binding to alcohol dehydrogenase	128 (1981) 286

Chlorpromazine	
effect on	
α -adrenergic receptors	123 (1981) 245
phenylephrine-stimulated gluconeogenesis	126 (1981) 313
Cholera toxin	
effect on	
ADP-ribosylation of sarcolemma membrane proteins	128 (1981) 133
coupling of hormone receptors and adenylate cyclase	128 (1981) 59
endocytosis, effect on adenylate cyclase	128 (1981) 289
isolation of precursor 'A' subunit	126 (1981) 187
Cholera toxin, effect on cyclic nucleotides in <i>Physarum polycephalum</i>	122 (1980) 138
Cholesterol	
effect on acetylcholine receptor	122 (1980) 193
esterification, effect of macrophages	123 (1981) 303
of HDL ₂ and HDL ₃	125 (1981) 60
Cholesteryl esters, effect on mycoplasma growth	122 (1980) 59
Cholic acid, conversion from 3 α ,7 α ,12 α -trihydroxy-5 β -cholestanoic acid by peroxisomes	121 (1980) 345
Chromaffin granule	
effect of plasma membranes mediated by ATP	123 (1981) 238
interaction with membranes	126 (1981) 103
membranes, study of dicyclohexyl carbodi-imide (DCCD) binding protein	130 (1981) 103
Chromatin	
arrangement of histone H1	125 (1981) 20
-binding of myelin basic proteins	127 (1981) 179
factor, removal of <i>O</i> ⁶ -ethylguanine from DNA	122 (1980) 271
isolation of transcription-active fraction	121 (1980) 207
of erythrocytes, arrangement of histones	128 (1981) 315
study of	
binding to RNA polymerase II	122 (1980) 219
non-histone chromatin proteins	125 (1981) 30
nucleosome	128 (1981) 90
protein composition	125 (1981) 25
Chromatophores of	
bacteriorhodopsin	124 (1981) 100
<i>Rhodospirillum rubrum</i> , study of light-harvesting protein	129 (1981) 150
Chromosomes of Simian virus 40, protection from nuclease	130 (1981) 47
Ciliary membrane of <i>Paramecium</i> , study of guanylate cyclase	122 (1980) 64
Cinnamate, formation of 3-phenylpropionate	123 (1981) 107
Circular dichroism (CD), effect of terbium on actin and myosin	127 (1981) 245
Circular minichromosome, effect on shape of nucleosomes	130 (1981) 43
Citrate synthase	
fragments	127 (1981) 101
fragments	123 (1981) 258
Citrus exocortis viroid, study of complementary DNA	130 (1981) 208
Clofibrate, effect on	
localization of palmitoyl-CoA hydrolase and palmitoyl-L-carnitine hydrolase	124 (1981) 43
peroxisome-associated polypeptide in mouse liver	124 (1981) 159
Coagulation factor X _I , effect of metal-ion on structure	124 (1981) 48
Coat protein of alfalfa mosaic virus, binding site on RNA 4	121 (1980) 123
Cobalt, effect hemesynthesis in hepatocytes	123 (1981) 137
Codon-anticodon interaction in ribosomes	125 (1981) 15
Colchicine	
-binding of tubulin	124 (1981) 285
effect on HeLa cells	124 (1981) 282
Colipase	
effect of fenfluramine	126 (1981) 25
effect on taurodeoxycholate-oleate mixtures	122 (1980) 91
Collagen	
antibodies	127 (1981) 257
-like fragment (CLF), interaction with fibronectin	129 (1981) 188
of	

cartilage	121 (1980) 51
hyaline cartilage and intervertebral disc	123 (1981) 195
basement membrane	125 (1981) 123
study in fish skin	123 (1981) 282
Collagenase synthesis in macrophages	124 (1981) 253
Colon carcinoma cell line, effect of vasoactive intestinal peptide (VIP) on glycogenolysis	126 (1981) 38
Complement	
C1q	
binding to anti-D-coated Rh-positive red cells	128 (1981) 318
interaction with fibronectin	129 (1981) 188
C ₁ , study of reconstitution	128 (1981) 281
Concanavalin A	125 (1981) 165
study of insulin-like activity	129 (1981) 131
Copper methallothionein, study of luminescence properties	127 (1981) 201
Copper sites of oxyhemocyanins	130 (1981) 314
Corticotropin, effect on	
phosphatidate phosphohydrolase	126 (1981) 297
adrenocortical cells	130 (1981) 113
Cortisol treatment, effect on dihydroxy acetone phosphate acyltransferase	128 (1981) 230
Cortisone, effect of RNA polymerase in liver nuclei	121 (1980) 299
Coupling factor I (CF I)	
nucleotide specificity	126 (1981) 5
study by immunoelectrophoresis	122 (1980) 125
C-protein	122 (1980) 129
Crassulacean acid metabolism	126 (1981) 81
Crown gall tumor tissue, study of Octopine dehydrogenase antibody	130 (1981) 213
Crypto-hydroxy radical, role in paraquat toxicity	129 (1981) 265
Crystallization	
study of ferritin	123 (1981) 111
of cytochrome reductase	123 (1981) 118
of EF-Tu- EF-Ts complex	124 (1981) 279
Crystallography of neurophysin 1-Tyr-Phe-NH ₂ complex	121 (1980) 41
3',5'-Cyclic AMP	
analysis by mass spectrometry in tobacco tissue	124 (1981) 119
-binding proteins, subcellular distribution in platelets	130 (1981) 230
binding sites	
of protein kinase	127 (1981) 9
on protein kinase II	121 (1980) 340
binding to protein kinase II	129 (1981) 287
-dependent	
protein kinase, study of substrate specificity	130 (1981) 127
protein phosphorylation	124 (1981) 155
in hepatocytes	127 (1981) 285
effect	
of phenoxy benzamine	127 (1981) 217
of prostacyclin	129 (1981) 83
on ATP-ase of cardiac sarcolemma	127 (1981) 139
on cholera toxin	122 (1980) 138
on thyroglobulin	121 (1980) 44
interaction with protein kinase	125 (1981) 120
-phosphodiesterase in <i>Xenopus laevis</i>	123 (1981) 37
receptor protein interaction with gene for a major outer membrane protein	128 (1981) 186
3,5-Cyclic GMP, effect of cholera toxin	122 (1980) 138
Cyclic nucleotide phosphodiesterase, effect of inhibitor protein	128 (1981) 311
γ -Cystathionase, effect of γ -fluorinated amino acids	128 (1981) 293
Cysteinyldopa, identification in eumelanins of eyes	125 (1981) 101
Cystic fibrosis, study of α -fucosidase	121 (1980) 153
Cytochalasin B, effect on respiration in leucocytes	125 (1981) 165
Cytochemistry, distribution of cytochrome P-450 in liver	127 (1981) 33

Cytochrome	
<i>b</i> -559, effect of tetraphenyl boron	126 (1981) 272
<i>b</i> of <i>Halobacterium halobium</i> mutant	125 (1981) 201
<i>b</i> and <i>c</i> ₂ , occurrence in cytochrome reductase crystals	123 (1981) 118
<i>b</i> - <i>c</i> ₁ complex	
effect of redox Bohr-effects	125 (1981) 261
study of iron-sulfur protein	126 (1981) 93
<i>c</i> -550 of <i>Paracoccus</i> , study of difficult peptides	128 (1981) 37
<i>c</i> -552, <i>see</i> Diheme cytochrome	129 (1981) 155
<i>c</i>	
of dolphin, study of difficult peptides	128 (1981) 37
oxidase	
effect of lipoxygenase	123 (1981) 123
effect of redox Bohr-effects	125 (1981) 261
study of electron distribution	125 (1981) 161
oxidoreductase of respiratory chain, properties of semiquinone anion	122 (1980) 143
-reductase, effect on benzo[a]pyrene-3,6-quinone	121 (1980) 269
study of absorption and phosphorescence emission	125 (1981) 86
oxidase, binding of dioxygen	126 (1981) 195
P-450	
aggregation in microsomal membranes	122 (1980) 54
effect of lipid and phenobarbitone	127 (1981) 33
reductase, crystals containing cytochromes <i>b</i> and <i>c</i> ₁	123 (1981) 118
Cytoplasmic proteins, interaction with liposomes	124 (1981) 257
Cytosine arabinoside triphosphate, effect on DNA polymerases	121 (1980) 81
<i>Datura stramonium</i> lectin	130 (1981) 149
DD-carboxypeptidase-trans-peptidase of <i>Actino madura</i> R39	123 (1981) 75
Dehydrogenase complex, effect of hydrogen peroxide and <i>t</i> -Butyl-hydroperoxide	122 (1980) 29
Dehydrogenases, study of prosthetic group PQQ	130 (1981) 179
Delta haemolysin, study of cytolytic effects	130 (1981) 257
Denervation of muscles, distribution of tropomyosin	128 (1981) 233
Deoxycholate, effect on oxygen evolution of chloroplasts	125 (1981) 65
Deoxygenated sickle, an EPR-study	125 (1981) 231
5'-Deoxy-5'- <i>S</i> -isobutyl thioadenosine, <i>see</i> SIBA	121 (1980) 287
Deoxyribonuclease I, effect on repeat DNA	126 (1981) 219
Deoxyribose, formation of thiobarbituric-acid-reactive substance	128 (1981) 347
Detergent	
solubilization of adenylate cyclase	125 (1981) 134
effect on ATPase of sarcoplasmic reticulum	121 (1980) 235
Deuteration, effect on intermediate in bacteriorhodopsin photocycle	128 (1981) 249
Development	
of histone synthesis	121 (1980) 1
study of	
alkaline phosphatase	130 (1981) 249
GABA receptors	123 (1981) 307
poly(A) in neuroblastoma cells	122 (1980) 109
Dexamethasone, effect on tyrosine aminotransferase	125 (1981) 266
Diabetes	
phosphorylation of glycogen synthase	127 (1981) 94
study of glycosylation of lipoproteins	129 (1981) 1
1,3 Diaminopropane, effect on reticulocyte lysate protein	121 (1980) 309
Dibromothymoquinone, binding to photosystem II	126 (1981) 277
Dibutyl, 3',5'-cyclic AMP, effect on adrenocortical cells	130 (1981) 113
3-(3,4-Dichlorophenyl)-1,1-dimethyl urea effect on protein phosphorylation	123 (1981) 67
Dicyclohexylcarbodiimide (DCCD)	
-binding protein	
of chromaffin-granule membranes	130 (1981) 103
relation with phosphate transport protein	130 (1981) 137
study of coding gene	127 (1981) 48
reactive protein of <i>Rhodospirillum rubrum</i>	125 (1981) 97

Diet, effect on sucrase and lactase in jejunal villus	129 (1981) 89
Di(2-ethylhexyl)phthalate, effect on peroxisomes and mitochondria	130 (1981) 77
Diethylpyrocarbonate, use in sequencing of DNA	130 (1981) 19
α -Difluoromethyl ornithine, effect on Semliki forest and herpes simplex production	121 (1980) 292
Diglyceride	
kinase, solubilization by hexamethyl phosphoric triamide	129 (1981) 301
lipase, location in platelet membranes	124 (1981) 23
Diheme cytochrome of <i>Pseudomonas perfectomarinus</i>	129 (1981) 155
Dihydrofolate reductase, binding of trimethoprim	126 (1981) 49
Dihydroxy acetone phosphate acyltransferase, effect of adrenalectomy and cortisol treatment	128 (1981) 230
Dihydropyridines, formation of <i>N</i> -alkylated porphyrins	129 (1981) 328
1 α ,24-Dihydroxy vitamin D ₃ , study of 25-hydroxylation	121 (1980) 149
Di-Isopropyl fluorophosphate, effect on oxygen-forming enzyme	124 (1981) 19
4- <i>N,N</i> -Dimethylamino-azobenzene-4'-isothiocyanate, study of membrane proteins	124 (1981) 225
<i>N,N</i> -Dimethylformamide solution, study of peptide synthesis	125 (1981) 104
5,5'-Dimethyl-1-pyrroline- <i>N</i> -oxide (DMPO)	123 (1981) 241
Dimethyl suberimide (DMS), effect on adenylate cyclase	122 (1980) 241
Dimethylsulfoxide (DMSO)	
effect on nitrogenase	126 (1981) 77
role in methane formation	129 (1981) 52
study of redox potential for reduction	124 (1981) 11
Dinitrogenase reductase of <i>Rhodospirillum rubrum</i>	127 (1981) 79
1,2 Dipalmitoyl- <i>sn</i> -glycero-3-phosphorylcholine, NMR study	126 (1981) 169
Disulfide bonds, protection of chromosomes of simian virus 40	130 (1981) 47
DNA	
binding protein	
of <i>Pseudomonas aeruginosa</i> , relation with <i>Escherichia coli</i> proteins	130 (1981) 275
effect of pyridoxal 5'-phosphate on DNA-binding	124 (1981) 189
-binding of RNA polymerase	122 (1980) 17
complementary to citrus exocortis viroid	130 (1981) 208
damage bleomycin-iron free radical	123 (1981) 71
effect of	
DNA polymerases after thymine starvation or methylmethane sulphonate treatment	125 (1981) 227
tingenone	122 (1980) 256
gyrase, role in replication of mycobacteriophage 13 DNA	127 (1981) 57
of simian virus 40, protection from nuclease	130 (1981) 47
polymerase	124 (1981) 112
- α , effect of protein kinase	124 (1981) 84
effect on DNA after thymine starvation or methylmethanesulphonate treatment	125 (1981) 227
I, isolation method	129 (1981) 185
of herpes simplex virus type 1, effect of spermine	126 (1981) 157
of <i>Physarum polycephalum</i>	121 (1980) 81
removal of <i>O</i> ⁶ -ethylguanine by chromatin factor	122 (1980) 271
replication in <i>Xenopus laevis</i> oocytes	124 (1981) 215
sequestration in liposomes	125 (1981) 183
study of	
hydrogen exchange	121 (1980) 130
methylation	124 (1981) 67
strand separation	124 (1981) 72
synthesis in cartilage, effect of glucocorticoid hormones	129 (1981) 256
use of diethylpyrocarbonate in sequencing	130 (1981) 19
<i>Dolichos biflorus</i> seed lectin affinity chromatography	130 (1981) 194
Domperidone, effect on TSH secretion	129 (1981) 97
Dopamine	
effect on TSH secretion in pituitary cells	121 (1980) 257
receptors, study in rat striatum	121 (1980) 133
Double-stranded DNA, study of non-histone chromatin proteins	125 (1981) 30
Doxorubicin, effect on sodium-calcium exchange	130 (1981) 184
Dulcitol degradation, relation with D-galactose catabolism	124 (1981) 270

