

## CONTENTS LISTS

### JOURNAL OF ENGINEERING PHYSICS

Volume V, No. 3

March, 1962

	<i>Page</i>
V. V. POMERANTSEV, V. A. LOMBAKH and Y. A. RUNDYGIN: The determination of kinetic constants during low-temperature oxidation of electrode carbon	3
F. B. MOIN and V. U. SHEVCHUK: The rate of jump of laminar flame in heated methane-oxygen mixtures	10
A. N. OBLIVIN: An experimental method for determining local coefficients of friction in non-isothermic conditions	15
A. I. CHAPLINA: The effect of the initial hydrodynamic stabilization section on heat transfer of a longitudinally streamlined plate	21
N. B. KONDUKOV: Hydrodynamic resistance in the pseudo-liquefaction transition zone of a polydisperse layer	27
G. I. KUJMAN and S. N. NOVICHKOV: An investigation of the process of drying and moistening small peat pieces	33
V. P. POPOV: An aerodynamic investigation of the combustion chamber of furnaces with nozzles	39
E. I. MOLCHANOV and A. R. KHENVEN: The calculation of temperature fields in the blade of a gas turbine cooled through erection clearances	45
L. D. VOLYAK: The phenomenon of dimerization of alkali metals and calculation of their thermophysical properties to a temperature of 1500°C	51
I. S. LISKER: A non-stationary method of measuring thermoelectric and thermophysical characteristics of semi-conductors	58
E. P. ZIMIN and V. A. POPOV: An investigation of the electrical conductivity of a flame by the microwave method	66
A. V. BULYGA: Analysis of schemes and operation conditions of pressure transmitters for Pirani vacuum gauges	72
M. V. BUIKOV and S. S. DUKHIN: Diffusion and heat relaxation of an evaporating drop	80
M. S. SMIRNOV: Boundary conditions for a transformed system of differential drying equations	88
V. I. MAKHOVIKOV: A problem in thermal elasticity for a plate	95

#### *Notes*

L. F. KOZLOV: The calculation of the transition from a laminar boundary to a turbulent layer under the action of turbulence of an incident flow	103
G. P. BOIKOV: The relationship between excess temperatures of solids of finite dimensions	107
L. A. DUDNIK and E. B. PERCHIK: The measurement of the temperature of grids of electron tubes according to resistance changes	110
Y. V. MALTSEV: The maximum efficiency of a thermoelectric generator	113

#### *Survey*

L. A. KOZDOBA: The application of electrical models for the solution of thermotechnical problems	118
--	-----

#### *History of Science of Heat and Mass Transfer*

John Dalton and his Works	132
---------------------------	-----

#### *Criticism and Bibliography*

B. M. SMOLSKI: A monograph about a highly effective fuel utilization	134
--	-----

#### *Chronicle*

I. T. ELPERIN: Journal of Heat and Mass Transfer	137
--	-----

	<i>Page</i>
S. I. KOSTERIN, Y. A. KOSHMAROV and Y. V. OSIPOV: An investigation of flow and heat transfer of a rarefied gas in a flat supersonic nozzle	3
I. A. ZOTIKOV and L. N. BRONSKY: An experimental study of heat transfer during melting of metal and during feed of molten metal through a porous wall in a supersonic flow	10
V. G. MOROZOV: An experimental investigation of the stoppage of film boiling of liquid on a submerged heating surface	15
V. K. MIGAI: The aerodynamic effectiveness of a discontinuous surface	20
K. N. CHAKALEV: The heating of a plate with a moving heat-transfer surface	25
Y. Z. KAZAVCHINSKY and V. I. KUDASHEV: The determination of critical density of a real gas from data on the state of saturation	31
E. E. SHPILRAIN and E. I. ASINOVSKY: The calculation of the latent heat of vaporization of alkali metals	35
D. I. MARIEV: Thermodynamics of a cooled gas turbine	41
K. E. GORYAINOV and E. S. VEKSLER: Heat and mass transfer during heating of hardening cement	47
N. P. PITELINA and Y. V. KRASOVITSKY: The mechanism of action of a layered granular filter	52
N. I. SKVORTSOVA and Y. E. CHUDARS: The possibility of determining the humidity of peat by the neutron method	58
V. A. EMELIANOV and G. P. ZHAVRID: Methods of numerical solution of problems arising during optical investigation of axially symmetrical homogeneities	64
<i>Notes</i>	
B. S. KASIMOV and F. F. ZIGMUND: Regularities in the film flow on a vertical cylindrical pipe	71
O. Y. KOTSUBINSKY and E. S. ZALTSMAN: A method of calculating the cooling of flat castings in a mould	75
M. V. BUIKOV: Diffusion and thermal relaxation of an evaporating drop	78
L. K. VASANOVA, Y. N. SHIMANSKY and N. I. SYROMYATNIKOV: The measurement of temperature in poly-dispersion media during induction heating	82
G. I. PAVLOVSKY: Heat conduction in a two-layered plate in boundary conditions of the third type	86
D. E. TYOMKIN: The temperature field in a crystallizing ingot of cylindrical shape	89
A. S. TROFIMOV: Heat conductivity of many-layered heat-producing elements	93
I. G. MUSHKIN: Semiconductor universal psychrometer	97
<i>Survey</i>	
G. N. TRETYACHENKO: The theory of regular heat conditions	99
A. G. TYOMKIN: The temperature field of solids of complex shape in regular conditions	106
<i>Discussions</i>	
A. F. BEGUNKOVA, G. N. DULNEV, E. S. PLATUNOV, E. M. SEMYASHKIN, V. N. CHERKASOV and N. A. YARYSHEV: Regular heat conditions of solids of complex shape	122
I. A. PARKHOMENKO and G. P. BUINECHENKO: Remarks on the paper by G. N. Tretyachenko and L. B. Kravchuk "Regular heat conditions of solids of complex shape"	127
P. V. CHERPAKOV: The mathematical theory of regular heat conditions	130
N. A. YARYSHEV: Criteria of non-uniform temperature distribution and coefficients of shape of solids in regular conditions of the second type	135
<i>Criticism and Bibliography</i>	
A. V. LUIKOV: A valuable monograph on the theory of heat and mass transfer	141
<i>Obituary</i>	
VASILII EMELIANOVITCH MIKRIUKOV	143
