Inorganica Chimica Acta, 59 (1982) 249–253

Mechanistic Photochemistry of Transition Metal β -Diketonate Complexes.

3. Detection of a New Reaction Pathway in the Ultraviolet Photochemistry of *trans*-Tris(1,1,1-trifluoro-2,4-pentanedionato)cobalt(III)

GUILLERMO FERRAUDI (*Notre Dame, Ind. 46556, U.S.A.*)

PAUL A. GRUTSCH and CHARLES KUTAL (*Athens, Ga., U.S.A.*)

The following typographical errors were inadvertently overlooked in the above-mentioned article.

On page 249, line 16 in the Abstract Co(II) complexes should have read Co(III) complexes.

On page 252, formula beginning on the fifth line from the bottom of the left-hand-side column should have read $(\text{NH}_3)_4(\text{OH}_2)\text{CoCO}_2\text{H}^{+2}$.

On page 253, line 5 in the Conclusions, Co(II) complex should have read Co(III) complex.