Ectosialyltransferase of platelet effect on membrane glycoprotein IIb	125 (1981) 277
Eicosatetraenoic acids, study of hydroxylation	128 (1981) 329
Electric	
organ, study of acetylcholine receptor	121 (1980) 327
potential inside membranes, effect of discrete charges	126 (1981) 1
Electrical stimulation, effect on enzymes in muscle dystrophy	128 (1981) 55
Electrochemical reduction of oxygen, by terminal oxidase	126 (1981) 282
Electron	
acceptor of photosystem II	124 (1981) 241
microscopy (EM)	
of collagens	125 (1981) 123
of ribosomal 23 S RNA	121 (1980) 101
paramagnetic resonance (EPR)	
of photosystem I iron-sulfur centers	123 (1981) 229
of photosystem II in barley mutant	121 (1980) 355
role of manganese in water oxidation	121 (1980) 78
study of deoxygenated sickle	125 (1981) 231
spin resonance (ESR)	
photosynthesis in green photosynthetic bacterium	127 (1981) 83
study of	
nitroso spin traps	130 (1981) 12
free radical products of CCl ₄	122 (1980) 303
glycans	125 (1981) 271
hydroxyl radicals in mitochondria	123 (1981) 241
reaction center in photosynthetic bacterium	130 (1981) 93
transport	
in bundle sheath of maize	126 (1981) 89
in chloroplasts, effect of ATP-ase	122 (1980) 121
relation with quinones	130 (1981) 173
Electrophoresis, resolution of proteins	125 (1981) 151
Elongation factor	
G (EF-G),	
localization on ribosome	130 (1981) 54
of <i>Escherichia coli</i>	126 (1981) 183
T (EF-T), X-ray study	124 (1981) 279
-Tu (EF-Tu)	125 (1981) 10
dependent GTP hydrolysis, effect of aminoacyl oligonucleotides and aurodox	122 (1980) 113
NMR study of interaction with guanine nucleotides	126 (1981) 161
study of GTPase activity	125 (1981) 257
study of GDP-binding	129 (1981) 177
X-ray study of GDP-binding site	126 (1981) 120
Embryonic	
muscle cells, synthesis of myosin light chains	123 (1981) 312
muscle, study of ribonucleoprotein	127 (1981) 133
Encephalomyocarditis virus, effect on Met-tRNA binding activity in Krebs-2 cells	128 (1981) 43
Endocytosis of cholera, effect on adenylate cyclase	128 (1981) 289
Endo-N-acetyl- β -D-glucosaminidase in human tissues	128 (1981) 364
Endonuclease	
<i>Aqu</i> I	121 (1980) 200
<i>EcoRI</i> B	122 (1980) 317
Endoplasmic reticulum, signal receptor of secretory proteins	123 (1981) 79
Endotoxin, effect on mitochondrial phospholipase A ₂	127 (1981) 115
Energy metabolism of epidermal growth factor receptor-negative fibroblastic cell line	127 (1981) 237
Enkephalinamide analogs, NMR study	128 (1981) 51
Enkephalin analogs, NMR study	128 (1981) 51
4-Enoyl-CoA reductase, effect on fatty acid oxidation	121 (1980) 23
Enterocyte membranes, study of aminopeptidase and sucrase-isomaltase	127 (1981) 129
Enzyme	
effect of electrical stimulation in muscle dystrophy	128 (1981) 55
reactions, study in membrane microcapsules	125 (1981) 94

Eosinophils, isolation of peroxidase	123 (1981) 327
Epidermal growth factor	
effect on glucagon action	127 (1981) 109
receptor-negative fibroblastic cell line, study of energy metabolism	127 (1981) 237
role in cell cycle	126 (1981) 45
study of phosphorylation of membrane polypeptides	124 (1981) 219
Epididymal cells, study of carnitine uptake	126 (1981) 53
Epinephrine	
effect	
of phenoxybenzamine	127 (1981) 217
on adenylate cyclase and GTPase	130 (1981) 235
on phosphorylation of glycogen synthase	127 (1981) 94; 127 (1981) 97
-induced calcium transport, effect of calmodulin	129 (1981) 277
Erythrocytes	
arrangement of histones in chromatin	128 (1981) 315
deficient in glucose-6-phosphate dehydrogenase, study of oxidative hemolysis	128 (1981) 225
effect of activated influenza	122 (1980) 283
ghost-mediated injection of glutamine synthetase in hepatoma cells	128 (1981) 63
membrane	
proteins, effect of 5'-methylthioadenosine	126 (1981) 236
purification of D-glucose transport protein	129 (1981) 100
study of	
adenylate cyclase system	122 (1980) 179
NADH-cytochrome- <i>b</i> ₅ -reductase	126 (1981) 172
NMR-study of zinc complexation	121 (1980) 61
receptor, regulation of synthesis in T-lymphocytes	121 (1980) 295
transport of glutathione <i>S</i> -conjugate	124 (1981) 163
Estradiol, effect of ATP receptor	122 (1980) 189
Estrogen, effect on RNA synthesis	129 (1981) 17
Estrons cycle, regulation of gonadotropin receptors and luteinizing hormone (LH)	122 (1980) 184
Ethane production in perfused liver	126 (1981) 241
Ethanol, effect on phosphatidate phosphohydrolase	126 (1981) 297
Ether narcosis, effect on UDP-glucuronic acid	124 (1981) 39
Ethidium bromide	
effect on	
DNA polymerases	121 (1980) 81
reverse transcriptase	122 (1980) 100
metabolites, from rat bile	129 (1981) 70
Ethionine	
administration, effect of <i>S</i> -adenosyl methionine synthetase isozymes	121 (1980) 29
incorporation into protein	128 (1981) 157
Ethylester of oligothymidilate alkylation of poly(A) tracts of RNA	122 (1980) 21
<i>O</i> ⁶ -Ethylguanine removal, from DNA by chromatin factor	122 (1980) 271
<i>N</i> -Ethylmaleimide	
effect on	
calcium release in mitochondria	127 (1981) 263
DNA polymerases	121 (1980) 81
maleylacetone <i>cis-trans</i> isomerase	124 (1981) 169
Ethylnitroso urea, protection of valyl-tRNA by aminoacyl-tRNA synthetase	123 (1981) 277
Etorphine macromolecular complex of brain	122 (1980) 199
Eumelanins, identification of cysteinyl-dopa in eyes	125 (1981) 101
Evolution of neurophysin proteins	126 (1981) 41
Exercise, effect on acetylcarnitine in skeletal muscle	126 (1981) 21
Exocytes, study in adrenal medullary cells	126 (1981) 103
Exo-1,3- β -D-glucanase, study of glycosylation	121 (1980) 283
Eye	
identification of cysteinyl-dopa	125 (1981) 101
lens tissue, study of vimentin	125 (1981) 253

Factor	
XIII ₃ acceptor site of fibronectin	127 (1981) 174
F ₄₃₀ , study of methylation	130 (1981) 133
Fasting, effect on carnitine acyltransferase	129 (1981) 225
Fat cell	
effect of	
adenosine on phosphodiesterase	128 (1981) 75
N ⁶ -methyl-adenosine on glucose oxidation	125 (1981) 249
membranes, effect of growth hormone on ATPase	123 (1981) 219
mitochondria, study of hydrogenase complex	122 (1980) 29
study of sensitivity of adrenergic receptors	126 (1981) 306
Fat diet, study of 4-enoyl-CoA reductase activity in mitochondria	121 (1980) 23
Fatty acid	
biosynthesis in thyrotoxicosis	122 (1980) 37
in uninfected cells, effect of interferon	126 (1981) 261
oxidation, effect of 4-enoyl-CoA reductase activity	121 (1980) 23
synthetase complex, effect of phospholipids	126 (1981) 253
transport into lecithin liposomes	123 (1981) 295
Fatty acyl-CoA synthetase containing lecithin liposomes	123 (1981) 295
Fenfluramine, effect on pancreatic colipase lipase system	126 (1981) 25
Ferredoxin	
interaction with ferredoxin-NADP	129 (1981) 201
-NADP ⁺ reductase, interaction with ferredoxin	129 (1981) 201
-thioredoxin reductase in fermentative bacterium	130 (1981) 88
Ferritin crystallization	123 (1981) 111
Fibrillar collagen, study of platelets adhesion and spreading	123 (1981) 59
Fibroblasts	
degradation of abnormal proteins	129 (1981) 77
study of	
iron mobilization	127 (1981) 204
surface glycoprotein	124 (1981) 289
surface glycoprotein (FSG), identification as aminopeptidase M	123 (1981) 287
Fibroblastic cell line negative in epidermal growth factor receptor, study of energy metabolism	127 (1981) 237
Fibronectin	
effect on platelets adhesion and spreading	123 (1981) 59
interaction with complement C ₁ q and collagen-like fragment (CLF)	129 (1981) 188
study of factor XIII ₃ acceptor site	127 (1981) 174
Filamin-like protein of heart muscle	125 (1981) 44
Fish skin, study of collagen	123 (1981) 282
Flavoprotein S, study of methanol oxidases	126 (1981) 152
γ-Fluorinated amino acids, effect on γ-cystathionase	128 (1981) 293
Fluorescein	
isothiocyanate, effect on ATP-binding site of ATPase	123 (1981) 127
thiocarbamyl insulin interaction with adipocyte membranes	121 (1980) 246
Fluorescence quenching, study of troponins	122 (1980) 72
Formaldehyde, study of antibacterial action	127 (1981) 225
N-Formyl-methionyl-leucyl-phenylalanine (FMLP), effect on phosphorylation in neutrophils	127 (1981) 4
Formylmethionyl tRNA, interaction with initiation factor 2, after digestion with cobra venom ribonuclease	128 (1981) 161
Forssman antigen, study of glycoprotein nature	130 (1981) 201
Fructose	
1,6-diphosphate, effect on pyruvate kinase	123 (1981) 255
2,6-biphosphate, effect on	
glycolysis	125 (1981) 217
phosphorylation of phosphofructokinase	130 (1981) 309
α-Fucosidase, study in cystic fibrosis	121 (1980) 153
Fucosyltransferases, study by isoelectrofocusing	126 (1981) 123
Fundic mucosa membranes, study of ATPase	125 (1981) 208
Fungicides, effect on calcium-transport from mitochondria	127 (1981) 37

