

Corrigenda

Inorganica Chimica Acta, 152 (1988) 135–138

The Molecular Structure and Magnetic Properties of the Dimeric *N,N'*-Ethylenebis(salicylamine)Fe(III)- μ -methoxy-*N,N'*-Ethylene(*o*-hydroxyphenylglycine)salicylamine Fe(III): a Complex with a μ -Monodentate Acetato Bridge

K. SPARTALIAN, JOSEPH A. BONADIES and CARL J. CARRANO (*Burlington, VT, U.S.A*)

Page 136, l.h. column, line 2. Space group $P_{2_1}nb$ should read Pna_{2_1} .

Inorganica Chimica Acta, 156 (1989) 57–63

**Cobalt(III) Complexes with *N*-methylethane-1,2-diamine (meen).
Crystal Structures of the Stable Isomers of $[\text{Co}(\text{meen})_3]^{3+}$ and $[\text{Co}(\text{meen})_2(\text{en})]^{3+}$**

GRAEME H. SEARLE and EDWARD R. T. TIEKINK (*Adelaide, Australia*)

Corrections should be made to two of the diagrams. In Fig. 3 (complex **F**) atom N3 should be N3' for molecule a, and atom N3' should be N3 in molecule b. In Fig. 4, the designations of rings 1 and 2 (and the stereochemical parameters for these rings) of each of the complexes **A**, **C** and **F** should be interchanged.
