

Title of meeting	Location	Date	Further information from:
XVII International Symposium on Macrocyclic Chemistry	Provo, UT, U.S.A.	August 9–13, 1992	R. M. Izatt, 204 ESC, BYU, Provo, UT 84602, U.S.A.
XVth International Conference on Organometallic Chemistry	Warsaw, Poland	August 9–14, 1992	Prof. Dr. S. Pasynkiewicz, Warsaw Technical University, Faculty of Chemistry, Koszykowa 75, 00-662 Warsaw, Poland
XXI European Congress on Molecular Spectroscopy: EUCMOS XXI	Vienna, Austria	August 23–28, 1992	E. M. Schaup, c/o INTERCONVENTION, Austria Center Vienna, A-1450 Vienna, Austria Tel: 43-222-2369-2647 Fax: 43-222-2369-648 Telex: 11 1803 icos a
XVIII International Symposium on Macrocyclic Chemistry	Enschede, The Netherlands	July 5–8, 1993	D. N. Reinhoudt, Department of Chemistry, University of Twente, P.O. Box 217, 7500 AE Enschede, The Netherlands

Corrigendum

Inorganica Chimica Acta, 183 (1991) 39–42

Synthesis and characterization of $[(\text{bpy})_2\text{Ru}^{\text{II}}(1,3\text{-Me}_2\text{Lumazine})](\text{PF}_6)_2$

Greg Juriga, Marcia Sattgast and Mark E. McGuire (*Charleston, IL, U.S.A.*)

Since completing and publishing this paper, the authors have learned that the title compound had been previously prepared by a different synthetic route and electrochemically characterized in 1,2-dichloroethane on glassy carbon (C. Bessenbacher, C. Vogler and W. Kaim, *Inorg. Chem.*, 28 (1989) 4645). *They sincerely regret this oversight* and hope that the alternate synthetic procedure and electrochemical studies in CH_3CN and H_2O (pH-dependence) will lead to an enhanced understanding of this interesting complex.