G-actin, study in myosin subfragment-1	121 (1980) 55
GABA receptors of cerebellum	123 (1981) 307
Galactolipids, study in chlorophyll protein complexes	124 (1981) 105
D-Galactose catabolism, relation with dulcitol degradation	124 (1981) 270
3- α -D-Galactosyltransferase of B blood group variants	122 (1980) 25
Ganglioside	
clustering in phospholipid membranes	121 (1980) 11
GM ₁ , binding to <i>Ricinus communis</i> toxin	127 (1981) 207
Gastric	
inhibitory polypeptide	123 (1981) 205
mucus, study of Forssman antigen	130 (1981) 201
-releasing peptide, comparison with bombesin and alytesin	122 (1980) 45
GDP-binding site of elongation factor Tu (EF-Tu)	129 (1981) 177
Geosmin, synthesis in streptomycetes	125 (1981) 220
Glucagon	
action, effect of epidermal growth factor	127 (1981) 109
effect on actions somatostatin and insulin	122 (1980) 207
(1 $\rightarrow$ 3)- β -D-Glucan-mediated coagulation pathway of amebocytes	129 (1981) 318
β -(1,3)-Glucan-synthase, effect of papulacandin B and aculeacin A	129 (1981) 249
Glucan synthesis, study of glucosyltransferases	128 (1981) 213
Glucocorticoid	
enzyme induction, effect of butyric acid	126 (1981) 289
hormones, effect on DNA synthesis of cartilage	129 (1981) 256
receptors, effect on 5'-nucleotidase in lymphoblastoid IM-9 cells	121 (1980) 249
Gluc-6P-dehydrogenase of <i>Anacystis nidulans</i>	126 (1981) 85
Gluconeogenesis, stimulated by phenylephrine, effect of chlorpromazine	126 (1981) 313
Glucose	
-containing lipid-linked oligosaccharides, synthesis in plant cells	123 (1981) 63
effect of fructose 2,6-bi-phosphate on glycolysis	125 (1981) 217
oxidation, effect of N ⁶ -methyladenosine in fat cells	125 (1981) 249
6-phosphate dehydrogenase-deficient erythrocytes, study of oxidative hemolysis	128 (1981) 225
-phosphate isomerase, role in pentose phosphate pathway	130 (1981) 124
transport, role of ATP-ase in fat cell membranes	123 (1981) 219
transporter, photoaffinity labeling by 4-azidophlorizin	130 (1981) 244
D-Glucose transport protein, affinity chromatography on wheat germ lectin-sepharose	129 (1981) 100
Glucosyltransferases, role in glucan synthesis	128 (1981) 213
Glutamate dehydrogenase	
of <i>Neurospora crassa</i>	122 (1980) 41
of <i>Saccharomyces cerevisiae</i>	122 (1980) 297
relation with NAD-redoxstate in mitochondria	128 (1981) 356
Glutamine	
antagonists, effect on γ -glutamyl transpeptidase	122 (1980) 171
synthetase	
effect of butyric acid on glucocorticoid induction	126 (1981) 289
degradation	
in hepatoma cells	128 (1981) 63
role of nucleus	124 (1981) 27
γ -Glutamyl	
transferase, separation from glutathione oxidase	124 (1981) 166
transpeptidase	
effect of glutamine antagonists	122 (1980) 171
of pancreatic islets	125 (1981) 57
Glutathione	
disulfide, study in hepatocytes	127 (1981) 125
oxidase	
of rat nephrons	130 (1981) 239
separation from γ -glutamyltransferase	124 (1981) 166
S-conjugate transport from erythrocytes	124 (1981) 163
Glycans, an ESR study	125 (1981) 271
D-Glyceraldehyde-3-phosphate dehydrogenase	128 (1981) 22

Glycerol	
phosphate dehydrogenase, effect of butyric acid on glucocorticoid induction	126 (1981) 289
-3-phosphate in hepatocytes	124 (1981) 31
release, effect of phenoxybenzamine	127 (1981) 217
Glycerophospholipids, incorporation of octadecenoic acids	122 (1980) 133
Glycogen	
study of phosphorylation	127 (1981) 97
synthase	
effect of insulin	129 (1981) 123
phosphorylation by protein kinase	123 (1981) 332
study of phosphorylation	127 (1981) 94
Glycogenolysis	
in colon carcinoma, effect of vasoactive intestinal peptide (VIP)	126 (1981) 38
role of sodium in α -adrenergic regulation	121 (1980) 260
Glycolipid	
formation in <i>Volvox catteri</i>	128 (1981) 208
study of oligosaccharides by mass spectrometry	124 (1981) 299
Glycolysis, effect of fructose 2,6-biphosphate	125 (1981) 217
Glycoprotein	
of fibroblasts	124 (1981) 289
role in cell-cell and cell-collagen interaction	121 (1980) 47
study of oligomannoside-type carbohydrate chains	121 (1980) 65
Glycosaminoglycans, effect on protein kinase	121 (1980) 139
Glycosphingolipids, use in blood group chemotyping	128 (1981) 71
Glycosylation	
effect on exo-1,3- β -D-glucanase	121 (1980) 283
of lipoproteins	129 (1981) 1
of pro-opiomelanocortin	122 (1980) 279
Glycosyltransferases, localization in microsomes	122 (1980) 247
Glyoxysomal enoyl-CoA hydratase, study of substrate specificity	129 (1981) 139
Glyoxysomes, uptake of malate synthase	129 (1981) 36
Gonadotropin	
receptors, regulation during estrous cycle	122 (1980) 184
-releasing hormone	
effect of pituitary enzymes	127 (1981) 273
receptors, photo-inactivation	128 (1981) 111
GPD-binding site of elongation factor Tu	126 (1981) 120
Graves' disease, interaction of thyrotrophin receptor with IgG	127 (1981) 17
Green bacteria, ESR-study of photosynthesis	127 (1981) 83
Growth hormone, effect on ATPase in fat cell membranes	123 (1981) 219
GTP	
effect on interaction of aminoacyl-tRNA and ribosomes	125 (1981) 10
hydrolysis, effect of aminoacyl oligonucleotides and aurodox	122 (1980) 113
G-type casein kinase, effect of glycosaminoglycans	121 (1980) 139
Guanine	
interaction with carboxylate ions	130 (1981) 7
nucleotides, NMR-study of interaction with elongation-factor Tu	126 (1981) 161
Guanosine	
nucleotides, NMR-study	121 (1980) 211
triphosphatase (GTP-ase)	
activity of elongation factor Tu	125 (1981) 257
effect of epinephrine	130 (1981) 235
Guanylate cyclase of ciliary membrane of <i>Paramecium</i>	122 (1980) 64
Guanylylimidodiphosphate (GppNHp)	122 (1980) 179
Hair follicles, study of actin	127 (1981) 105
Hamster cells, effect of virus transformation on phospholipid methylation	129 (1981) 67
Heart	
muscle, identification of filamin-like protein	125 (1981) 44
perfusion, NMR-study	123 (1981) 315

- Heat
 production, study in peroxisomes 128 (1981) 1
 shock proteins, effect of picornaviruses 128 (1981) 93
- Heavy
 metal, effect on RNA synthesis 123 (1981) 265
 nuclear RNA (hnRNA), interaction with proteins 130 (1981) 223
- HeLa cells, effect of colchicine on actin ratio 124 (1981) 282
- Hematoporphyrin, study of production of superoxide and hydroxyl radicals 121 (1980) 161
- Hemesynthesis, effect of cobalt in hepatocytes 123 (1981) 137
- Hemin-controlled translational repressor, phosphorylation of initiation factor 2 α 125 (1981) 223
- Hemoglobin
 Ferndown 126 (1981) 117
 I, specific binding of Na⁺ 129 (1981) 273
 Saint Mandé 126 (1981) 114
 S, an EPR-study 125 (1981) 231
 study of oxygen diffusion 126 (1981) 191
- Hemolysis
 of glucose 6-phosphate dehydrogenase-deficient erythrocytes 128 (1981) 225
 study of oxidation of phenylhydrazine 125 (1981) 235
- Heparin
 effect on
 DNA polymerases 121 (1980) 81
 ornithine 125 (1981) 83
 inhibition of nuclear protein kinase, effect of polyamines and histones 128 (1981) 33
 -releasable liver lipase, effect on high density lipoproteins 129 (1981) 269
- Hepatocytes
 biosynthesis of mitochondrial membrane 127 (1981) 91
 effect of
 cobalt on hemesynthesis 123 (1981) 137
 epidermal growth factor on glucagon action 127 (1981) 109
 insulin on amino acid transport 128 (1981) 321
 role of glycoproteins in cell-cell and cell-collagen interaction 121 (1980) 47
 study of
 glutathione oligosulfide 127 (1981) 125
 glycerol-3-phosphate and triacylglycerol synthesis 124 (1981) 31
 HDL₂ 125 (1981) 60
 iron mobilization 127 (1981) 204
- Hepatoma
 cell line, synthesis of somatomedin-binding protein 127 (1981) 221
 cells
 degradation of glutamine synthase 124 (1981) 27; 128 (1981) 63
 induction of tyrosine aminotransferase by dexamethasone 125 (1981) 266
 study of mitochondrial translation products 126 (1981) 61
- Herbicides, effect on calcium transport from mitochondria 127 (1981) 37
- Herpes simplex virus
 effect on α -difluoromethyl ornithine on production 121 (1980) 292
 type 1 DNA polymerase, effect of spermine 126 (1981) 157
- trans*-Hexadecanoic acid, occurrence in chlorophyll a/b protein 130 (1981) 27
- Hexamethyl phosphoric triamide, solubilizing agent for proteins 129 (1981) 301
- High density lipoproteins
 effect of heparin-releasable liver lipase 129 (1981) 269
 (HDL), study of cholesterol metabolism 125 (1981) 60
- Histidyl-tRNA 129 (1981) 180
- Histone
 H1, arrangement in chromatin 125 (1981) 20
 H4
 effect of butyric acid 127 (1981) 228
 study of acetylation 128 (1981) 195
 arrangement in chromatin of erythrocytes 128 (1981) 315
 effect on heparin inhibition of nuclear protein kinase 128 (1981) 33
 synthesis 121 (1980) 1

Homo-oligonucleotides, interaction with <i>lac</i> -repressor	127 (1981) 63
Hormone receptors, effect of cholera toxin on adenylate cyclase coupling	128 (1981) 59
Horseradish peroxidase, uptake by intestinal sacs	123 (1981) 41
Human chorionic gonadotropin (hCG) of <i>Xenopus</i> oocytes	122 (1980) 105
Hyaline cartilage, unusual in collagen species	123 (1981) 195
Hyalin, comparison of polypeptides	125 (1981) 53
Hydrogenase, effect of oxygen species	122 (1980) 211
Hydrogen	
-exchange in nucleosome	121 (1980) 130
peroxide	
effect on dehydrogenase complex	122 (1980) 29
study of oxygen radicals	121 (1980) 219
15-Hydroperoxy-5,9,11,13, eicosatetraenoic acid, transformation into leukotrienes	126 (1981) 127
<i>O</i> -Hydroxybenzoylglycine, conjugation in uremic body fluids	129 (1981) 237
Hydroxyl radical [1,2]	123 (1981) 71
formation from paraguat radicals	128 (1981) 339
in mitochondria, an ESR-study	123 (1981) 241
role in methane formation	129 (1981) 52
production by hematoporphyrin and light	121 (1980) 161
Hydroxylation of eicosatetraenoic acids	128 (1981) 329
6-Hydroxymelanotin, formation of methoxymelanin	122 (1980) 237
Hydroxy-3-methyl-4-carboxybutyl-CoA, effect on 3-Hydroxy-3-methylglutaryl-CoA reductase	128 (1981) 145
Imido-esters, effect on adenylate cyclase	122 (1980) 241
Immobilization of plant cells	122 (1980) 312
Immune electron microscopy, study of RNA in ribosome	122 (1980) 251
Immunoelectrophoresis, study of chloroplast coupling factor 1	122 (1980) 125
Immunoglobulin G, interaction with thyrotrophin receptor	127 (1981) 17
IMP, study of metabolism	125 (1981) 89
Indole-3-acetic acid, effect of leghemoglobin	128 (1981) 100
Influenza virus, effect of activation on erythrocytes	122 (1980) 283
Inhibitor protein, effect on cyclic nucleotide phosphodiesterase	128 (1981) 311
Initiation factor	
2, interaction with formylmethionyl-tRNA after digestion with cobra venom ribonuclease	128 (1981) 161
2 ^a (eIF-2 α), study of phosphorylation	125 (1981) 223
3 (IF-3) binding to poly(A)	128 (1981) 154
4B (eIF-4B)	129 (1981) 62
Inorganic pyrophosphatase, study of phosphorylation	124 (1981) 245
Inside-out submitochondrial particles	126 (1981) 13
Insulin	
effect of phenoxybenzamine	127 (1981) 217
effect on	
actions glucagon and somatostatin	122 (1980) 207
amino acid transport	128 (1981) 321
glycogen synthase	129 (1981) 123
phosphorylation of membrane proteins	128 (1981) 137
-like activity of concanavalin A	129 (1981) 131
-like in pituitary gland and brain	124 (1981) 178
NMR-study	126 (1981) 208
reacted with fluoresceinthiocynate, interaction with adipocyte membranes	121 (1980) 246
release, effect of luteinizing hormone-releasing hormone in rat islets	121 (1980) 363
Interferon	
effect on	
fatty acids in uninfected cells	126 (1981) 261
secretion of plasminogen activator by macrophages	129 (1981) 233
induction	130 (1981) 291
Interleukins of mouse	121 (1980) 157
Intermediate filaments, study of alcoholic hyalin	125 (1981) 53
Intestinal sacs, uptake of horseradish peroxidase	123 (1981) 41

