

## CONTENTS LIST

### JOURNAL OF ENGINEERING PHYSICS

Volume V, No. 5

May, 1962

	<i>Page</i>
Y. A. KOSHMAROV: The hydrodynamics and heat transfer of the turbulent flow of non-compressible liquid in the gap between rotating coaxial cylinders	5
S. I. KOSTERIN, Y. A. KOSHMAROV and Y. P. FINATYEV: An experimental investigation of the hydrodynamics of the turbulent air flow in the gap between rotating coaxial cylinders	15
L. N. PYATNITSKY and O. A. TSUKHANOVA: The calculation of the state of explosion products by the method of measuring shock wave parameters	21
V. A. RABINOVICH: An analysis of experimental thermal values and the equation of state for hydrogen	30
V. M. BRODYANSKY and I. L. LEITES: The relationship between the value of the Rank effect and the properties of real gases	38
E. A. VOITEHOVSKAYA: An approximate calculation of three-dimensional slowly changing non-uniform motion of fluids	42
S. S. ZABRODSKY: The expansion of heterogeneous pseudo-liquefied layers	48
A. S. GINSBURG and V. A. REZCHIKOV: The basic aerodynamic and structural characteristics of a pseudo-liquefied layer of grain	55
M. N. BODYAKO and S. A. ASTAPCHIK: The effect of temperature and heating time on the process of recrystallization of copper	61
A. A. ZENIN: Errors in readings of thermocouples passing through a flame	68
K. P. POLISHCHUK: The possibilities of controlled pulse heating	75
B. F. KALUGIN: The calculation of relative velocities of particles during pneumatic transport along horizontal pipes	82
<i>Notes</i>	
L. A. DORFMAN: The effect of unstabilized temperature of a rotating disk on its heat transfer	89
B. V. DERYAGIN, N. N. ZAKHAVAIEVA and S. V. ANDREYEV: The course of high-molecular fluids and their solutions in a thin layer	92
P. T. SMENKOVSKAYA and K. B. GISINA: The effect of the disposition of the heat source on heat and mass transfer with sublimation in a vacuum	96
Z. P. SHULMAN: The calculation of a laminar boundary layer with heat and mass transfer in non-compressible fluid	102
M. A. KOROBV: The application of the graphic method of constructing a thermal field to heat transfer calculations	105
L. A. DUDNIK: An investigation of thermal conditions of grids of miniature light bulbs	108
A. I. ZHERNOVOI: A new method of measuring consumption of fluid with the application of magnetic nuclear resonance	112
<i>Discussion</i>	
(Reaction to the article of Candidate of Sciences Borshchevsky, see <i>Journal of Engineering Physics</i> , Nos. 4 and 9, 1961).	
A. A. TSVID: Initial climatic data for heat engineering calculations	116
I. P. ZHUK: Heat transfer in protective building structures	119
<i>Chronicle</i>	
A. A. VINOGRADOVA: Conference of readers of the All-Union Journal of Engineering Physics and the International Journal of Heat and Mass Transfer (report)	124
S. S. ZABRODSKY: International Conference on Heat Transfer	131
Reader's Guide	136
