EUCHEM-Konferenzen im Jahre 1966

- 1) 1.–7. April: *Metal Hydrides*, Bristol University, U. K.
organised by: Prof. F. G. A. STONE, Inorganic Chemistry Dept. of the University, Bristol 8 (Great Britain).
- 2) 8.–13. Mai: *Stereochemistry*, Bürgenstock (Switzerland),
organised by: Prof. D. ARIGONI, Organic Chemistry Lab., Technical High School, Zürich (Switzerland)
- 3) 10.–13. Mai: *Chemistry in Molten Salts*, Ulvik, Hardanger (Norway),
organised by: Prof. H. FLOOD, Inorganic Chemistry Dept., Technical University, Trondheim (Norway).
- 4) Im September: *Far Infrared Spectroscopy* in Great Britain,
organised by: Prof. H. W. THOMPSON, St. John's College, Oxford (Great Britain).
- 5) 12.–17. September: *Chemistry of Insects*, Villa Monastero, Varenna (Italy),
organised by: Prof. A. QUILICO, Politecnico di Milano, Istituto di Chimica Milano, Milano (Italy).
- 6) 24.–28. Oktober: *Synthesis and Characterisation of Organic Radicals*, Schloss Elmau b. Mittenwald (Germany),
organised by: Prof. K. DIMROTH, Chemical Institute of the University, 355 Marburg, Bahnhofstrasse 7 (Germany).

General enquiries and suggestions for future conferences should be sent to Prof. H. W. THOMPSON, St. John's College, Oxford (Great Britain).
