

## ANNOUNCEMENT

### INTERNATIONAL CONFERENCE ON NUMERICAL METHODS IN THERMAL PROBLEMS

(7-10 July 1981)

and

### INTERNATIONAL CONFERENCE ON NUMERICAL METHODS IN LAMINAR AND TURBULENT FLOW

(13-16 July 1981)

*Both to be held in Venice, Italy*

FOLLOWING on from the first conferences held in Swansea, these second conferences will be held with the view of consolidating the recent advances in the application of numerical techniques, particularly finite difference and finite element methods, to the solution of thermal and fluids problems.

Authors are requested to submit papers to the appropriate conference using as a general guide: Thermal Problems—emphasis on heat transfer, Laminar and Turbulent Flow—emphasis on mass transfer.

#### *Call for papers*

Abstracts are invited on the topics outlined in the provisional

program. Other papers of merit on related topics will also be considered for inclusion. The abstracts should be approximately 300 words in length and submitted before 1 September 1980. Final papers will be required by 1 February 1981 for inclusion in the appropriate Conference Proceedings.

Abstracts for both conferences should be sent to:

Dr. C. Taylor  
Department of Civil Engineering  
University College  
SWANSEA SA2 8PP  
U.K.
