

ANNOUNCEMENTS

INTERLEC 6 - Sixth International Lectin Meeting. Poznan, Poland. September 3-6, 1984.

Topics: cancer markers, biological effects of exogenous lectins, description and function of animal, bacterial, plant and fungal lectins, physicochemical studies on lectins, lectin tools.

Further information: Secretariat, INTERLEC 6, Protein Laboratory, University of Copenhagen, Sigurdsgade 34, DK-2200 Copenhagen N, Denmark.

European Symposium on Cellular and Pathological Aspects of Glycoconjugate Metabolism. Strasbourg, France. September 23-27, 1984.

Topics: topology of glycoconjugates and glycosyltransferases, cellular transport of glycoconjugates, role of glycoconjugates in the physiological regulation of cell metabolism, role of glycoconjugates and glycosyltransferases in cellular communication, involvement of glycoconjugates in pathological phenomena, gangliosides in biomedical practice.

Further information: H Dreyfus, Unité 44 de l'INSERM, Centre de Neurochimie du CNRS, 5, Rue Blaise Pascal, 67084 Strasbourg Cedex, France.

INTERLEC 7 - Seventh International Lectin Meeting. Brussels, Belgium. August 18-23, 1985.

Information: E Van Driessche, Vrije Universiteit Brussel, Paardenstraat 65, B-1640 Sint-Genesius-Rode, Belgium.

Eighth International Symposium on Glycoconjugates. Houston, Texas, U.S.A. September 8-13, 1985.

Information: J C Williams, Department of Pediatrics, University of Texas Medical School, P.O. Box 20708, Houston, Texas 77025, U.S.A.

Third European Symposium on Carbohydrates (Chemistry, Biochemistry, Technology). Grenoble, France. September 16-20, 1985.

Information: Secrétariat, 3rd European Carbohydrate Symposium, Centre de Recherches sur les Macromolécules Végétales, C.N.R.S., Université de Grenoble, B.P. No. 68, F-38402 Saint Martin d'Hères Cédex, France.
