

Rapid Communication

ADDENDUM

Hunt, D., Parkes, H. C. and Lumley, I. D. (1997) Identification of the species of origin of raw and cooked meat products using oligonucleotide probes. *Food Chemistry* **60**, 437–442.

We designed the specific oligonucleotide probes from published genomic DNA sequence information as cited in the paper. The oligonucleotide sequences are as detailed.

Species	Oligonucleotide sequence
Bovine	5' TATCAGGCAGATGAGCGGGCAGGTGTCGCGCGGCTCAGCTGGCGAG 3'
Sheep	5' AATTCCGCTGATTCCGGGGCCTAAGACCTTGTGTGAACTCAGGGCCGG 3'
Goat	5' TGCTTTTAGGCTGCCTCTCCAGGAAGGAGCAGGCAGCAGGAGCCTGGGAGTCAC 3'
Rabbit	5' CAAACTCCTCTATGAGTCCAATAGTCTCTTAGTAGAGTTCTTTGGATCC 3'
