**Mark E. Frink, Douglas Magde, Douglas Sexton, and Peter C. Ford\*:** Reaction Dynamics and Hydroxide Ion Quenching of Rhodium(III) Ligand Field Excited States: Photoreactions of Rh(NH<sub>3</sub>)<sub>5</sub>I<sup>2+</sup>.

Page 1239. In the caption to Figure 2 " $\phi$ ,  $\phi_1^0/\phi_1$ " is incorrect. The correct caption should read as follows:  $\phi$ ,  $\phi_{\text{tot}}^0/\phi_{\text{tot}}$ . Also, in Figure 2 the diamond ( $\phi$ ) curve is incorrectly labeled as I<sup>-</sup>. The correct label is  $\phi_{\text{tot}}$ . For clarification of Figure 2, the following addition should be made:  $\phi_{\text{tot}} = \phi_1 + \phi_{\text{NH}_3}$ .—Peter C. Ford
