

ANNOUNCEMENT

TIEES-98, Second Trabzon International Energy and Environment Symposium

27-29 July 1998, Karadeniz Technical University, Trabzon, Turkey

OBJECTIVES AND SCOPES

The first symposium, TIEES-96, covered 13 keynote papers, nearly 200 technical papers from over 30 countries, and over 20 exhibitors. By all considerations, this meeting was a great success, as it brought together researchers from different backgrounds and different countries, all of whom have a common interest in energy and the environment. Now the second Symposium, TIEES-98 will build up on that success and widen its international and local participation. The TIEES-98 is organized by the Karadeniz Technical University, University of Victoria, University of Miami and Istanbul Technical University.

The TIEES-98 is planned to provide a forum for researchers and practitioners from all over the world to exchange information, present new developments, and discuss the future direction and priorities in the field of energy and environment. The language of the TIEES-98 is English.

Papers describing current research on energy and environment from fundamental sciences to applied technologies are hereby solicited. Some key areas of the TIEES-96 include:

- Biomass and bioenergy
- Combustion
- Energy and environment modelling
- Energy conservation
- Energy, environment and buildings
- Environment and pollution
- Environment protection and control
- Fuels and alternatives
- New and clean energy technologies
- Nuclear energy
- Solar energy
- Thermal energy storage

- Thermal parameters and measurement techniques
- Thermal systems
- Thermodynamics, heat and mass transfer, and fluid flow
- Trace gas emissions and monitoring

PROCEEDINGS

The proceedings will contain all contributed and invited papers, and will be published by Begell House Inc. The proceedings will be sent to the contributors by the publisher some time after the symposium. A volume of abstracts will be included in the registration package.