Intervertebral disc, unusual in collagen species	123 (1981) 195
Iodine metabolism, effect of prostacyclin	129 (1981) 83
Iron	
-dependent radical to amino acids and carbohydrates	128 (1981) 343
-free radical-bleomycin damage to DNA	123 (1981) 71
-quinone complex, identification as electron acceptor of photosystem II	124 (1981) 241
mobilization from fibroblasts and hepatocytes	127 (1981) 204
salts, role in formation of thiobarbituric-acid-reactive substance from deoxyribose	128 (1981) 347
sulfur	
centers of photosystem I, an EPR-study	123 (1981) 229
protein of cytochrome <i>b</i> c_1 complex	126 (1981) 93
Islets of Langerhans, effect of luteinizing hormone-releasing hormone on insulin release	121 (1980) 363
Isoelectrofocusing electrophoresis of fucosyltransferases	126 (1981) 123
Isotachopheresis, study of UDP-glucuronic acid	124 (1981) 39
Ketone-body utilization, relation with succine thiokinase	123 (1981) 252
Kininogen, radioimmunoassay	129 (1981) 241
Kirromycin, NMR-study of interaction with elongation-factor Tu	126 (1981) 161
β -Lactam antibiotics, effect on <i>Staphylococcus aureus</i>	122 (1980) 275
β -Lactamase	
identification of active-site serine peptide	121 (1980) 8
of <i>Escherichia coli</i>	127 (1981) 161
Lactase of jejunal villus, effect of diet	129 (1981) 89
Lactate dehydrogenase, NMR-study	129 (1981) 33
Lactation, role of prolactin in amino acid uptake	126 (1981) 250
Lactin acid, effect on phosphoenolpyruvate carboxykinase	127 (1981) 121
Lactoperoxidase of milk	127 (1981) 253
Lactosaminated albumin, coupling of adenine-9- β -D-arabinofuranoside 5'-monophosphate (ara-AMP)	129 (1981) 261
Laser spectroscopy of bacterial oxidases	128 (1981) 205
Lecithin	
liposomes, transport of fatty acids	123 (1981) 295
vesicles, effect of Triton X-100	123 (1981) 200
Lectin of	
<i>Datura stramonium</i>	130 (1981) 149
<i>Dolichos biflorus</i> seed affinity chromatography	130 (1981) 194
<i>Bandeiraea simplicifolia</i> , binding of 4-methyl-umbelliferyl glycosides	126 (1981) 227
soybean and jackbean seeds, study of receptors	129 (1981) 135
<i>Leishmania</i> , location of enzymes for pyrimidine biosynthesis	128 (1981) 27
Leu-Ala-Gly-Val, study in <i>N,N</i> -dimethylformamide solutions	125 (1981) 104
Leucocytes	
effect of cytochalasin <i>B</i> on respiration	125 (1981) 165
interferon, effect on secretion of plasminogen activator by macrophages	129 (1981) 233
isolation of	
plasma membrane	126 (1981) 175
isolation of leukotriene C_4	122 (1980) 87
NMR-study of phorbolmyristate-acetate	129 (1981) 105
study of ω -oxidized metabolites of leukotriene B_4	130 (1981) 107
Leukotriene	
A_4 , study of biosynthesis leukotrienes C_4 and D_4	122 (1980) 83
B_4	
effect on release of lysosomal enzymes	130 (1981) 146
study of ω -oxidized metabolites	130 (1981) 107
C_4 , isolation from leukocytes	122 (1980) 87
transformation from 15-hydroperoxy-5,9,11,13 eicosatetraenoic acid	126 (1981) 127
Leghemoglobin, effect on indole-3-acetic acid	128 (1981) 100
Light-harvesting	
pigment-protein complexes of photosynthetic bacteria	122 (1980) 1
protein of chromatophores of <i>Rhodospirillum rubrum</i> G-g ⁺	129 (1981) 150

Lignans	
excretion in rats	123 (1981) 337
incorporation of benzo[α]pyrene	125 (1981) 72
of human urine	122 (1980) 49
Lipase	
effect on high density lipoproteins	129 (1981) 269
effect of fenfluramine	126 (1981) 25
Lipid	
bilayers	
orientation of β -carotene and retinal	128 (1981) 97
binding of <i>Ricinus communis</i> toxin to ganglioside	127 (1981) 207
composition in membranes of <i>Acholeplasma laidlawii</i>	124 (1981) 273
effect on cytochrome P-450 in liver	127 (1981) 33
membranes, effect on cation transport by alamethicin	121 (1980) 365
peroxidation	126 (1981) 241
effect on bleomycin-iron free radical damage to DNA	123 (1981) 71
Lipogenesis	
in brown adipose tissue, effect of cafeteria diet	123 (1981) 45
effect of vasopressin in obese mice	127 (1981) 25
role in brown adipose tissue lipogenesis	123 (1981) 45
Lipolytic activity of salivary gland proteins	127 (1981) 215
Lipopolysaccharides of mutants of <i>Salmonella typhimurium</i>	129 (1981) 145
Lipoprotein	
lipase, effect of apolipoprotein CII	128 (1981) 9
study of glycosylation	129 (1981) 1
Liposome	
-entrapped horseradish peroxidase, uptake by intestinal sacs	123 (1981) 41
interaction of cytoplasmic	124 (1981) 257
sequestration of nucleic acids	125 (1981) 183
Lipoxygenase, effect on cytochrome <i>c</i> oxidase	123 (1981) 123
Liver	
perfusion, study of ethane production	126 (1981) 241
study of mitochondrial translation products	126 (1981) 61
Low density lipoproteins (LDL)	
role in cholesterol esterification	123 (1981) 303
study of glycosylation	129 (1981) 1
Lubrol 12A9, solubilization of adenylate cyclase	125 (1981) 134
Luminescence of copper metallothionein	127 (1981) 201
Lumirhodopsin	123 (1981) 324
Lung, study of fatty acid biosynthesis	122 (1980) 37
Luteinizing hormone (LH) bioactivity during estrous cycle	122 (1980) 184
Luteinizing hormone-releasing hormone	
analogs	123 (1981) 300
effect on LH release from pituitary glands	126 (1981) 199
effect on insulin release in rat islets	121 (1980) 363
Lutropin, cell-free synthesis from mRNA	123 (1981) 151
Lymphoblasts, study of α -fucosidase	121 (1980) 153
Lymphoblastoid IM-9 cells, effect of glucocorticoid receptors on 5'-nucleotidase	121 (1980) 249
Lymphocytes, study of polyamine metabolism	121 (1980) 165
Lymphokine-induced differentiation, effect on asialo glycosphingolipid	130 (1981) 80
Lysopine dehydrogenase, study of mRNA in plant tumor cells	129 (1981) 166
Lysosomal enzymes, effect of leukotriene B ₄ on release	130 (1981) 146
Lysozyme-induced polymerization of tubulin	124 (1981) 285
α_2 -Macroglobulin	127 (1981) 167
binding to plasma membranes, effect on bacitracin	126 (1981) 265
effect of proteinase	121 (1980) 275
incorporation of proteins lacking proteinase activity	128 (1981) 123
study of	
proteinase complex formation	128 (1981) 127

SH-groups	123 (1981) 145
transglutaminase crosslinking site	129 (1981) 314
Macrophage	
effect of	
calcium antagonist on spreading	129 (1981) 29
interferon on secretion of plasminogen activator	129 (1981) 233
effect on cholesterol esterification	123 (1981) 303
formation of superoxide anion by NADPH-oxidase	121 (1980) 352
production of blood coagulation and thromboplastin	127 (1981) 154
study of chemiluminescence	123 (1981) 225
synthesis collagenase and prostaglandin E ₂	124 (1981) 253
Magnesium	
effect on photosystem II	126 (1981) 318
- myosin, ADP-complex, study of structure	129 (1981) 169
Major outer membrane protein gene, interaction with cAMP receptor protein	128 (1981) 186
Malate	
dehydrogenase, synthesis in chloroplast	126 (1981) 223
metabolism accumulation in vacuoles of <i>Kalanchoe tubiflora</i>	126 (1981) 81
synthase transport into glyoxysomes	129 (1981) 36
Maleylacetone <i>cis-trans</i> isomerase effect of <i>N</i> -ethylmaleimide	124 (1981) 169
Mammalian cells, effect of nigericin on protein transport	127 (1981) 112
Mammary gland, role of prolactin in amino acid uptake	126 (1981) 250
Manganese	
effect of deoxycholate in chloroplasts	125 (1981) 65
liberation of photosystem II	130 (1981) 99
role in water oxidation of chloroplasts	121 (1980) 78
Mannosidosis, NMS-study of oligosaccharides	121 (1980) 71
Mass spectrometry	
analysis of 3,5-cyclic AMP in tobacco tissue	124 (1981) 119
identification of blood group Le ^b -active glycosphingolipid in plasma	124 (1981) 173
study of oligosaccharides in glycolipid	124 (1981) 299
M1 cells, study of lymphokine-induced differentiation	130 (1981) 80
Meconium, use of glycosphingolipids for blood group chemotyping	128 (1981) 71
Melanocyte stimulating hormone (MSH), effect of calcium	129 (1981) 113
Melanophore stimulation, effect of calcium on MSH receptors	129 (1981) 113
α -Melanotropin	126 (1981) 180
γ -Melanotropin-like peptide, of pituitary	128 (1981) 67
Membrane	
components, study of lateral diffusion	128 (1981) 278
glycoprotein IIb, study of platelet ectosialyltransferase	125 (1981) 277
interaction with chromaffin granules	126 (1981) 103
lipid fluidity, of NADH dehydrogenase	124 (1981) 15
microcapsules, use in multi step enzyme reactions	125 (1981) 94
polypeptides	
phosphorylation, effect of viral transformation	124 (1981) 219
study of phosphorylation	125 (1981) 193
porins, study of transport selectivity	129 (1981) 253
potential	
effect of electrogenic Na ⁺ , K ⁺ -pump	123 (1981) 177
of <i>Escherichia coli</i>	125 (1981) 197
study by oxanol dyes	126 (1981) 98
protein	
composition, study in mutants of <i>Escherichia coli</i>	124 (1981) 210
effect of insulin on phosphorylation	128 (1981) 137
study of methylation in <i>Halobacterium halobium</i>	125 (1981) 205
use of 4- <i>N,N</i> -dimethylamino-azobenzene-4'-isothiocyanate as probe	124 (1981) 225
of <i>Acholeplasma laidlawii</i> , study of lipid composition	124 (1981) 273
of mitochondria	125 (1981) 131
of platelet, localisation of phospholipase A ₂ and diglyceride lipase	124 (1981) 23
study of phospholipids	123 (1981) 3

vesicles, formation of planar bilayers	122 (1980) 77
- water interface study of electric potential	126 (1981) 1
Menaquinone, synthesis of <i>o</i> -succinylbenzoic acid CoA ester	128 (1981) 201
Mersalyl	
<i>N</i> -ethylmaleimide-sensitive protein, distinction from nucleotide translocase	121 (1980) 230
-ultragel, purification of phosphate carrier	128 (1981) 142
Mesangial cells, relation between angiotensin II receptors and cell contractility	121 (1980) 333
Mesitoyl-AMP, labelling of tryptophanyl-tRNA synthetase	123 (1981) 156
Mesotocin of Australian marsupials	129 (1981) 120
Messenger RNA (mRNA)	
coding for	
α_1 -antitrypsin	130 (1981) 297
lutropin	123 (1981) 151
tropomyosin	130 (1981) 227
interaction with proteins	130 (1981) 223
of adenovirus type 2, study of <i>EcoRI</i> B fragment	122 (1980) 317
study of poly(A) tendency	121 (1980) 193
Metallothionein	126 (1981) 165
Methane formation from DMSO	129 (1981) 52
S-Methane sulfonyl-CoA, labelling of acyl-CoA sites	124 (1981) 151
Methanol oxidases	126 (1981) 152
Methionyl-tRNA	
-binding activity in Krebs-2 cells	128 (1981) 43
binding of ethionine	128 (1981) 157
3-Methoxy catecholamines, effect on acetylcholinesterase	121 (1980) 37
Methoxymelanin, formation from 6-hydroxymelatonin	122 (1980) 237
6-Methoxy-1,2,3,4 tetrahydro- β -carboline in pineal gland	127 (1981) 277
Methylacetimidate, effect on adenylate cyclase	122 (1980) 241
<i>N</i> ⁶ -Methyladenosine	
effect of antibodies on translation	130 (1981) 153
effect on glucose oxidation in fat cells	125 (1981) 249
Methylamine, binding to α_2 -macroglobulin	128 (1981) 123
Methylation	
analysis, role of neuraminic acid residues	121 (1980) 33
of	
DNA	124 (1981) 67
erythrocyte membrane proteins, effect of 5'-methylthioadenosine	126 (1981) 236
factor F ₄₃₀	130 (1981) 133
membrane proteins in <i>Halobacterium halobium</i>	125 (1981) 205
phospholipids in hamster cells, effect of viral transformation	129 (1981) 67
tRNA, effect of S-adenosyl-homocysteine and sinefungin	128 (1981) 87
Methyl groups macromolecules, NMR-study	128 (1981) 79
Methylisoborneol, synthesis in streptomycetes	125 (1981) 220
Methylmethanesulphonate treatment, effect of DNA polymerases on DNA	125 (1981) 227
5'-methylthioadenosine, effect on methylation of erythrocyte membrane proteins	126 (1981) 236
2-Methylthio- <i>N</i> ⁶ -isopentenyladenosine effect of bisulphite	130 (1981) 221
3-Methyl-5-(4'-oxo-2',6',6'-Trimethylcyclohex-2'-en-1'-yl)-2,4 pentadienoic acid occurrence in <i>Cercospora rosicola</i>	128 (1981) 30
4-Methylumbelliferyl glycosides, binding to lectins of <i>Bandeiraea simplicifolia</i>	126 (1981) 227
Microcalorimetry, study of calcium reaction with phosphatidylserine vesicles	123 (1981) 249
Microsomal membranes, study of cytochrome P-450 aggregation	122 (1980) 54
Microsomes	
formation of methoxy melanin from 6-hydroxymelatonin	122 (1980) 237
localization of glycosyltransferases	122 (1980) 247
Microtubule-associated protein, study of	
ATP-ase activity	125 (1981) 49
phosphorylation	123 (1981) 181
Microvillar protein biosynthesis	127 (1981) 129
Milk lactoperoxidase	127 (1981) 253
Mitochondria	
an ESR-study of hydroxyl radicals	123 (1981) 241

