

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Vol. XIII, No. 4

October, 1967

	<i>Page</i>
B. M. BERKOVSKII, O. G. MARTYNENKO and O. I. KHOZYEEV: One type of thermohydrodynamic gas lens	425
V. L. GORYACHEV and A. D. LEBEDEV: Electric arc burning in a gas flow	431
G. M. VOLKOV, V. I. KALUGIN and I. A. FAIZULLIN: On some characteristics of oxidation of coal-graphite materials	438
P. P. LUGOVSKOI and B. P. MIRONOV: Influence of longitudinal positive pressure gradient upon critical parameter of injection	443
A. I. TAMARIN, V. D. DUNSKII and L. V. GORBACHEV: Study of heat transfer between a surface and a bed of moving particles	450
V. A. SHEIMAN and G. E. REZNIKOVA: Method for determining temperatures of packing and gases of rotating re-generator with disperse packing	455
V. D. RUMYANTSEV and I. D. SEMIKIN: Radiative heat transfer in a closed space consisting of three gray bodies and filled with gas	463
YU. G. ZHULEV: Optimal shape of single radiating elements	468
V. T. KUMSKOV and V. S. SIDOROV: Study of complex heat transfer at the starting length of the tube	476
S. P. DETKOV: Rationalization of general formulae of angular coefficients	482
A. D. REKIN: Differential equations for studying radiant heat transfer in absorbing and emitting medium	489
YU. A. POPOV: On the calculation of dispersion in radiant heat transfer	496
N. I. GAMAYUNOV: Solution of hyperbolic heat- and mass-transfer equations	503
R. SH. VAINBERG: Generalization of data on convective heat transfer with evaporation into a turbulent boundary layer	510
A. M. GRISHIN: On ignition by a catalytic surface	514
YU. G. YAROSHENKO and F. R. SHKLYAR: Heating of immovable two-component layer by a gas with different initial temperatures	522
P. A. SEMENOV and V. E. PIVOVAROV: Liquid flow between porous planes	530
S. M. APOLLONSKII and YU. P. KOS'KIN: On calculation of a boundary layer at the insulating wall of the MHD-channel	536
B. L. KRIVOSHEIN, E. M. MINSKII, V. P. RADCHENKO, I. E. KHODANOVICH and M. G. KHUBLARYAN: Numerical solutions of equations describing non-isothermal flows of real gas in pipeline	542
A. G. SHASHKOV and T. N. ABRAMENKO: Thermal conductivity of binary gas mixtures at low temperatures	549
P. I. LUK'YANOV, V. A. BITYUKOV and L. I. KHRISTIANOVA: On new property of fluidity of some loose materials	554

Shorter Communications

YU. I. SHIMANSKII: On the determination of concepts of relaxation time and quasi-stationary conditions of a process	560
B. A. BALANIN: On the length of mixing chamber of a supersonic ejector when ejection coefficient is equal to zero	564
B. L. RUBASHKIN: On the thickness of the layer carried along by a rotating cylinder partially dipped in a liquid	568
S. S. BATSANOV, G. S. DORONIN and V. P. STUPNIKOV: Specific features of shock compression of a substance in cylindrical ampules	572
N. N. DOLGOPOLOV, S. G. SIMONYAN and B. I. ARTAMONOV: Comparison of acoustic and convective drying	575
A. A. ZBOROVSKII: Solidification of ingot of killed steel	577

Chronicle

A. E. AEROV: On the book by A. J. EDE "An Introduction to Heat Transfer Principles and Calculations", Pergamon Press, Oxford, 1967	581
--	-----

Prominent Soviet Scientists

Vladimir Aleksandrovich Andreev. On his 75th birthday	582

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Vol. XIII, No. 5

November, 1967

	<i>Page</i>
Some advances in heat and mass transfer	597
A. A. FILYUKOV and V. YA. KARPOV: Description of steady-state transfer processes by the method of the most probable way of evolution	624
I. M. KAPURA, V. I. SEREBRENNIKOV and D. G. CHERNIKOV: Calculation of a two-phase flow in an axisymmetric supersonic nozzle	631
V. E. IONIN, N. G. SHESTERKIN and V. S. POPENKO: Theoretical and experimental study of the electric arc parameters	639
V. A. MOROZOV and L. I. KISELEVSKII: On the mechanism of body destruction under the action of supersonic plasma jets of a capillary discharge pulse	644
P. V. SERGEEV, G. A. SHEPEL' and R. Z. GABBASOVA: On the density of anode current in electric carbon-electrode arc	649
B. D. VORONIN, M. YA. SMELYANSKII and A. M. TSIRLIN: Calculation methods for the electric arc generator with eddy gas arc stabilization	656
G. M. VOLOKHOV, A. G. SHASHKOV and YU. E. FRAIMAN: Some methods and instruments for the study of thermal properties	663
G. N. DULNEV and Z. V. SIGALOVA: Effective thermal conductivity of granular materials	670
M. KH. SOSNA and N. B. KONDUKOV: Criteria and formulae for calculating the rate of fluidization	686
A. S. GORSHKOV: Diffusion of a dissolved gas in a flow with a stationary cavity	691
S. P. DETKOV: To a diffusional approximation in radiant energy calculations	695
E. I. NEVSTRUEVA and I. M. ROMANOVSKII: On scaling mechanism in non-saturated or saturated boiling of an aqueous solution	701
L. A. KOZDOBA: Method of solution of a set of non-linear heat and mass transfer equations by networks and combined electrical models	709
I. L. LYUBOSHITS: Development of drying techniques in the U.S.S.R.	715
A. V. LUIKOV, V. A. SHEIMAN, P. S. KUTS and L. S. SLOBODKIN: Approximate calculation method of drying kinetics	725
YU. YA. BORISOV and N. M. GYNKINA: Influence of acoustic oscillations on drying of capillary materials	735
V. V. KAMENKOVICH, A. S. ZHELEZNOV and E. P. MEDNIKOV: Kinetics and mechanism of acoustic drying of capillary-porous materials	743
<i>Survey</i>	
S. PABIS: Scientific achievements in agricultural drying in Poland	749
A. A. ALEKSASHENKO and V. A. ALEKSHASHENKO: Solution of non-linear heat conduction problem with fourth-kind boundary conditions	754
<i>Book Review</i>	
I. L. LYUBOSHITS and I. T. EL'PERIN: On the book "Spraying Dryers" by M. V. LYKOV and B. I. LEONCHIK	759
<i>Reader's Guide</i>	
Heat and Mass Transfer Bibliography	761
