

**Contents of
Journal of Micronutrient Analysis**

As a service to readers, the contents list of the current issue of this sister journal is reproduced here.

Volume 2, Number 1

The Determination of Vitamin D in Foods and Feeds Using High-Performance Liquid Chromatography	1
TADASHI KOBAYASHI, TOSHIO OKANO and ATSUKO TAKEUCHI (Japan)	
Gas-Liquid Chromatography of Vitamins in Foods: the Water-Soluble Vitamins	25
JAN VELÍŠEK and JIŘÍ DAVÍDEK (Czechoslovakia)	
A Rapid High-Performance Liquid Chromatographic Method for Separating Tocopherols	43
C-S. J. SHEN and A. J. SHEPPARD (USA)	
Short-Term Intraindividual Variability in Plasma Trace Mineral Concentrations	55
NOEL W. SOLOMONS, OSCAR PINEDA and DAVID B. MILNE (USA)	
Book Reviews	
<i>Methods for the Determination of Vitamins in Foods.</i> Edited by G. Brubacher, W. Muller-Mulot and D. A. T. Southgate. Elsevier Applied Science Publishers Ltd, London, 1985	67
(Reviewed by R. Macrae)	
<i>Modern Chromatographic Analysis of Vitamins.</i> Edited by A. P. De Leenheer, W. E. Lambert and M. G. M. De Ruyter. Marcel Dekker, Inc., New York, 1985	68
(Reviewed by G. G. Birch)	
Letter to the Editor	71
