

ERRATA CORRIGE

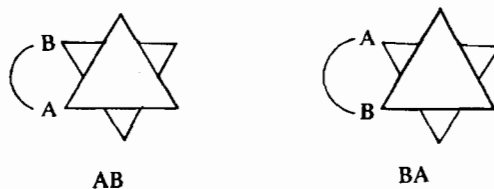

- Page 23, column 2: the datum $x=0.137$ for a_{2u} was omitted from the MO results for a square (D_{4h}) given in reference 11. The stable configuration described in the text should be with 10 rather 6 electrons, *i.e.* Bi_4^{2+} .
- Page 86, column 2: the text should begin as follows: "*Stereochemistry of Co^{III} chelates.* Except for some changes in the position and intensity, the main feature...". Lines 14 and 15 of text (column 2) may be deleted.
- Page 204, Table III, last column, should read:

645 vs
968 vs
983 vs 995 vs

- Page 375, column 1, line 6, should read: « ... ligand to metal higher than two. Before this work... »
- Pages 399 and 401: two pairs of figures have been incorrectly reported. In the Discussion under (i) *Metal Asymmetry* the figures should be

under (iv) *Orientation Isomerism* the figures should be

- Page 477, Figure 2, structure b: charge of the bridged metal complex should be $2+$.
- No. 4, Author Index under Miller should read:

Miller, J. R., 421
Miller, R. G., 471