effect of	
antraquinone dyes	127 (1981) 40
di(2-ethylhexyl)phthalate	130 (1981) 77
endotoxin on phospholipase A ₂	127 (1981) 115
phosphate on calcium transport	128 (1981) 275
thyroxine treatment on calcium transport	126 (1981) 9
photolabelling of NADH dehydrogenase	127 (1981) 45
properties of protein kinase	121 (1980) 225
proteolysis of ATPase inhibitor	130 (1981) 119
purification of phosphate carrier	128 (1981) 142
relation between glutamate dehydrogenase and NAD-redox state	128 (1981) 356
relation of monoamine oxidase activity with oxidative phosphorylation	121 (1980) 303
study of	
ADP-analogs as phosphate acceptors	125 (1981) 111
arginine tRNA	130 (1981) 287
aspartate aminotransferase	122 (1980) 33
calcium transport	123 (1981) 30
calcium-transport	127 (1981) 37
dicyclohexyl carbodiimide-binding protein	130 (1981) 137
4-enoyl-CoA reductase activity	121 (1980) 23
iron sulfur protein of cytochrome <i>b</i> c ₁	126 (1981) 93
phosphate-transport	124 (1981) 265
pyruvate dehydrogenase kinase	127 (1981) 188
tyrosyl-tRNA genes	125 (1981) 180
uncoupler-binding protein of ATPase	126 (1981) 211
Mitochondrial	
-ATPase, study of structure	129 (1981) 210
handling of D,L-thiocarnitine	121 (1980) 19
inner membrane	125 (1981) 131
membrane, biosynthesis in hepatocytes	127 (1981) 91
translation products of liver and hepatoma	126 (1981) 61
Monoamine oxidase, relation with mitochondrial oxidative phosphorylation	121 (1980) 303
Monoclonal antibody, raised against 5'-nucleotidase	128 (1981) 103
Morris hepatoma 5123D, study of arginine tRNA	130 (1981) 287
Mössbauer spectroscopy, study of siderophore iron-transport	130 (1981) 50
Multiple sclerosis, interaction of basic proteins with phosphatidylglycerol vesicles	125 (1981) 159
Murine antibody fragment, NMR study	124 (1981) 248
Muscarine acetylcholine receptors	
effect of synaptic-membrane protein phosphorylation	122 (1980) 288
of <i>Torpedo</i> electric organ	122 (1982) 293
Muscle	
contraction, role of calmodulin	125 (1981) 141
distribution of tropomyosin subunits	128 (1981) 233
dystrophy, effect of electrical stimulation on enzymes	128 (1981) 55
fibers, study of myosin light chain complements	122 (1980) 80
of body wall of <i>Lumbricus terrestris</i> , study of myosin	121 (1980) 243
Mutant	
lacking photosystem I activity, EPR-study of photosystem II	121 (1980) 355
of <i>Escherichia coli</i> , change in membrane protein composition	124 (1981) 210
of <i>Escherichia coli</i> K12, study of phospholipids hydrolysis	130 (1981) 261
of <i>Salmonella typhimurium</i> , study of lipopolysaccharides	129 (1981) 145
Mycobacteria, study of D-galactose catabolism	124 (1981) 270
Mycobacteriophage 13 DNA, role of DNA gyrase in replication	127 (1981) 57
Mycoplasma growth, effect of cholesteryl esters	122 (1980) 59
Myelin basic proteins	
binding to chromatin of mouse brain	127 (1981) 179
interaction with phosphatidyl glycerol vesicles	125 (1981) 159
Myocardial mRNA, effect of adriamycin	123 (1981) 169
Myofibrillar protein, study of phosphorylation	122 (1980) 129

Myosin	
ADP-Mg complex, study of structure	129 (1981) 169
effect of terbium	127 (1981) 245
isoenzymes	128 (1981) 336
light chain	
complements, of muscle fibers	122 (1980) 80
of body wall muscle of <i>Lumbricus terrestris</i>	121 (1980) 243
synthesis in embryonic muscle cells	123 (1981) 312
of skeletal muscle	126 (1981) 111
of smooth muscle, effect of protein kinase	126 (1981) 107
-S1 derivatives	123 (1981) 54
subfragment-1, study of G-actin	121 (1980) 55
NAD, bound to polyethylene glycol	121 (1980) 239
NAD/NADH redox state, relation with glutamate dehydrogenase	128 (1981) 356
NADH	
-cytochrome b_5 reductase of red-cell membranes	126 (1981) 172
dehydrogenase	
photolabelling with arylazidophosphatidylcholine	127 (1981) 45
study of membrane lipid fluidity	124 (1981) 15
NAD(H), study in polymorphonuclear leukocytes	127 (1981) 87
NADP(H), study in polymorphonuclear leukocytes	127 (1981) 87
NADPH-oxidase, formation of superoxide anion	121 (1980) 352
Nerons	
system, study of acetylcholinesterase	121 (1980) 169
tissue, effect of calcium on ATPase	126 (1981) 285
Neuraminic acid residues, role in methanolysis	121 (1980) 33
Neuroblastoma cells	
effect of Semliki forest virus on protein synthesis	129 (1981) 62
study of poly(A) in polysomal RNA	122 (1980) 109
Neurophysin	
comparative study	128 (1981) 325
I/oxytocin, biosynthesis and processing of precursors	121 (1980) 358
I-Tyr-Phe-NH ₂ complex, crystallization study	121 (1980) 41
II/arginine vasopressin, biosynthesis and processing of precursors	121 (1980) 358
proteins, study of evolution	126 (1981) 41
Neutron scattering, study of transcortin	122 (1980) 203
Neutrophils, effect of	
leukotriene B ₄ on release of lysosomal enzymes	130 (1981) 146
surface-reactive stimuli, on phosphorylation	127 (1981) 4
Nigericin, effect on protein transport in mammalian cells	127 (1981) 112
Nitrocellulose filters, use in protein quantitation	124 (1981) 193
Nitrogen-fixing nodules, study of purine nucleotides metabolism	125 (1981) 89
Nitrogenase, effect of dimethylsulfoxide	126 (1981) 77
5-Nitro-L-norvaline, effect on pyridoxal-5'-phosphate-dependent enzymes	126 (1981) 269
Nitroso compounds, ESR-study	130 (1981) 12
Non-histone chromosomal proteins HMG1 and HMG2	122 (1980) 264
Non-histone chromatin proteins, study of salt dissociations	125 (1981) 30
Nordihydroguaiaretic acid, effect on phagocytosis in neutrophils	127 (1981) 183
(S)-Norlaunosoline synthase	129 (1981) 5
Nuclear envelope fragments of <i>Dictyostelium</i>	121 (1980) 183
Nuclear magnetic resonance (NMR)	
guanosine nucleotides analogs	121 (1980) 211
identification of blood group Le ^b -active glycosphingolipid in plasma	124 (1981) 173
measurement of pH differences	123 (1981) 319
of	
alfalfa mosaic virus	130 (1981) 265
ATP interaction with RNA-polymerase	130 (1981) 283
1,2 dipalmitoyl-sn-glycero-3-phosphorylcholine	126 (1981) 169
elongation-factor Tu	126 (1981) 161

- glycoproteins 121 (1980) 65
- lactate dehydrogenase 129 (1981) 33
- phorbol-myristate-acetate in leukocytes 129 (1981) 105
- troponin C 125 (1981) 39
- zinc in erythrocytes 121 (1980) 61
- study of
 - calcium-binding to phospholipase A₂ 123 (1981) 115
 - calmodulin 123 (1981) 25
 - enkephalin and enkephalinamide analogs 128 (1981) 51
 - insulin 126 (1981) 208
 - methyl groups, bound to macromolecules 128 (1981) 79
 - murine antibody fragment 124 (1981) 248
 - oligosaccharides in mannosidosis 121 (1980) 71
 - perfused heart 123 (1981) 315
 - rod outer segments lipids 124 (1981) 93
 - tRNA synthetase 124 (1981) 293
- Nuclear membranes of *Saccharomyces cerevisiae* protoplasts 122 (1980) 95
- Nuclear protein kinase, effect of polyamines and histones on heparin inhibition 128 (1981) 33
- Nuclease, effect on SV40 125 (1981) 35
- Nuclei of
 - liver, effect of heavy metal on RNA synthesis 123 (1981) 265
 - rat liver, study of RNA polymerase activities 121 (1980) 299
 - Saccharomyces cerevisiae* protoplasts 122 (1980) 95
- Nucleic acid
 - sequence, study of poly(A) tendency 121 (1980) 193
 - effect on 2'-5' A synthetases and protein-D1-kinase 130 (1981) 291
 - interaction with *lac* repressor headpiece 124 (1981) 202
 - sequestration in liposomes 125 (1981) 183
- Nucleosome, repeat unit of chromatin 128 (1981) 90
- Nucleolar protein phosphorylation during cell cycle 124 (1981) 53
- Nucleoside
 - diphosphate kinase effect of *p*-chloromercuribenzoate and urea 127 (1981) 281
 - 3',5'-diphosphates, effect of acid phosphatase 123 (1981) 285
- Nucleosomes
 - effect of linking number of circular minichromosome on shape 130 (1981) 43
 - study of
 - heterogeneity 128 (1981) 40
 - hydrogen-exchange 121 (1980) 130
 - structure by SV40 125 (1981) 35
- 5'-Nucleotidase
 - effect of glucocorticoid receptors in lymphoblastoid IM-9 cells 121 (1980) 249
 - monoclonal antibody 128 (1981) 103
- Nucleotide translocase, distinction from mersalyl *N*-ethyl maleimide-sensitive protein 121 (1980) 230
- Nucleus, role in degradation of glutamine synthetase 124 (1981) 27
- Nylon fibers, use in isolation of plasma membranes 126 (1981) 175
- Obese mice, effect of vasopressin on lipogenesis 127 (1981) 25
- Octadecenoic acids, incorporation into glycerophospholipids 122 (1980) 133
- Octauridylate analog, effect on mRNA binding proteins 123 (1981) 269
- Octopine dehydrogenase, study of antibody 130 (1981) 213
- 8-(*N,N*-diethylamine)-Octyl,3,4,5 trimethoxybenzoate-HCl (TmB-8), effect on macrophage spreading 129 (1981) 29
- Oleic acid-stimulated polymorphonuclear leukocytes, study of NAD(P) 127 (1981) 87
- Oligosaccharides
 - NMR study in mannosidosis 121 (1980) 71
 - sequence in glycolipid 124 (1981) 299
- Oligothymidilate ethyl ester, alkylation of poly(A) tracts of RNA 122 (1980) 21
- Oocytes, effect of proteases on secreted proteins 128 (1981) 305
- Opiate receptor, study of etorphine macromolecular complex 122 (1980) 199
- Opioid peptide precursors in striatum 122 (1980) 135
- Opiomelanocortin, glycosylation of precursor 122 (1980) 279

