

Keyword index to volume 23

- Acoustic levitation, 471
Actuation frequency, 690
Adaptive finite difference method, 317
Aluminium, 298
Annular film flow, 807
Annulus, 52
Aqueous solution, 92
Aqueous solutions, 471
Aspect ratio, 92
Backward-facing step, 601
Binary alloy, 258
Binary mixtures, 471
Blade tip, 109
Boiling flow, 776
Boundary fitting, 242
Bridgman furnace, 258
Bubble departure, 769
Bubble flow, 627
Centrifugal buoyancy, 186
CFD, 455
Channel flow, 700
Chaos thermal convection, 81
Cold wire anemometer, 205
Collocated grid, 601
Computational modelling, 298
Concentric annular pipe, 426
Control volume method, 519
Controlled reattachment and separation, 690
Cooling, 22
Coriolis force, 186
Cross-diffusion term, 731
Cubic spline, 831
Cubical cavity, 346
Damping of convection, 92
Density-wave type instabilities, 776
DES, 330
Diffusivity and scalar variance model
 constants, 205
Dimples, 22
Direct numerical simulation, 161, 426, 441,
 627, 639, 678
Dissipation time-scale ratio, 205
DNS, 547
Drag reduction, 36, 441, 700
Drop evaporation, 471
Droplet entrainment, 807
Droplet impact, 232
Dynamic instabilities, 776
Eccentric, 52
Electrohydrodynamics, 441
Electrostatic precipitators, 441
Enhanced surfaces, 776
Enhancement, 22
Feedback control, 678
Film boiling, 308
Film cooling, 109
Finite volume, 601
Flat plate boundary layer, 186
Flow control, 671
Flow separation, 601
Flow stability, 81
Flow transients, 690
Free convection, 96, 530
Free surface, 232
Frictional drag, 627
Gas–solid flow, 792
Gas turbine heat transfer, 109
Glycerol, 530
Goertler instability, 186
Gravity, 615
Heat and mass transfer, 242
Heat pump, 317
Heat transfer, 96, 186, 601, 731
Heat transfer enhancement, 776
Heated axisymmetric jet, 205
Heated vertical plate, 530
Hot wire anemometer, 205
Hydrodynamic stability, 671
Impingement, 22, 592
Instabilities, 776
Instability of shear flows, 671
Interface, 308
Internal cooling channel, 109
Isothermal channel, 519
Jet, 547, 592
Karhunen–Loeve decomposition, 678
 $k-\epsilon$, 455
 $k-\omega$, 455
 $k-\omega$ model, 731
 $k_\theta-\tau_\theta$ Model and particle collisions, 792
Lagrangian correlation coefficient, 766
Lagrangian method, 232
Lagrangian tracking, 161
Laminar, 52
Laponite suspension, 36
Laponite–CMC blend, 36
Large-eddy simulation, 346, 398, 413, 601
Laser surface alloying, 298
LES, 330
Level sets, 242
Linear and non-linear eddy-viscosity model,
 455
Liquid bridges, 844
Liquid crystal, 29, 186
Lorentz force, 92
Lorentz model, 81

- Magnetic field, 92
 Marangoni flow, 844
 Mass transfer, 96
 Mean shear, 455
 Mean squared displacement, 766
 MEPHISTO experiment, 258
 Metal hydride, 317
 Microchannels, 769
 Microgravity, 258, 497
 Mixed convection, 831
 Mixed dynamic subgrid-scale model, 413
 Modified level set method, 308
 Moving mesh, 232
 Multiphase flow, 242, 627, 639
 Narrow axisymmetric jet, 840
 Natural circulation loop, 81
 Natural convection, 92, 373, 519
 Near-wall turbulent structure, 426
 Nickel, 298
 Non-connected meshes, 232
 Non-Newtonian, 52
 Non-Newtonian fluids, 831
 Numerical simulation, 308, 592, 615
 One-fluid formulation, 242
 Onset of significant void, 769
 Particle clusters, 615
 Particle-laden turbulence, 639
 PIV, 700
 Pool boiling, 497
 Prandtl number, 161
 Pressure-drop type instabilities, 776
 RANS, 330
 Rayleigh–Bénard convection, 346
 Reacting flow, 317
 Recirculating flow, 731
 Rectangular, 547
 Rectangular rib, 519
 Rib-roughened wall, 13
 Rotation, 52
 Rough blade, 109
 Safety analysis, 807
 Secondary flow, 13
 Separation, 455
 Shear-driven flow, 844
 Similarity, 530
 Similarity solution, 840
 Skin friction, 678
 Small heavy particles, 615
 Solidification, 258
 Source diffusion, 161
 Spatial structure, 700
 Spectral non-equilibrium, 398
 Square duct flow, 13
 Stability boundary, 776
 Subcooled boiling, 769
 Subcooling, 497
 Subgrid-scale kinetic energy, 413
 Subgrid-scale model, 398
 Surfactant, 700
 Synthetic jets, 690
 System rotation, 186
 Theoretical mass transfer model, 471
 Thermal boundary layer, 840
 Thermocapillarity, 844
 Thermocapillary, 769
 Thermosyphon, 81
 Thixotropy, 36
 Three-dimensional laminar multiple impinging square jets, 509
 Transient heat transfer, 29
 Transition, 455
 Transition to turbulence, 547
 Transverse curvature, 426
 Truncated cone, 96
 Turbulence, 398, 441, 455, 615, 700, 769
 Turbulence modeling, 330, 455
 Turbulence modulation, 627, 639
 Turbulent flow, 601, 639, 766
 Turbulent heat flux components, 13
 Turbulent natural convection, 346
 Turbulent pipe flow, 36
 Two phase, 776
 Two-dimensional numerical simulation, 373
 Two-layer, 373
 Two-phase, 308
 Two-phase heat transfer, 792
 Uncertainties, 29
 Uniform shear, 615
 Unsteady flow, 398
 Unsteady heat transfer, 592
 Variable density jet, 205
 Variable property, 601
 Volume of fluid, 242
 Vortical structures, 615
 Wake, 639
 Wall-mounted cubes, 330
 Wall turbulence, 678
 Wavy surface, 831
