

ANNOUNCEMENT

3rd International Thermal Energy Congress

28 July–1 August 1997, Kitakyushu, Japan

OBJECTIVES

- To provide a firm bridge between Asian countries and the rest of the world in the field of thermal energy technologies.
- To provide forums and to encourage dialogues at all levels, thus stimulating the professional communities and enhancing technical activities in the field.
- To accelerate developments, innovations, implementations of R&D and exchange of information in the field.

TOPICS

- Thermodynamics
- Heat and mass transfer
- Energy conversion

- Environment protection
- Energy systems, optimization and control
- New and renewable energies
- Energy economics
- Experimental techniques.