Ornithine decarboxylase, effect of	
prostaglandins	122 (1980) 197
polyanions	125 (1981) 83
Ornithine transcarbamylase in sparse-fur	130 (1981) 65
Oubain, effect on ATPase	126 (1981) 215
Outer membrane protein, binding region of bacteriophage λ	121 (1980) 127
Ovarian cycle, regulation of gonadotropin receptors and luteinizing hormone (LH)	122 (1980) 184
Ovomucoid, study of secondary structure	124 (1981) 185
Oxaloacetate decarboxylase, effect on sodium transport	122 (1980) 234
Oxanol dyes, study of membrane potentials	126 (1981) 98
Oxidase	
electrochemical reduction of oxygen	126 (1981) 282
of bacteria, study of photochemical action spectra	128 (1981) 205
Oxidation of chloroplasts, EPR-study of manganese	121 (1980) 78
β -Oxidation pathway in peroxisomes	126 (1981) 71
Oxidative	
hemolysis of glucose 6-phosphate dehydrogenase-deficient erythrocytes	128 (1981) 225
phosphorylation	
effect of anthraquinone dyes	127 (1981) 40
of mitochondria, relation with monoamine oxidase	121 (1980) 303
study of ADP analogs as phosphate acceptors	125 (1981) 111
2-Oxoglutarate dehydrogenase of bovine kidney	127 (1981) 157
Oxygen	
binding to cytochrome oxidase	126 (1981) 195
diffusion, of hemoglobin	126 (1981) 191
electrochemical reduction by terminal oxidase	126 (1981) 282
evolution	
effect of deoxycholate in chloroplasts	125 (1981) 65
in photosystem II, effect of amines	130 (1981) 99
forming enzyme, effect of di-isopropyl fluorophosphate	124 (1981) 19
generation in macrophages	123 (1981) 225
radicals	121 (1980) 219
species	
effect on hydrogenase	122 (1980) 211
in paraquat toxicity	129 (1981) 265
Oxyhemocyanins, study of copper sites	130 (1981) 314
Oxytocin, biosynthesis and processing of precursors	121 (1980) 358
Ile ⁸ -Oxytocin, <i>see</i> Mesotocin	129 (1981) 120
Palmitoyl	
-L-carnitine hydrolase effect of clofibrate	124 (1981) 43
-CoA hydrolase, effect of clofibrate	124 (1981) 43
Pancreatic islets	
effect of fructose 2,6-biphosphate on glycolysis	125 (1981) 217
study of	
γ -glutamyl transpeptidase	125 (1981) 57
locations of glucagon, somatostatin and insulin	122 (1980) 207
proglucagon	129 (1981) 127
Papova virus genomes, interaction with tumor promoter TPA	128 (1981) 191
Papulacandin B, effect on β -(1,3) Glucan-synthase	129 (1981) 249
Paraquat	
radicals, formation of hydroxyl radicals	128 (1981) 339
toxicity, study of oxygen species	129 (1981) 265
Parotid, effect of substance P <i>N</i> -methylated analogs	123 (1981) 291
Penicillinases, identification of active-site serine peptide	121 (1980) 8
Pent-4-enolate, effect on 4-enoyl-CoA reductase activity	121 (1980) 23
Pentose phosphate pathway, role of glucose-phosphate isomerase	130 (1981) 124
Pepsin	125 (1981) 239
Pepsinogen denaturation	123 (1981) 189

Peptide	
bond formation, effect of bottromycin A ₂	123 (1981) 173
identification of amino citric acid	123 (1981) 141
synthesis, study in <i>N,N</i> -dimethylformamide solutions	125 (1981) 104
2'(3')- <i>O</i> -Peptidyladenosine-5'-phosphates formation, role of ribosomes	130 (1981) 85
Peptidyl-puromycin synthesis on polysomes	128 (1981) 83
Percoll, study of interaction of chromaffin granules and plasma membranes	123 (1981) 238
Perfusion of	
heart, NMR-study	123 (1981) 315
liver, study of ethane production	126 (1981) 241
rat heart, study of phosphorylation of myofibrillar protein	122 (1980) 129
Peroxidase of eosinophils	123 (1981) 327
Peroxisomal oxidases of rat nephron	127 (1981) 250
Peroxisome-associated polypeptide in mouse liver, effect of clofibrate	124 (1981) 159
Peroxisomes	
conversion of cholic acid into peroxisomes	121 (1980) 345
effect of di(2-ethylhexyl)phthalate	130 (1981) 77
study of	
β -oxidation pathway	126 (1981) 71
respiration, heat production and thermoosmosis	128 (1981) 1
Pertussis vaccine, effect of adrenergic receptors sensitivity in fat cells	126 (1981) 306
pH	
differences in <i>Rhodospseudomonas sphaeroides</i>	123 (1981) 319
effect on photochemical quantum yield of bacteriorhodopsin	128 (1981) 245
Phagocytosis, effect of nordihydroguaiaretic in neutrophils	127 (1981) 183
Phenobarbitone, effect on cytochrome P-450 in liver	127 (1981) 33
Phenoxybenzamine of epinephrine on lipolysis and of cyclic AMP levels	127 (1981) 217
Phenylalanyl-tRNA	125 (1981) 15
aminoacylation	129 (1981) 173
binding to proteins	123 (1981) 273
effect of bisulphite	130 (1981) 221
from <i>Escherichia coli</i>	121 (1980) 86
Phenylephrine-stimulated gluconeogenesis, effect of chlorpromazine	126 (1981) 313
Phenylhydrazine, study of oxidation	125 (1981) 235
3-Phenylpropionate, formation from cinnamate	123 (1981) 107
Pheophytin, acceptor of photosystem II	123 (1981) 235
Phorbol-myristate-acetate	
effect on phosphorylation in neutrophils	127 (1981) 4
NMR-study in leukocytes	129 (1981) 105
Phosphatase	
conversion by inhibitor-2	127 (1981) 1
effect on phosphorylated caseins	125 (1981) 77
Phosphate	
carrier of mitochondria	128 (1981) 142
effect on calcium transport in mitochondria	128 (1981) 275
transport	
in <i>Candida tropicalis</i>	125 (1981) 69
protein, relation with dicyclohexyl carbodiimide-binding protein	130 (1981) 137
system in mitochondria	124 (1981) 265
Phosphatidate phosphohydrolase, effect starvation, corticotropin and ethanol	126 (1981) 297
Phosphatidic acid, effect on calcium transport	125 (1981) 137
Phosphatidyl	
choline	
cleavage of arachidonic acid	128 (1981) 237
vesicles, effect of procaine analog	127 (1981) 196
ethanolamine, cleavage of arachidonic acid	128 (1981) 237
glycerol vesicles, interaction of basic proteins	125 (1981) 159
serine vesicles, effect of calcium	123 (1981) 249

Phosphodiesterase	
effect of	
adenosine	128 (1981) 75
calcium	124 (1981) 207
calcium binding protein	126 (1981) 245
in <i>Xenopus Laevis</i>	123 (1981) 37
Phosphoenolpyruvate carboxykinase, effect of lactic acid	127 (1981) 121
Phosphofructokinase	
effect of fructose 2,6-biphosphate in glycolysis	125 (1981) 217
study of phosphorylation	130 (1981) 309
6-Phosphoglucose isomerase, effect of pyridoxal 5'-phosphate	123 (1981) 100
Phosphoglycerate kinase purification by affinity chromatography	128 (1981) 353
Phospholipase	
A ₂	
effect of endotoxin	127 (1981) 115
localisation in platelet membranes	124 (1981) 23
in mutants of <i>Escherichia coli</i> K12	130 (1981) 261
Phospholipid	
composition of aminc storage granules	129 (1981) 309
effect on fatty acid synthetase complex	126 (1981) 253
hydrolysis in mutants of <i>Escherichia coli</i> K12	130 (1981) 261
in membranes	123 (1981) 3
membranes, clustering of gangliosides	121 (1980) 11
methylation in hamster cells, effect of viral transformation	129 (1981) 67
Phosphorescence emission, study of zinc cytochrome c	125 (1981) 86
Phosphorylase kinase, effect of calcium on adsorbtion to sarcoplasmic reticulum membranes	121 (1980) 143
Phosphorylated proteins, role in transport of free mRNP to polysomes	130 (1981) 60
Phosphorylation	
effect on branched-chain oxo-acid phosphorylation	121 (1980) 306
in neutrophils, effect of surface-reactive stimuli	127 (1981) 4
of	
acetyl CoA carboxylase	124 (1981) 145
ATP citrate lyase	124 (1981) 140
calciductin	129 (1981) 277
calsequestrin	122 (1980) 227
chloroplast membrane polypeptides	125 (1981) 193
glutamate dehydrogenase	122 (1980) 297
glycogen	127 (1981) 97
glycogen synthase	127 (1981) 94
inorganic pyrophosphatase	124 (1981) 245
membrane polypeptides, effect of viral transformation	124 (1981) 219
membrane proteins, effect of insulin	128 (1981) 137
microtubule-associated protein	123 (1981) 181
myofibrillar protein	122 (1980) 129
nucleolar proteins during cell cycle	124 (1981) 53
protein	
dependent on cAMP	124 (1981) 155
dependent on cyclic AMP in hepatocytes	127 (1981) 285
in chloroplasts	123 (1981) 67
synaptic-membrane protein, effect on muscarine acetylcholine receptors	122 (1980) 288
study of ATPase	123 (1981) 131
Phosphotyrosine, effect of protein phosphatase	130 (1981) 197
Photoacoustic spectroscopy	
of photochemical quantum yield of bacteriorhodopsin	128 (1981) 245
of tobacco leaves	129 (1981) 44
Photophosphorylation	
effect of temperature in chloroplasts	127 (1981) 193
of ADP analogs	130 (1981) 73
Photoreaction, study in chloroplast	123 (1981) 95
Photosynthesis	
electron transport in bundle sheath of maize	126 (1981) 89

ESR-study of green photosynthetic bacterium	127 (1981) 83
relation with photoacoustic signals of tobacco leaves	129 (1981) 44
study of charge separation	126 (1981) 1
Photosynthetic bacteria, study of light-harvesting pigment-protein	122 (1980) 1
Photosystem	
I	
characterization of chlorophyll RC1	126 (1981) 323
iron-sulfur centers, an EPR-study	123 (1981) 229
reaction center, synthesis of subunits	125 (1981) 115
study of	
chlorophyll P700 and plastocyanin	122 (1980) 13
electrochromic shift	123 (1981) 90
I and II, spatial separation thylakoid membranes of chloroplasts	124 (1981) 1
II	
binding of plastoquinone	126 (1981) 277
effect of	
magnesium	126 (1981) 318
tetraphenyl boron	126 (1981) 272
identification of electron acceptor	124 (1981) 241
study of	
oxygen evolution and manganese liberation	130 (1981) 99
pheophytin acceptor	123 (1981) 235
redox potentials	129 (1981) 205
Picornaviruses, effect on heat shock proteins	128 (1981) 93
Pineal gland, study of 6-methoxy-1,2,3,4-tetrahydro- β -carboline	127 (1981) 277
Pituitary cells, effect of dopamine on TSH secretion	121 (1980) 257
Pituitary enzymes, effect on gonadotropin-releasing hormone	127 (1981) 273
Pituitary gland	
production of insulin-like	124 (1981) 178
study of LH release	126 (1981) 199
Pituitary, study of γ_1 -melanotropin-like peptide	128 (1981) 67
Plant	
cells, entrapment in different matrices	122 (1980) 312
tumor cells, study of mRNA for lysopine dehydrogenase	129 (1981) 166
Plasmacytoma cells transport of phosphorylated proteins to polysomes	130 (1981) 60
Plasma membrane	
effect of bacitracin on α -m binding	126 (1981) 265
labeling of specific proteins	122 (1980) 166
mediated by ATP, effect on chromaffin granules	123 (1981) 238
of leucocytes, isolation by adhesion to nylon fibres	126 (1981) 175
sialoglycoproteins	123 (1981) 222
vesicles, sodium-calcium transport	121 (1980) 15
Plasminogen, effect of interferon on secretion by macrophages	129 (1981) 233
Plastocyanin, study at sub-zero temperatures	122 (1980) 13
Plastoquinone, binding to photosystem II	126 (1981) 277
Platelet	
ectosialyltransferase, effect on membrane glycoprotein IIb	125 (1981) 277
effect of fibronectin on adhesion and spreading	123 (1981) 59
membranes	
effect of epinephrine	130 (1981) 235
localisation of phospholipase A ₂ and diglyceride lipase	124 (1981) 23
subcellular distribution of protein kinase and 3',5' cyclic AMP-binding proteins	130 (1981) 230
Poly(A)	
binding of initiation factor 3	128 (1981) 154
RNA, study in RNA of neuroblastoma cells	122 (1980) 109
tracts of RNA, alkylation by ethylester of oligothymidilate	122 (1980) 21
Polyamine	
effect on	
heparin inhibition of nuclear protein kinase	128 (1981) 33
Semliki forest and herpes simplex production	121 (1980) 292
synthesis	121 (1980) 309

