

FEBS LETTERS

An international journal established for the most rapid possible publication of essentially final short papers in the field of Biochemistry, Biophysics and Molecular Biology

Published by North-Holland Publishing Company on behalf of the

FEDERATION OF EUROPEAN BIOCHEMICAL SOCIETIES

A Federation of Biochemical Societies in Austria, Belgium, Bulgaria, Czechoslovakia, Denmark, Finland, France, German Democratic Republic, Germany, Federal Republic of, Great Britain, Greece, Hungary, Iceland, Ireland, Israel, Italy, The Netherlands, Norway, Poland, Portugal, Rumania, Spain, Sweden, Switzerland, USSR, Yugoslavia

Editorial policy:

Papers should be short, complete and essentially final reports. Papers not sufficiently sustained by experimental detail will not be published. The over-riding criteria are novelty and general interest. *FEBS Letters* is not a repository for material which, though sound, is not particularly novel nor meriting urgent publication.

Subject coverage:

Protein Chemistry, Enzymology, Biophysical Chemistry, Nucleic Acids, Protein Synthesis, Biochemical Genetics, Morphogenesis, Cellular Biochemistry, Metabolism, Immunochemistry, Natural Products.
