Takuya Nishioka, Jingli Yuan, Yuji Yamamoto, Keiko Sumitomo, Zhen Wang, Kimikazu Hashino, Chihiro Hosoya, Keisuke Ikawa, Guilan Wang, and Kazuko Matsumoto\*: New Luminescent Europium(III) Chelates for DNA Labeling

Page 4095. The caption of Figure 6 was incorrect. The descriptions for parts a and b of Figure 6 should be switched. The correct figure and caption are as follows:

**Figure 6.** Time-resolved fluorometric titration of the free chelates and the oligo DNA (17 bases)-bound chelates with lanthanide ions. Solvent:  $1 \times \text{SSC}$ ,  $[\text{chelate}] = 600 \text{ nM}$ . (a) BPTA-labeled DNA ( $\circ$ ) and BPTA ( $\blacksquare$ ) with  $\text{TbCl}_3$ . (b) ATBTA-labeled DNA ( $\bullet$ ) and NHS-ATBTA ( $\square$ ) with  $\text{EuCl}_3$ . (c) The low-concentration regions of the titration curves for ATBTA-labeled DNA with  $\text{Eu}^{3+}$  ( $\bullet$ ) and BPTA-labeled DNA with  $\text{Tb}^{3+}$  ( $\circ$ ).