Polyanions, effect on ornithine	125 (1981) 83
Polychlorobiphenyls, effect on δ -aminolevulinic acid synthetase and uroporphyrinogen decarboxylase	129 (1981) 93
Polyethylene glycol (PEG)	
bound NAD	121 (1980) 239
effect on protein self-association	126 (1981) 18
Polymorphonuclear leukocytes	
effect of	
chemotactic peptide on superoxide	128 (1981) 5
di-isopropyl fluorophosphate on O_2 -forming enzyme	124 (1981) 19
nordihydroguaiaretic	127 (1981) 183
hydroxylation of eicosatetraenoic acids	128 (1981) 329
study of membrane potential	123 (1981) 177
Polyoma virus DNA, study of T antigens	130 (1981) 269
Polymers, effect on protein selfassociation	126 (1981) 18
Polypeptides of thylakoid membrane	124 (1981) 229
Polysomes	
of starving bacteria, study of peptidyl-puromycin synthesis	128 (1981) 83
transport of phosphorylated proteins	130 (1981) 60
Porphobilinogen deaminase, study of complexes	129 (1981) 220
Porphyrins, study of <i>N</i> -alkylation by dihydropyridines	129 (1981) 328
Potassium	
effect on LH release from pituitary glands	126 (1981) 199
-sodium antiporter, in polymorphonuclear leukocytes	123 (1981) 177
Procaine analog, effect on phosphatidylcholine vesicles	127 (1981) 196
Procarboxypeptidase A	128 (1981) 13
Processing of RNA	125 (1981) 1
Procolipase, study of activation	128 (1981) 217
Procollagen type I	125 (1981) 170
Progesterone, effect on protein synthesis in <i>Xenopus laevis</i> oocytes	127 (1981) 233
Proglucagon, study in pancreatic islets	129 (1981) 127
Prolactin, role in amino acid uptake in mammary gland	126 (1981) 250
<i>lac</i> Promoter, interaction of RNA polymerase	128 (1981) 46
Prophospholipase A_2 , binding of calcium	123 (1981) 115
Prostacyclin	
effect of TSH in thyroid cells	126 (1981) 301
metabolites	121 (1980) 25
role in thyroid cells	129 (1981) 83
Prostaglandin	121 (1980) 25
E_2 , synthesis in macrophages	124 (1981) 253
effect of TSH in thyroid cells	126 (1981) 301
effect on ornithine decarboxylase	122 (1980) 197
study of sensitivity in fat cells	126 (1981) 306
Prosthetic group PQQ of dehydrogenases	130 (1981) 179
Protease	
effect on proteins of oocytes	128 (1981) 305
of <i>Sporotrichum dimorphosporum</i>	130 (1981) 205
specific for low-molecular proteins	127 (1981) 75
Protein	
binding of chlorambucil phenylalanyl-tRNA	123 (1981) 273
chlorophyll complexes of chloroplasts	122 (1980) 149
degradation in cultured fibroblasts	129 (1981) 77
in reticulocyte lysate, effect of 1,3-diamopropane	121 (1980) 309
interaction with hnRNA and mRNA	130 (1981) 223
kinase	
a conformation study	122 (1980) 223
I-activated, phosphorylation of initiation factor 2 α	125 (1981) 223
an electrophoresis study	125 (1981) 151
effect of	
ADP-ribosylation	128 (1981) 133
glycosaminoglycans	121 (1980) 139

- effect on
 - acetyl CoA carboxylase 124 (1981) 145
 - ATP-citrate 124 (1981) 140
 - calcium in sarcolemmal vesicles 122 (1980) 67
 - DNA polymerase- α 124 (1981) 84
 - smooth muscle myosin 126 (1981) 107
- interaction with cAMP 125 (1981) 120
- of
 - mitochondria 121 (1980) 225
 - porcine liver nuclei 122 (1980) 231
 - thyroid tissues 125 (1981) 155
- phosphorylation of
 - glycogen synthase 123 (1981) 332
 - initiation factor 2 α 125 (1981) 223
- study of
 - cAMP-binding sites 127 (1981) 9
 - substrate specificity 130 (1981) 127
- subcellular distribution in platelets 130 (1981) 230
- II**
 - binding of 3',5'-cyclic AMP 129 (1981) 287
 - relation with 3',5'-cyclic AMP 129 (1981) 282
 - study of binding site for 3',5'-cyclic AMP 121 (1980) 340
- methylation in *Caldariella acidophila* 124 (1981) 62
- of Cyanobacterium, relation with DCMU-sensitivity 129 (1981) 47
- P_i kinase, effect of nucleic acids 130 (1981) 291
- phosphatase
 - effect on phosphotyrosine 130 (1981) 197
 - mechanism of activation 126 (1981) 57
- phosphorylation
 - dependent on cAMP 124 (1981) 155
 - in chloroplasts 123 (1981) 67
- quantitation in complex mixtures 124 (1981) 193
- reactive for dicyclohexylcarbodiimide 125 (1981) 97
- secreted by oocytes, effect of proteases 128 (1981) 305
- self-association, effect of polymers 126 (1981) 18
- synthesis
 - from tobacco mosaic virus RNA 124 (1981) 79
 - in neuroblastoma cells, effect of Semliki forest virus 129 (1981) 62
 - in *Xenopus laevis* oocytes, effect of progesterone 127 (1981) 233
 - initiation in eukaryotes 128 (1981) 177
- transport in mammalian cells, effect of nigericin 127 (1981) 112
- Proteinase**
 - complex formation with α_2 -macroglobulin 128 (1981) 127
 - effect on α_2 -macroglobulin 121 (1980) 275
- Proteolytic enzymes, study of low molecular mass protease** 127 (1981) 75
- Proton**
 - binding sites of bacteriorhodopsin, effect of electric-field 128 (1981) 265
 - magnetic resonance (PMR)
 - interaction of guanine with carboxylate ions 130 (1981) 7
 - study of ribosomal protein L11 127 (1981) 241
 - transport
 - in thylakoid, effect of CO₂-depletion 121 (1980) 222
 - role in ATP-synthase 128 (1981) 261
- Protoplasts, effect of glycosylation on exo-1,3- β -D-glucanase secretion** 121 (1980) 283
- Pseudomonic acid A, production in *Pseudomonas fluorescens*** 122 (1980) 322
- Pulse radiolysis, study of free radical products of CCl₄** 122 (1980) 303
- Purine**
 - nucleotides, study of metabolism 125 (1981) 89
 - salvage enzymes in *Trypanosoma cruzi* 127 (1981) 211
 - transport system, use of δ -Azidoadenine as photoaffinity label 129 (1981) 305

Purothionin, study of thioredoxin activity	124 (1981) 237
Putrescine	
binding to α_2 -macroglobulin	128 (1981) 123
formation from spermidine	121 (1980) 165
Pyridoxal 5'-phosphate	
-dependent enzymes, effect of 5-nitro-L-norvaline	126 (1981) 269
effect on	
DNA-binding of steroid hormone receptors and DNA binding proteins	124 (1981) 189
6 phosphoglucose isomerase	123 (1981) 100
Pyrimidine biosynthesis, location of enzymes in trypanosomes and <i>Leishmania</i>	128 (1981) 27
Pyruvate dehydrogenase	126 (1981) 21
kinase in starved or alloxan-diabetic rats	127 (1981) 188
Pyruvate	
effect on heat inactivation of N-acetylneuraminase	121 (1980) 280
kinase, effect of fructose 1,6-diphosphate	123 (1981) 255
Quinone-iron complex, identification as electron acceptor of photosystem II	124 (1981) 241
Quinones, relation with electron transport	130 (1981) 173
Radioimmunoassay	
of kininogen	129 (1981) 241
of prostacyclin metabolites	121 (1980) 25
Raman spectroscopy, study of P ₂ ribosomal RNA	123 (1981) 19
Reaction center	
of photosynthetic bacterium	130 (1981) 93
of photosystem I, characterization of chlorophyll RCI	126 (1981) 323
Redox Bohr-effects, effect on cytochrome <i>b</i> <i>c</i> ₁ complex and cytochrome <i>c</i> oxidase	125 (1981) 261
Redox potential, study of dimethyl sulphoxide reduction	124 (1981) 11
Relaxin of sand tiger shark	129 (1981) 80
Repeat DNA, effect of DNase I	126 (1981) 219
Repetitive DNA in <i>Chironomus thummi</i>	129 (1981) 21
Repressor, <i>lac</i> -	
headpiece	124 (1981) 204
interaction with nucleic acids	124 (1981) 202
interaction with homo-oligonucleotides	127 (1981) 63
study of structure	129 (1981) 246
Respiration	
effect of nordihydroguaiaretic acid in neutrophils	127 (1981) 183
study in peroxisomes	128 (1981) 1
Respiratory chain, study of semiquinone anion in cytochrome <i>c</i> oxidoreductase	122 (1980) 143
Reticulocyte lysate protein, effect of 1,3 diaminopropane	121 (1980) 309
Reticulocytes, isolation of transcriptionally-active chromatin	121 (1980) 207
Retina of bovine, study of retinoid-binding proteins	130 (1981) 15
Retinal	
-binding residue in bacteriorhodopsin	130 (1981) 187
orientation in lipid bilayers	128 (1981) 97
Retinoid-binding proteins of bovine retina	130 (1981) 15
Retinyl moiety, binding to bacteriorhodopsin	128 (1981) 255
Reverse transcriptase, effect of ethidium bromide	122 (1980) 100
Rheumatoid synovial tissues, effect on synthesis of collagenase and prostaglandin E ₂ in macrophages	124 (1981) 253
Rhodopsin	
effect on rod outer segment lipid bilayer formation	124 (1981) 93
photoenergetics	123 (1981) 324
Ribonucleoprotein particle (RNP), transport to polysomes	130 (1981) 60
Ribonucleoproteins of embryonic muscle	127 (1981) 133
5'-Ribonucleotide phosphohydrolase effect of glucocorticoid receptors in lymphoblastoid IM-9 cells	121 (1980) 249
Ribosomes	
interaction of aminoacyl-tRNA	125 (1981) 10
isolation of translational inhibitor (TI) from ribosomes	121 (1980) 203
localization of elongation factor G	130 (1981) 54

role information of 2'(3')- <i>O</i> -peptidyladenosine-5'-phosphates	130 (1981) 85
study of	
codon-anticodon interaction	125 (1981) 15
mRNA-binding proteins	123 (1981) 269
protein L22	121 (1980) 105
protein S10	121 (1980) 113
protein S11	121 (1980) 117
topography of RNA	121 (1980) 97; 122 (1980) 251
Ribosomal	
protein	
BL 17	121 (1980) 323
in neighbourhood of deacylated tRNA	129 (1981) 59
L4	121 (1980) 317
L11, PMR-study	127 (1981) 241
L22	121 (1980) 105
of <i>Micrococcus lysodeikticus</i>	127 (1981) 67
S2	129 (1981) 10
S4, X-ray scattering study of structure	129 (1981) 55
S6 and S7	121 (1980) 313
S7, study of structure	130 (1981) 279
S10	121 (1980) 113
S11	121 (1980) 117
RNA (rRNA)	
genes, 5 S, comparison of Alu I family	126 (1981) 147
prokaryotic and eukaryotic sequence homology	126 (1981) 150
relation between prokaryotic and eukaryotic species	130 (1981) 1
4.5 S, in chloroplasts	123 (1981) 17
23 S, study of ribosomal subunit	130 (1981) 217
5 S, a Raman study	123 (1981) 19
23 S RNA, study of compact selfpacking	121 (1980) 101
subunit	
50 S, study of 23 S rRNA	130 (1981) 217
of <i>Crithidia fasciculata</i> , nucleotide sequence of RNA	128 (1981) 298
Ribulose	
biphosphate carboxylase	
/oxygenase	124 (1981) 75; 129 (1981) 39
precursor polypeptide	123 (1981) 85
-1,5-biphosphate carboxylase	
effect of temperature and light	129 (1981) 197
study of precursor	124 (1981) 233
<i>Ricinus communis</i> toxin, effect on ganglioside GM ₁ of lipid bilayers	127 (1981) 207
RNA	
interaction with RNA-polymerase	130 (1981) 23
nucleotide sequence of ribosomal subunit of <i>Crithidia fasciculata</i>	128 (1981) 298
4 of alfalfa mosaic virus, binding site of coat protein	121 (1980) 123
of brome mosaic virus RNA ₃ , study of A-rich nucleotide sequence	130 (1981) 32
polymerase	124 (1981) 135
activities in liver nuclei	121 (1980) 299
coding gene of T ₇ phage DNA	127 (1981) 53
interaction with	
ATP	130 (1981) 283
<i>lac</i> promoter	128 (1981) 46
RNA	130 (1981) 23
of <i>Physarum polycephalum</i>	125 (1981) 107
of tomato leaf tissue	121 (1980) 91
small-angle X-ray	123 (1981) 22
study of DNA-binding	122 (1980) 17
X-ray study	122 (1980) 117
II	
effect of stimulatory proteins	130 (1981) 69
study of bound chromatin	122 (1980) 219

