Gold-197 Mössbauer Analysis of Alkali-Metal-Gold Intermetallics
and (2,2,2-crypt-M⁺)Au⁻ Compounds: Existence of Au⁻ in the Solid
State.

Page 2010. In Table I, footnote *c*, emerge should read merge.

Page 2012. In Table II, footnote *e*, add (model 2) after KAu₂, and
in footnote *f*, change "NaAu" = Au-rich to "NaAu" = Na-rich.

Page 2015. In the last paragraph, line 7, insert "gold. This may be
attributable to an unidentified intermetallic of" between "elemental" and
"composition".—Thomas Birchall
