

## **Announcement**

### **BIOAVAILABILITY 88—CHEMICAL AND BIOLOGICAL ASPECTS OF NUTRIENT AVAILABILITY, 21–24 AUGUST 1988**

A three day international meeting on the above topic will be held in Norwich, UK, from 21 to 24 August 1988. The meeting aims to provide a forum for chemists interested in food, speciation, physico-chemical studies of non-equilibrium reactions and the application of advanced physical methods to discuss with nutritional scientists the importance of bioavailability in the assessment of nutritional value, its conceptual basis and the pressing need to develop reliable methods for measuring the availability of both micro- and macro-nutrients. Plenary, contributed paper/poster sessions and workshops are planned.

Further information can be obtained from: Dr G. R. Fenwick, AFRC Institute of Food Research, Norwich Laboratory, Norwich NR4 7UA, UK. Tel. (0603) 56122.
