

## ANNOUNCEMENT

### TIEES-98: Second Trabzon International Energy and Environment Symposium

27–29 July 1998, Karadeniz Technical University, Trabzon, Turkey

#### OBJECTIVES AND SCOPE

The first symposium, TIEES-96, was a great success. Now the second symposium, TIEES-98, will build upon that success and widen its international and local participation. TIEES-98 is organized by the Karadeniz Technical University, King Fahd University of Petroleum and Minerals, University of Victoria, University of Miami and Istanbul Technical University. TIEES-98 is planned to provide a forum for researchers and practitioners from all over the world to exchange information, present new developments, and discuss the future direction and priorities in the field of energy and environment.

Some key areas of TIEES-98 include, but are not limited to:

- Biomass and bioenergy
- Combustion
- Energy and environment modeling
- Energy conservation
- Energy, environment and buildings
- Environment and pollution
- Fuels and alternatives
- New and clean energy technologies
- Nuclear energy
- Thermal energy storage
- Thermal parameters and measurements
- Thermal systems
- Thermodynamics, heat and mass transfer, and fluid flow
- Trace gas emissions and monitoring

#### FORMAT

The format of TIEES-98 will be arranged with the major elements as general papers presented in oral and poster sessions, keynote papers by invited speakers, and panel sessions on special subjects. There will also be film and video sessions, equipment and book exhibitions, and social events and tours. All papers will be reviewed under the direction of the International Advisory Committee. Accepted papers in English only will be published in the proceedings of the symposium. The official language of the symposium is English.

#### PROCEEDINGS

The proceedings will contain all contributed and invited papers, and will be published by Begell House Inc. The proceedings will be sent to the contributors by the publisher some time after the symposium.
