

ERRATUM

V. R. SKINNER, A. R. FREEMAN and H. G. LYALL: Gas mixing in rod clusters, *Int. J. Heat Mass Transfer* **12**, 265–278 (1969).

In the original copy of this paper, Fig. 7 is incomplete. Only the variation of the constant A with axial distance in the empirical expression for gas mixing [given by $(\bar{C}_1 - \bar{C}_2)/(\bar{C}_1 - \bar{C}_2)_0 = ARe^n$] is shown. The variation of the constant n with axial distance is given in the above figure.
