### Reactions of Dicarbonyltris(triphenylphosphine)ruthenium(0) and the Dicarbonyldihydrido-bis(triphenylphosphine)ruthenium(II) Derivative with Hydrogen Sulfide, Thiols, and Disulfides

CHUNG-LI LEE, JANET CHISHOLM, BRIAN R. JAMES (*Vancouver, B.C., Canada*), DAVID A. NELSON and MICHAEL A. LILGA (*Richland, Wash., U.S.A.*)

The following corrections should be made.

Page L7, r.h. column, eqn. (3): the final product of this equation should read  $\text{RuH}_2(\text{CO})_2\text{P}_2$ .

Page L8, l.h. column, paragraph 2, line 16 should read:

...(PPh<sub>3</sub>)<sub>3</sub> is also reactive toward the disulfides; for exam-...
