

Corrections to Toward Unidirectional Rotary Motion in Nickelacarboranes: Characterization of Diastereomeric Nickel Bis(Dicarbollide) Complexes Derived from the [Nido-7-CH₃-7,8-C₂B₉H₁₁][−] Anion [*Inorg. Chem.* 2009, 48, 9377].
Robert D. Kennedy, Carolyn B. Knobler, and M. Frederick Hawthorne*

Page 9380. Table 1 has errors and should be ignored. **Please refer to Table S1 in the Supporting Information.**

Page 9381. In column 1, line 12, it should be “through” rather than “thorough”; in column 1, line 31, it should be 11.42(6)° rather than 11.48(4)°; in column 2, line 3, it should be 1.4939(7) and 1.4937(7) Å rather than 1.4946(2) and 1.4939(2) Å.

Page 9382. In Table 2, column 5, row 6, for compound Ni^{III} (**6**), the distance 2.152(1) for Ni–C1A is incorrectly presented in bold; in column 8, row 12, for compound NMe₄·**4**, the distance 2.268(2) for Ni–C₂B should be in bold.
