

Correction to Spectroscopic and Luminescence Studies on Square-Planar Platinum(II) Complexes with Anionic Tridentate 3-Bis-(2-pyridineimino)isoindoline Derivatives [*Inorg. Chem.* 2010, 49, 2210]. Hui-Min Wen, Yu-Hui Wu, Yang Fan, Li-Yi Zhang, Chang-Neng Chen,* and Zhong-Ning Chen*

Page 2215. “Wavelength (nm)” corresponding to the *x* axis in Figure 4 should be changed to “Potential (V vs Fc⁺/Fc)”, and “5 mA” in Figure 4 should be changed to “5 μA”. The corrected Figure 4 is given below. We are sorry for this error.

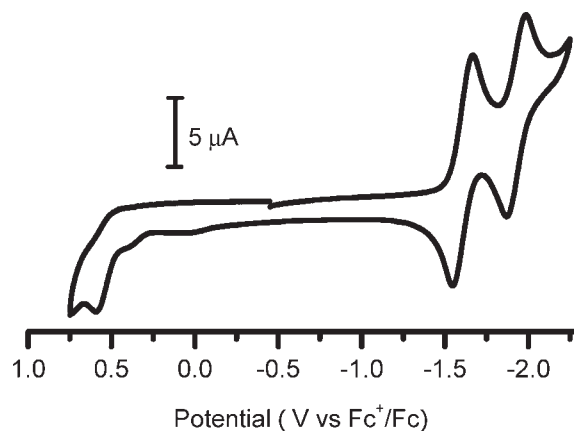

Figure 4. CV of **4** in a 0.1 M dichloromethane/(Bu⁴N)(PF₆) solution. The scan rate is 100 mV s⁻¹.
