1997, Volume 36

P. Caravan, Steven J. Rettig, and Chris Orvig*: Effect of Pyridyl Donors in the Chelation of Aluminum(III), Gallium(III), and Indium(III).

Pages 1306–1315. Two seminal references were omitted. The crystal structure of $[\text{Co}(\text{bped})]^+$ was previously reported (under the designation $[\text{Co}(\text{edampa})]^+$)¹ as its $[\text{BF}_4]^-$ salt (a monohydrate), and the NMR spectrum was assigned.²