study of processing	125 (1981)	1
synthesis		
effect of estrogen and tamoxifen	129 (1981)	17
effect on heavy metal	123 (1981)	265
topography in ribosome	121 (1980)	97; 122 (1980) 251
mRNA for lysopine dehydrogenase in plant tumor cells	129 (1981)	166
Rod outer segments lipid, effect of rhodopsin on bilayer formation	124 (1981)	93
Salivary gland proteins, study of lipolytic activity	127 (1981)	215
Sarcolemma		
membrane proteins, effect of cholera toxin on ADP-ribosylation	128 (1981)	133
vesicles		
of rat aorta	122 (1980)	67
study of sodium/calcium transporter	126 (1981)	74
effect of doxorubicin on Na ⁺ /Ca ²⁺ exchange	130 (1981)	184
Sarcoplasmic		
effect of calcium on cation channel	128 (1981)	269
reticulum,		
effect of detergents on ATPase	121 (1980)	235
membranes, role of calcium in adsorption of phosphorylase kinase	121 (1980)	143
study of ATP-binding site of ATPase	123 (1981)	127
Satellite DNA of mouse	129 (1981)	25
Secretin of bovine	127 (1981)	71
Secretion of protein, effect of carboxymethylation	123 (1981)	211
Secretory proteins, signal receptor on endoplasmic reticulum	123 (1981)	79
Semliki forest virus		
effect of α -difluoromethylornithine on production	121 (1980)	292
effect on protein synthesis in neuroblastoma cells	129 (1981)	62
proteins	126 (1981)	33
Sex-inducing glycoprotein of <i>Volvox carteri</i>	124 (1981)	57
Showdomycin, effect on glycolipid formation	128 (1981)	208
Sialoglycoproteins of plasma membrane	123 (1981)	222
SIBA, effect on growth of amastigotes of <i>Leishmania</i>	121 (1980)	287
Siderophore iron transport, study by Mössbauer spectroscopy	130 (1981)	50
Simian virus 40 (SV40), model for study of nucleosomal structure	125 (1981)	35
Sinefungin		
effect on		
growth of amastigotes of <i>Leishmania</i>	121 (1980)	287
methylation of tRNA	128 (1981)	87
Single-stranded RNA, sequestration in liposomes	125 (1981)	183
Skeletal muscle		
effect of exercise on acetyl carnitine	126 (1981)	21
formation of spermine during tetanus	123 (1981)	186
myosin	126 (1981)	111
role of calcium in thyroid hormone-dependent oxygen consumption	121 (1980)	349
Small-angle X-ray, study of RNA polymerase of <i>Escherichia coli</i>	123 (1981)	22
Smooth muscle myosin, effect of protein kinase	126 (1981)	107
Sodium		
-calcium antiporter		
effect of doxorubicin	130 (1981)	184
in sarcolemma	126 (1981)	74
-calcium transport		
in mitochondria	123 (1981)	30
in plasma membrane vesicles	121 (1980)	15
-potassium antiporter, in polymorphonuclear leukocytes	123 (1981)	177
role in α -adrenergic regulation of glycogenolysis	121 (1980)	260
specific binding to hemoglobin I	129 (1981)	273
transport		
effect of decarboxylation of oxaloacetate	122 (1980)	234
study of action potential	121 (1980)	265

Somatomedin-binding protein, synthesis in hepatoma cell line	127 (1981) 221
Somatostatin	
activation in plasma	127 (1981) 22
effect on actions glucagon and insulin	122 (1980) 207
Spectrin, study of hydrophobic ligands	129 (1981) 109
Spermidine, formation of putrescine and acetylspermidine	121 (1980) 165
Spermine	
effect on herpes simplex virus type I DNA polymerase	126 (1981) 157
formation in skeletal muscle during tetanus	123 (1981) 186
Spirodecanone binding sites, differentiation from dopamine receptors	121 (1980) 133
Starvation, effect on phosphatidate phosphohydrolase	126 (1981) 297
Steroid hormone receptors, effect of pyridoxal 5'-phosphate on DNA-binding	124 (1981) 189
Streptozotocin-diabetes, effect on carnitine acyltransferase	129 (1981) 225
Striatum, study of	
dopamine receptors	121 (1980) 133
opioid peptide precursors	122 (1980) 135
Substance P <i>N</i> -methylated analogs, effect on parotid	123 (1981) 291
Submitochondrial particals, inside-out	126 (1981) 13
Sub-zero temperatures, study of chlorophyll P700 and plastocyanin	122 (1980) 13
Succine thiokinase, relation to ketone-body utilization	123 (1981) 252
<i>o</i> -Succinylbenzoic acid CoA ester, intermediate in vitamin K ₂ synthesis	128 (1981) 201
Sucrase	
-isomaltase, precursors of enterocyte membranes	127 (1981) 129
of jejunal villus, effect of diet	129 (1981) 89
Sulfonamide-resistant carbonic anhydrase	128 (1981) 114
Superoxide	
anion, formation by NADPH-oxidase of macrophages	121 (1980) 352
dismutase, synthesis in cell-free system	121 (1980) 215
radicals, production by hematoporphyrin and light	121 (1980) 161
release, effect of chemotactic peptide	128 (1981) 5
Surface membrane components, study of lateral diffusion	128 (1981) 278
Synaptic	
membrane protein phosphorylation, effect on muscarinic acetylcholine receptors	122 (1980) 288
membranes, effect of calmodulin on acetylcholine receptors	127 (1981) 144
T-antigens of polyoma virus DNA	130 (1981) 269
T-lymphocytes, regulation of erythrocyte receptor synthesis	121 (1980) 295
Tamoxifen, effect on RNA synthesis	129 (1981) 17
Taurodeoxycholate-oleate mixtures, effect on colipase	122 (1980) 91
Temperature, effect on	
photophosphorylation in chloroplasts	127 (1981) 193
ribulose-1,5-biphosphate carboxylase	129 (1981) 197
Terbium, effect on actin and myosin	127 (1981) 245
Testis cells, effect of ornithine decarboxylase on prostaglandins	122 (1980) 197
Testosterone-induced carbonic anhydrase	128 (1981) 114
Tetanus, formation of spermine in skeletal muscle	123 (1981) 186
1,2- <i>O</i> -Tetradecanoyl-phorbol-1,3 acetate (TPA), interaction with papova virus genomes	128 (1981) 191
Tetraphenyl	
boron, effect on carotenoid and cytochrome <i>b</i> -559 reactions	126 (1981) 272
phosphonium ion, probe of membrane potential	125 (1981) 197
Thermosmosis, study in peroxisomes	128 (1981) 1
Thiobarbituric acid	
-reactive substance, formation from deoxyribose	128 (1981) 347
role in radical damage to amino acids and carbohydrates	128 (1981) 343
D,L-Thiocarnitine, mitochondrial handling	121 (1980) 19
Thioredoxin	
activity of purothionin	124 (1981) 237
in fermentative bacterium	130 (1981) 88
Thoracic duct drainage, study of apolipoprotein in plasma	130 (1981) 305

Thrombin, proteolytic cleavage of antithrombin	126 (1981) 257
Thromboplastin, production by macrophages	127 (1981) 154
Thromboxane A ₂ , effect of TSH in thyroid cells	126 (1981) 301
Thy-I-antigen capping, relation with actin polymerization	124 (1981) 35
Thylakoid	
effect of CO ₂ -depletion on proton transport	121 (1980) 222
membrane	
localization of polypeptides	124 (1981) 229
study of photosystem 1 and 2	124 (1981) 1
stacking, study of ion-exchange	129 (1981) 193
study of	
ATP-dependent state 1 state 2 changes	129 (1981) 161
galactolipids	124 (1981) 105
Thymine starvation, effect of DNA polymerases on DNA	125 (1981) 227
Thymocytes, relation between actin polymerization and Thy-I-antigen capping	124 (1981) 35
Thymus, isolation of transcriptionally-active chromatin	121 (1980) 207
Thyroglobulin, effect on 3',5'-cyclic AMP	121 (1980) 44
Thyroid	
cells	
effect of	
3',5'-cyclic AMP on thyroglobulin	121 (1980) 44
TSH on prostacyclin	126 (1981) 301
role of prostacyclin	129 (1981) 83
hormone, role of calcium	121 (1980) 349
-stimulating hormone (TSH)	
effect of	
domperidone	129 (1981) 97
dopamine	121 (1980) 257
effect on prostacyclin in thyroid cells	126 (1981) 301
tissues, study of protein kinases	125 (1981) 155
Thyrototoxicosis, study of fatty acid biosynthesis	122 (1980) 37
Thyrotropin receptor, interaction with Graves' IgG	127 (1981) 17
Thyroxine treatment, effect on calcium transport from mitochondria	126 (1981) 9
Tingenone, effect on DNA	122 (1980) 256
Tobacco	
mosaic virus RNA, study of protein synthesis	124 (1981) 79
-tissue, analysis of 3',5'-cyclic AMP by mass spectrometry	124 (1981) 119
Toxin of <i>Ricinus communis</i> , effect on ganglioside GM ₁ of lipid bilayers	127 (1981) 207
Transcortin, a neutron scattering study	122 (1980) 203
Transcriptionally-active chromatin, isolation from reticulocytes and thymus	121 (1980) 207
Transfer RNA (tRNA), effect of ethidium bromide	122 (1980) 100
Transglutaminase crosslinking site of α_2 -macroglobulin	129 (1981) 314
Translation, effect of N ⁶ -methyladenosine antibodies	130 (1981) 153
Translational inhibitor (TI), isolation from ribosomes of lymphocytes	121 (1980) 203
Triacylglycerol synthesis in hepatocytes	124 (1981) 31
Trifluoperazine, effect on	
α -adrenergic receptors	123 (1981) 245
calmodulin	123 (1981) 25
3 α ,7 α ,12 α -Trihydroxy-5 β -cholestanoic acid, conversion to cholic acid by peroxisomes	121 (1980) 345
Trimethoprim, binding to dihydrofolate reductase	126 (1981) 49
Triphenylmethyl phosphonium ion, probe of membrane potential	125 (1981) 197
Triton X-100, effect on	
intermediate in bacteriorhodopsin photocycle	128 (1981) 249
lecithin vesicles	123 (1981) 200
Tropomyosin	
α -, binding of troponin-T	128 (1981) 119
study of mRNAs	130 (1981) 227
subunits, distribution in muscles	128 (1981) 233
Troponin	
acrylamide fluorescence quenching studies	122 (1980) 72

study of phylogenetic diversity	121 (1980) 273
C. NMR-study	125 (1981) 39
T, binding site for α -Tropomyosin	128 (1981) 119
Trypanosomes, location of enzymes for pyrimidine biosynthesis	128 (1981) 27
Trypsinogens of rat pancreas	121 (1980) 369
Tryptophan-5-monooxygenase, distribution of protein kinase in brain tissues	129 (1981) 117
Tryptophanyl	
-adenylate, formation by tryptophanyl-tRNA synthetase	123 (1981) 165
-tRNA synthetase	
kinetics of formation of tryptophanyl-adenylate	123 (1981) 165
labelling with mestoyl-AMP	123 (1981) 156
study of affinity modification	123 (1981) 161
Tubulin, lysozyme-induced polymerization	124 (1981) 285
Tumor promoter TPA, interaction with papova virus genomes	128 (1981) 191
Tunicamycin, effect on glycolipid formation	128 (1981) 208
Tyrosine	
aminotransferase	
role in tyrosine catabolism	127 (1981) 28
study of induction by dexamethasone	125 (1981) 266
catabolism, role of tyrosine aminotransferase	127 (1981) 28
-tRNA genes of mitochondria	125 (1981) 180
UDP	
-glucuronic acid, effect of ether narcosis	124 (1981) 39
-glucuronosyltransferase, effect on benzo[α]pyrene-3,6-quinone	121 (1980) 269
Uncoupler-binding protein of ATP-ase of mitochondria	126 (1981) 211
Urea, effect on nucleoside diphosphate kinase	127 (1981) 281
Ureides, formation from purine nucleotides	125 (1981) 89
Uremia, study of conjugation	129 (1981) 237
Uroporphyrinogen decarboxylase, effect of polychlorobiphenyls	129 (1981) 93
Valyl-tRNA, protection by aminoacyl-tRNA synthetase against alkylation	123 (1981) 277
Vasoactive intestinal peptide (VIP), effect on glycogenolysis in colon carcinoma cell line	126 (1981) 38
Vasopressin, effect on lipogenesis in obese mice	127 (1981) 25
Vesicles, thylakoid, generation of membrane layers	128 (1981) 149
Vimentin of eye lens tissue	125 (1981) 253
Viral transformation, effect on	
phospholipid methylation in hamster cells	129 (1981) 67
phosphorylation of membrane polypeptides	124 (1981) 219
Vitamin	
D, effect on calmodulin- and calcium-binding protein	127 (1981) 13
K-dependent carboxylase	123 (1981) 215
K ₂ , synthesis of <i>o</i> -succinylbenzoic acid CoA ester	128 (1981) 201
Wheat germ lectin	
-Sephacrose, affinity chromatography on D-glucose transport	129 (1981) 100
study of structural change of coagulation factor X _I	124 (1981) 48
Xanthan gum, study of biosynthesis	130 (1981) 253
X-ray	
absorption fine structure (EXAFS), study of oxyhemocyanins	130 (1981) 314
crystallography of neurophysin 1-Tyr- Phe-NH ₂ complex	121 (1980) 41
diffraction, of GDP-binding site of elongation factor Tu (EF-Tu)	129 (1981) 177
scattering, study of ribosomal protein S4	129 (1981) 55
study of	
EF-Tu-EF-Ts complex	124 (1981) 279
GDP-binding site of elongation factor Tu	126 (1981) 120
RNA polymerase	122 (1980) 117

Zinc

cytochrome *c*, study of absorption and phosphorescence emission
in erythrocytes, NMR-study

125 (1981) 86

121 (1980) 61
