Meguro-ku, Tokyo 152, Japan

## CONDUCTION

- T. Saitoh, Recent development in moving boundary problem and applications to advanced technology, *J. Japan Soc. Mech. Engrs*, Series B **90**(822), 577 (1987).  
T. Saitoh, A numerical method for multidimensional freezing problems with arbitrary geometry, *Refrigeration* **63**(724), 164 (1988).  
M. Tajima, T. Maki and K. Katayama, Study of heat transfer phenomena in quenching of steel (an analysis of cooling curves accompanied with phase transformation), *J.S.M.E. Int. J.*, Series II (English) **31**(1), 98 (1988).  
M. Tajima, T. Maki and K. Katayama, Study of heat transfer phenomena in quenching of steel (2nd report, an analysis of cooling curves accompanied with phase transformation), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(495), 3383 (1987).  
T. Yoshida and S. Tanaka, Availability of one dimensional analysis for extended surface heat transfer, *Trans. Japan Soc. Mech. Engrs*, Series B **53**(487), 1005 (1987).

## FORCED CONVECTION

- S. Aiba, Heat transfer of two circular cylinders fixed on a plane wall aligned in a cross-flow of air, *J.S.M.E. Int. J.* (English) **30**(270), 1943 (1987).  
S. Aiba, Heat transfer of two circular cylinders fixed on a plane wall aligned in-line in a cross flow of air, *Trans. Japan Soc. Mech. Engrs*, Series B **53**(492), 2537 (1987).  
T. Aihara, W.-S. Fu, M. Hongoh and T. Shimoyama, Heat transfer from heated bodies in air-water mist flow (4th report, an experiment on a horizontal cylinder with uniform wall temperature under the influence of blockage), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(492), 2567 (1987).  
Y. Aoyama, K. Hijikata, K. Futagami and Y. Nomoto, Turbulent heat transfer enhancement by a row of twisted plates, *Trans. Japan Soc. Mech. Engrs*, Series B **53**(487), 991 (1987).  
T. Fujii, S. Koyama and K. Shinzato, Turbulent forced convective heat transfer inside a locally heated tube (numerical analysis considering heat conduction within the tube wall), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(492), 2528 (1987).  
M. Fukagawa and S. Honami, A study on film cooling (the behaviour of the jet in the lateral injection), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(492), 2554 (1987).  
H. Fuse, T. Oyama, M. Shimoyoshi and A. Kajiya, Heat transfer mechanism on the rear surface of a cylinder (the effects of cylinder diameter on the rear heat transfer), *Res. Rep. Fac. Engng Kagoshima Univ.* No. 29, 7 (1987).  
K. Ichimiya, N. Hosaka and R. Echigo, Size effect of a heated slab on impingement heat transfer caused by a

- laminar slot jet, *Trans. Japan Soc. Mech. Engrs*, Series B **54**(497), 142 (1988).  
T. Ito, D. Kasao and M. Yamaguchi, An experimental study on the forced-convection heat transfer to supercritical helium flowing downward, *Mem. Fac. Engng Kyushu Univ.* (English) **47**(1), 1 (1987).  
N. Kasagi, M. Hirata, M. Ikeyama, M. Makino and M. Kumada, Full-coverage film cooling on the curved walls (3rd report, cooling effectiveness on concavely and convexly curved walls), *Trans. Japan Soc. Mech. Engrs*, Series B **54**(497), 217 (1988).  
S. Kikkawa and K. Ozaki, The effect of the density ratio of injectant and main stream on film cooling effectiveness on a gas turbine blade, *Trans. Japan Soc. Mech. Engrs*, Series B **53**(490), 1832 (1987).  
H. Kimoto, H. Yoshinobu and H. Yoneyama, A study of convection heat transfer of a horizontal heated circular cylinder in a vertical conduit, *Trans. Japan Soc. Mech. Engrs*, Series B **53**(487), 997 (1987).  
M. Kuriyama, E. Harada and H. Konno, Enhancement of heat transfer from horizontal cylinder banks by use of corona wind, *Kagaku Kogaku Ronbunshu (Trans. Chem. Engng Japan)* (English) **13**(4), 429 (1987).  
I. Mabuchi, K. Yamada, M. Kumada and M. Hiwada, Studies on the enhancement of forced convective heat transfer in three-dimensional rib-roughened tubes (1st report, in-line arrangement), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(487), 1009 (1987).  
I. Mabuchi, K. Yamada, M. Kumada and M. Hiwada, Studies on the enhancement of forced convective heat transfer in three-dimensional rib-roughened tubes (2nd report, staggered arrangement), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(487), 1016 (1987).  
O. Miyatake and H. Iwashita, Laminar-flow heat transfer to a fluid flowing axially between cylinders with a uniform wall heat flux, *Kagaku Kogaku Ronbunshu (Trans. Chem. Engng Japan)* **13**(2), 152 (1987).  
M. Reza Motamed Ektesabi, M. Sako and T. Chiba, Fluid flow and heat transfer in wavy sinusoidal channels (1st report, numerical analysis of two dimensional laminar flow field), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(487), 722 (1987).  
M. Reza Motamed Ektesabi, M. Sako and T. Chiba, Fluid flow and heat transfer in wavy sinusoidal channels (2nd report, pressure drop and flow pattern of turbulent flow field), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(491), 1993 (1987).  
S. Mochizuki and Y. Ohta, A fluid flow and heat transfer in two parallel co-rotating disk system, *Trans. Japan Soc. Mech. Engrs*, Series B **53**(493), 2835 (1987).  
S. Mochizuki and Y. Yagi, Pressure drop and heat transfer characteristics of the fluid flow through an array of interrupted, parallel-plate heat transfer surfaces, *Trans J.A.R.* **4**(2), 97 (1987).

- E. Naito and Y. Nagano, Combined forced free convection in the entrance region between inclined parallel plates (1st report, the developing velocity and heat transfer for upward flow), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(497), 155 (1988).
- A. Nakayama, H. Koyama and T. Watanabe, Fluid flow and heat transfer within ducts of a cross-shaped cross-section (3rd report, measurements of turbulent flow field and examination of the data), *Trans. Japan Soc. Mech. Engrs*, Series B **53**(489), 1573 (1987).
- T. Oyama, H. Fuse and A. Kajiyu, Temperature distribution of the wake behind a cylinder, *Res. Rep. Fac. Engng Kagoshima Univ.* No. 29 (Nov.), 1 (1987).
