

## Eighth National Heat and Mass Transfer Conference

December 1985, College of Engineering, Department of Mechanical Engineering, Andhra University, Visakhapatnam, India

THE MAIN objective of the Conference is to bring together various members in industry, educational institutes and research organisations in India and abroad for a thorough exchange of ideas in various areas of heat and mass transfer. The focus of the Conference would be on new areas of basic and applied research with special reference to energy.

Papers are invited in the following areas :

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>● Diffusional heat and mass transfer</li> <li>● Convective heat and mass transfer</li> <li>● Radiative heat transfer</li> <li>● Two-phase flows</li> <li>● Thermo-physical properties</li> <li>● Renewable energy systems</li> <li>● Computer applications in heat and mass transfer</li> </ul> | <ul style="list-style-type: none"> <li>● Heat and mass transfer in rotating machinery</li> <li>● Design of heat and mass transfer equipment for process industry</li> <li>● Thermal problems in metallurgical operations</li> <li>● Thermal insulation</li> <li>● Measurement techniques</li> </ul> |
|--|---|

*For information contact :*

Dr P. K. Sarma  
 Organizing Secretary  
 VIII National Heat and Mass Transfer Conference  
 Dept of Mechanical Engineering  
 Andhra University  
 Visakhapatnam 530 003  
 India.

Dr M. V. Krishnamurthy  
 Secretary  
 Indian Society for Heat and Mass Transfer  
 Indian Institute of Technology  
 Dept of Mechanical Engineering  
 Madras 600 036  
 India.

All manuscripts will be reviewed and only those accepted can be presented at the Conference and will be included in the Proceedings.
