

## Royal Society of Chemistry Interdisciplinary Awards 1988

The Royal Society of Chemistry is pleased to invite nominations for the 1988 Interdisciplinary Awards. These awards were established in 1986, the aims being twofold:

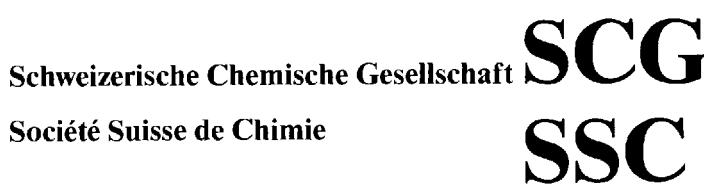

- a) To draw attention to the importance of interdisciplinary studies, particularly those of public interest, involving chemistry and one or more other sciences, and in doing so to draw attention to the Society's interest in and willingness to encourage such work which looks across traditional boundaries.
- b) To promote work which involves chemists working with scientists from different disciplines, and the association of scientists from other disciplines with chemistry.

The individual award will consist of an inscribed memento and an honorarium of £ 100, whilst the presentation of the award will be associated with a lecture by the successful candidate forming the centrepiece of a one-day scientific meeting, if possible as part of a meeting of the British Association. It is expected that collaboration with other societies by way of co-sponsorship of the meeting might well be appropriate, depending on the subject-matter. Nominators are invited to tender suggestions not only as regards names of suitable lecturers but also for subject areas. The significance and excellence of the work will be paramount criteria in making the awards, but the ability of the candidates to present their work in a lively and interesting way will also be considered. Candidates need not be main-stream chemists: it is the relationship of their work to chemistry that matters.

The closing date for submission of nominations for the 1988 Interdisciplinary Awards is 1 October 1988 for up to three awards; nominations should be sent to:

Dr John F. Gibson  
Royal Society of Chemistry  
Burlington House, London W1V 0BN

There is neither age nor nationality restriction, but nominees will be expected to be domiciled in the UK or the Republic of Ireland. It is expected that the meeting associated with the 1988 awards will be stated towards the end of 1989, or at the 1990 BA meeting.

# Herbstversammlung in Bern Assemblée d'automne à Berne

21. Oktober/octobre 1988

**Chemische Institute, Universität Bern  
Instituts de Chimie, Université de Berne  
Freiestrasse 3**

08.30 - 09.00	Geschäftlicher Teil/Partie administrative
09.00 - 09.30	<b>Dr. E. Roduner</b> , Universität Zürich Werner-Preisträger 1988 «Anwendungen des positiven Myons als Sonde in der Radikalchemie»
09.30 - 10.20	<b>Prof. Dr. R. H. Abeles</b> , Brandeis University, Waltham MA, USA «Inhibition of Serine Proteases and Esterases by Fluoroketones»
10.40 - 17.40	<b>Kurzvorträge/Communications</b> Sektionen für Organische, Medizinische und Physikalische Chemie Sections de chimie organique, thérapeutique et physique
09.00 - 12.50	<b>Symposium</b> «Inorganic and Coordination Chemistry: Role of Surfaces»
14.30 - 16.30	<b>Postersession</b> Anorganische und Koordinationschemie Chimie minérale et de coordination
14.00 - 16.30	<b>Minisymposium</b> «Computational Chemistry»

Royal Society of Chemistry

Annual Chemical Congress  
University of Hull, 4–7 April 1989

*Dalton Division*

**International Conference on the Chemistry of the Early Transition Metals**  
The University of Sussex, Brighton, 10–14 July 1989

*Perkin Division*

**International Symposium on Molecular Mechanisms in Bioorganic Processes**  
Newcastle upon Tyne, 17–20 July 1989

**11th International Symposium on Synthesis in Organic Chemistry**  
Oxford, 25–27 July 1989

**XIIIth IUPAC Symposium on Photochemistry**  
University of Warwick, Coventry, 22–27 July 1990
