Inorganica Chimica Acta, 25 (1977) 15–20

Oxidation of Hexaaquoiron(II) by Periodate in Aqueous Acidic Solution

FOUAD R. EL-EZIRI and YOUSIF SULFAB (Kuwait, Kuwait)

The first term in equations (i) and (5) should read

$$\text{Rate} = (k_0 + k_1'' [\text{Fe(II)}]/[\text{H}^+])[\text{Fe(II)}] + \dots$$

At the bottom of page 18,

$$k_2'' = k_9 K_2 / K_1.$$
