

## Correction to Synthesis, Structures, Bonding, and Redox Chemistry of Ditungsten Butadiyne Complexes with $W\equiv C-C\equiv W$ Backbones

Jibin Sun, Sarah E. Shaner, Marya K. Jones, Daniel C. O'Hanlon, Jeffrey S. Mugridge, and Michael D. Hopkins\*

*Inorganic Chemistry* 2010, 49, 1687–1698 DOI: 10.1021/ic902088x

Page 1690. Table 1 reports an incorrect *c*-axis length for compound **2**. The entry should read  $c = 26.927(11)$  Å, not  $c = 19.242(10)$  Å. The other entries in Table 1 are correct.

Page 1698. In the Supporting Information, the crystallographic data (CIF format) provided for compound **2** do not correspond to the refinement reported in the text of the paper. A revised CIF file for compound **2** is available as Supporting Information and has been deposited with the Cambridge Structural Database.

We are grateful to Dr. Seth Wiggin of the Cambridge Crystallographic Data Center for bringing these inconsistencies to our attention. These errors do not alter the results and discussion in the paper regarding the structure of compound **2**.
