

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume XIV, No. 2

February, 1968

	<i>Page</i>
I. A. BARSKII: Temperature of turbine blades in periodic variation of gas temperature	193
V. S. ERMAKOV and G. I. KHUTSKII: Heating dynamics of the elements in a power unit in an automatic start	200
S. E. PIHLAJAVAARA: Studies of the effect of gravitation on drying with special reference to concrete	208
G. L. BABUKHA and A. A. SHRAIBER: Determination of particle collision effect of polyfractional material in a two-component flow	218
S. S. ZABRODSKII and S. A. MALYUKOVICH: On heat exchange of a fluidized bed with a high-temperature surface immersed in it	224
L. A. Minukhin: An experimental study of heat transfer in liquid condensation of water vapour on a vertical tube	234
A. F. KOVAL'NOGOV and V. K. SCHUKIN: Heat transfer and hydraulic resistance in tubes with blade twistors	239
E. P. DYBAN and E. YA. EPIK: Heat transfer in the initial region of a tube in natural turbulization of air flow	248
A. A. OTC: Theoretical study of burning polyfractional coke dust of fuels rich in ash with their low density	253
YU. A. SURINOV and I. A. POLYUSHKINA: Numerical study of local properties of radiant heat transfer for a couple of parallel discs	261
YU. G. ZHULEV and YU. F. POTAPOV: Study of a radiating system with conical heat removing pins	267
V. S. NOVOPAVLOVSKII: Approximate determination of conductivity in flat figures	273
R. A. PAVLOVSKII: Approximate solution of combined heat conduction problem for semi-space	282
B. A. IVAKIN and P. E. SUTIN: One solution of the diffusion equation	288
V. T. OMEL'CHENKO: Study of temperature of contact elements in opening	292
V. A. MAKOVSKII: Dynamic analysis of unsteady heat transfer in a fixed bed of spheres at variable temperature of gas flow	297
A. KH. KIM and B. I. LAFUSHINA: Fluid flow with rheological characteristics in circular cylindrical curve	304
S. P. MALYSHENKO: Treatment of experimental results by method of least squares	309
P. N. DZHAPARIDZE and I. N. LANDAU: Simultaneous determination of thermal properties of dispersed materials in heating	314
A. G. SHASHKOV and T. N. ABRAMENKO: Thermal conductivity of polar gas mixtures	322
N. N. MEDVEDEV: Determination of thermal properties of loose materials and thick beds of various materials	329
I. G. LEONOV, V. G. PIKULIC and A. V. FEDOTENKO: Radiational method of studying thermal properties of elements of semiconductor radioelectronics	334
I. F. VOLOSHIN and N. M. NEDOSEKINA: Asymmetric thermal conductivity of semiconductor rectifiers	338
O. I. IL'YARSKII: Determination of heat load on a thermocouple	343
V. V. KHARITONOV: Radiation of a heat conducting bar in vacuum	347
S. V. SHTEINMAN and D. V. FEDOSEEV: Hydrodynamic analogy applied to flow in supersonic nozzle	351
A. E. PASS and N. I. VERLATYI: Simulation of functional dependences between air parameters	354
<i>Reader's Guide</i>	
Heat and Mass Transfer Bibliography	359

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R. in Russian with English abstracts)

Volume XIV, No. 4

April, 1968
Page

I. I. CHERKASOV, V. V. MIKHEEV, M. I. SMORODINOV, N. M. ZOBACHEV, I. L. MIKHAILOV, A. V. MOROZOV, V. P. PETRUKHIN and V. V. SHVAREV: Determination of structural-mechanical properties of lunar ground with the help of the automatic lunar station "Luna-13"	581
S. I. ISATAEV and Z. Zh. ZHANABAEV: Heat transfer of a sphere in jet flow	586
K. A. MALINOVSKII: Experimental study of a real gas jet	593
E. M. KHABAKHPASHEVA and B. V. PEREPELTSIA: Velocities and turbulent pulsation fields for small additions of high-molecular substances to water	598
A. I. ILCHENKO, V. S. PIKASHOV and K. E. MAKHORIN: The study of radiation heat transfer between a fluidized bed and bodies immersed into it	602
G. N. DULNEV: Thermal resistance of various configuration envelopes	609
V. V. KHARITONOV: To the problem of the determination of heat insulating properties of closed envelopes	615
F. D. MIROSHNICHENKO and V. L. SNEZHNOI: The problem of the magnetic field effect upon phase conversions in austenitic stainless steels	620
Z. R. GORBIS: Hydrodynamic theory of heat transfer with gas-and-liquid suspension through-flows	626
S. E. SAKS: Hydraulic resistances in turbulent flows of thin disperse aeromixtures	633
N. I. NIKITENKO: Explicit difference solution method of the equations of thermal and hydrodynamic boundary layers	639
K. S. STRELKOVA: Solution of a mixed boundary-value heat conduction problem in a composite rectangle	645
S. S. SLOBODYANNIKOV: Electric simulation of heat generation in a non-stationary friction contact	651
A. A. FILYUKOV and V. B. MITROFANOV: Peculiarities of variational formulation of the general evolution criterion in the method of local potential	658
A. A. EMEL'YANOV: Temperature stresses in a plate of finite thickness with uni- and bilateral harmonic oscillations of the medium temperature	666
E. A. IODKO: Calculations of thermal stresses in the envelopes of solidifying bodies	674
V. V. BORUNOV, V. S. EGOROV and A. G. LANIN: Temperature stresses in a cylinder tested for heat resistance under the conditions of variable heat transfer	683
YU. L. RASTORGUEV and YU. A. GANIEV: Thermal conductivity of liquid solutions	689
K. N. CHEKALEV and L. K. BELOPUKHOV: Measurements of specific heat capacities with the help of an electronic calorimeter	698
E. V. SMIRNOV, E. E. SHKLYAREVSKII and G. F. MUCHNIK: Properties of metals drifted on backing material by a plasma method	705
A. P. VOINOV: Study and development of the measurement method of filling particles form-factors	711
V. S. POPOV: Distribution of small disturbances in gases containing suspended solid particles	716
N. V. PASHATSKII and N. I. SYROMYATNIKOV: Calculation of two phase mixture flow parameters in a cross-sectional channel	722
I. L. LYUBOSHITS, I. F. PIKUS and N. G. ALKHANASHVILI: Some drying laws of granulated sugar in a pneumatic tube outer heating	726
M. G. MURASHKO and N. I. KURBATOVA: Experimental study of interaction between mass transfer potentials in various measurement scales	731
E. P. DYBAN and E. YA. EPIK: Heat transfer in the inlet tube region with higher levels of initial flow turbulization	735

Shorter Communications

L. I. URBANOVICH: Temperature distribution and heat transfer in a laminar incompressible flow in an annular channel with energy dissipation	740
V. V. SALOMATOV and E. I. GONCHAROV: Temperature field of an infinite plate with various values of the heat-transfer coefficient and temperature of external medium	743
GEORGII IOSIFOVICH LAPPA-STARZHENETSKII	746

Book Reviews

N. P. UDALOV and O. L. IL'YARSKII: On the book by I. F. Voloshin and V. A. Palagin <i>Transient processes in thermistor circuits</i> , Nauka i Tekhnika, Minsk (1967)	748
V. M. BORISHANSKII, G. N. DULNEV and M. A. GOTOVSKII: On the book by B. S. Petukhov <i>Heat and resistance in tubes with laminar fluid flows</i> , Energiya (1967).	750

Reader's Guide

Contents List of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 10, Nos. 11 and 12 (1967).	751
