Spectral and Magnetic Studies of Amino-acid Schiff Base Complexes of Nickel(II)

T. M. AMINABHAVI, N. S. BIRADAR, G. V. KARAJAGI (*Dharwad, India*) and W. E. RUDZINSKI (*San Marcos, Tex., U.S.A.*)

μ_{eff} (B.M.) data was inadvertently included in Table II on p. 51. Square-planar nickel complexes are diamagnetic and zero magnetic moments were therefore observed. Column 2 of the Table II should thus be deleted.
