Announcement

The European Federation for Medicinal Chemistry announces the

W. Th. Nauta Award for Pharmacochimistry

The prize will honour the memory of Professor Dr. Wijbe Nauta whose activities have been very important for the advancement of medicinal chemistry in general and for the development of international organisation structures for this discipline.

The W. Th. Nauta Award will acknowledge outstanding results of scientific research in the field of medicinal chemistry obtained by a scientist from one of the countries of the EFMC sphere or research that has been carried out in one of these countries. In exceptional cases the Award will acknowledge the achievement of a scientist, who has contributed predominantly in other ways to the advancement of medicinal chemistry, e.g. by fostering the cooperation between countries in this science.

The Award will be given for the second time in 1994.

Nominations for the Award are expected to reach the secretary of the jury, Dr. F. J. Zeelen, Floraliastraat 2, NL-5384 GP Heesch (The Netherlands) or the chairman of EFMC, Dr. E. Kyburz, Unt. Rebbergweg 127, CH-4153 Reinach (Switzerland) no later than March 1, 1994. The proposals should include a short curriculum vitae, a list of publications and indicate the reasons for which the candidate qualifies for the Award.
