Andrew L. Feig, Michael Becker, Siegfried Schindler, Rudi van Eldik, and Stephen J. Lippard*: Mechanistic Studies of the Formation and Decay of Diiron(III) Peroxo Complexes in the Reaction of Diiron(II) Precursors with Dioxygen

Page 2596. The value of S^\ddagger for the decay of **2b** to **2c** in Table 2 should be $+22 \pm 6 \text{ J mol}^{-1} \text{ K}^{-1}$.

Supporting Information Table S20. Values in column 4 should be ignored, and the heading of column 3 should read $10^{-3}k_{\text{obs}}$ ($\text{M}^{-1} \text{ s}^{-1}$).

These changes do not significantly affect the discussion or conclusions.

Heidi Boerzel, Margery Koeckert, Weiming Bu, Bernhard Spingler, and Stephen J. Lippard*: Zinc-Bound Thiolate–Disulfide Exchange: A Strategy for Inhibiting Metallo- β -lactamases

We regret that we did not mention specifically that the laboratory of Prof. Dr. H. Vahrenkamp previously prepared compounds **1a**, **2**, **7**, and **10** and kindly thank him for calling our attention to this oversight.

Page 1606. For the synthesis of the Tp^{PhMe} complex **1a**, replace ref 40 with ref 60. In converting **1a** to the corresponding thiolate derivatives, replace ref 41 with ref 37 and Rombach, M.; Vahrenkamp, H. *Inorg. Chem.* **2001**, *40*, 6144–6150. The original refs 40 and 41 incorrectly cite syntheses of the Tp^{CumMe} analogues.

Page 1609. The structure of **7** was previously reported in ref 37.
